*“Learn everything that is good from others, but bring it in,
and in your own way absorb it; do not become others.”*

Swami Vivekananda

It feels as if months have been disappearing in the blink of an eye and we are ready with a milestone, which marks our growth, unfolds our imagination and gives life to our thoughts and aspirations. As stated by APJ Abdul Kalam, “We all are born with a divine fire in us. Our efforts should be to give wings to this fire and fill the world with the glow of its goodness.” Bearing this concept, the Editorial Board has left no stone unturned, to kindle the fire in the emerging writers and present you with the new edition of ‘Illuminer’ with the theme ‘Awaken the Leader in You’.

When the concept of leadership is heard, we are often reminded about the major personalities around us and their contribution to the society. Whereas, the DeeSians hone their skills with the opportunities provided to them for turning out to be true and effective leaders. Their abilities and potentialities can be experienced when you flip through the pages of this magazine.

As everyone is aware that true and effective leadership begins young and there is a leader hidden in each one of us, here at DSE every child comfortably taps those areas and brings out the best in them. They even display effective leadership by leading through an example which invites others to stride along with them.

To err is human, DeeSians venture ahead their journey by learning how to handle a mistake and being humble at acceptance and helping others feel comfortable to ask for help and advice. The characteristics of vision, value, wisdom, courage, trust and a voice that can influence others is not only imbibed in each and every child but also implemented at different points of their journey. The moment you start ruffling through these very pages you will surely analyze the potentials of our gems.

Altogether, I would like to briefly thank everyone for their inputs in the creation of this magazine. In every issue, we try our best to ensure that you have quality reading to interest every single reader; everything we do is for you, dear readers.

Enjoy reading!

*“We cannot always
build the future for our
youth, but we can build
our youth for the future.”*

Franklin D. Roosevelt

These words of Franklin D. Roosevelt perfectly describe the aim of Delhi School of Excellence where each and every member of the family strives to do their best and achieve the finest. The future is abstract and unknown but the youth of India are in our hands who can be moulded by striving beyond the boundaries of mere books.

I feel privileged to share with you all that we do not create the future but we craft the children for the future. It is rightly believed that there are strong challenges to great efforts and great efforts bear the sweet fruit of success. And this is what, we at DSE induce in the minds of our students.

We also equip every child with leadership and managerial skills and craft them for the future. The theme of the magazine, 'Awaken the Leader in You' surely makes a cherishing moment for all the DeeSians as the knowledge, the fine qualities and the skills required for an effective leader are very well displayed.

I am highly elated that the school is all set to release the Third Edition of the Annual School Magazine- 'Illuminer' and I extend my warm wishes to the Principal, Staff and Students to continue this journey on the road to excellence with effective leadership skills.

*“Innovation distinguishes
between a leader
and a follower”*
Steve Jobs

It is indeed a great pleasure to pen down a few lines for 'Illuminer' – the third edition of the Annual school Magazine. I feel that an educational system is not worth a great deal if it only teaches the young ones how to make a living but does not teach them how to live a full life. Here, at Delhi School of Excellence, young minds are nurtured to bloom to their fullest capacity and usher in a fragrant tomorrow. The faculty here serves as the guiding light to the students and endeavours to make learning much more fun. They are encouraged to learn by practice through hands - on experience where there are new and interesting things to imbibe.

It is our earnest effort to provide a wholesome atmosphere where the children feel free to exhibit their leadership. The school provides a perfect blend of traditional values with modern innovation. It keeps them rooted in their culture while at the same time broadens their horizons towards the latest that this world has to offer.

I feel proud to see the rising graph of success of the school along with the children and I am sure the readers will agree with me after you experience the achievements of children through this magazine which lightens the successful leadership skills of our students.

I congratulate the editorial board for bringing out the skills of the students. Keep up the good work!

*“Leadership and learning
are indispensable
to each other.”*

John F. Kennedy

I am happy to learn that DSE Banjara Hills is bringing out its annual magazine, 'Illuminer' with the theme 'Awaken the Leader in You.'

Academic excellence with character and personality development is our ultimate goal. The well chalked out academic and co-curricular programme enables the students to attain their full potential to develop good work habits. The academic work is centered on highly personalized attention and supervision by a very competent team of teachers who strive to focus on each and every child, monitor and mentor them, appreciate their achievements and encourage them to overcome their shortcomings.

We spare no efforts to make the educational experience of our students meaningful and relevant to the socio-economic needs of the time and equip our students to face the challenges of the future for leading the society from the front. At the same time, they enjoy their experience of learning.

I congratulate the editorial board for their fatigable efforts in bringing out this edition which is truly the reflection of ingenuity and versatility of our students who have been offered many opportunities to explore their interest and investigate new ideas.

I extend my greetings and best wishes to the teachers and students and wish their endeavours my very best.

K. M. Ramadevi

“Leadership is about making others better as a result of your presence and making sure that the impact lasts in your absence.”

It gives me immense pleasure to note that the third edition of 'Illuminer', the Annual Magazine of DSE ,Banjara Hills, is being rolled out with a special emphasis on 'Awaken the Leader in You.'

I strongly believe that a leader is not born, he/she is made one. Everyone can rise above their circumstances and achieve success if they are dedicated to and passionate about what they do. The quality of a leader is reflected in the standards each one sets for himself. That being said, it is a foregone conclusion that making a difference is a necessary quality of a leader.

Leaders become great not because of power but because of their ability to empower others. This is rightly proved on the Investiture Ceremony where the student leaders are inducted into the School Governing Council thereby setting an example for the juniors. Through innumerable opportunities that come one's way, every student must aim from being ordinary to extraordinary. This can only be possible by realizing one's potential and learning to lead by example.

DSE , Banjara Hills is striving to march ahead providing a pathway to maximize children's potential. I am very confident that with the unbridled zeal that is inherent in every student, the progressive spirit can manifest itself.

With Best Wishes!

“Leadership is hard to define and good leadership even harder. But if you can get people to follow you to the ends of the earth, you are a great leader”

Indra Nooyi

Leadership is a quality which cannot be acquired by any person from the other, but it can be acquired by self-determination of a person. It can best be called the personality of the very highest ability - whether in ruling, thinking, imagining, innovation, warring, or religious influencing.

I believe we are all natural born leaders, but have been deprogrammed along the way. Children are natural leaders - curious and humble, always craving for knowledge, with an incredibly vivid imagination. They know what they want, and are persistent and determined in getting what they want, and also have the ability to motivate, inspire, and influence everyone around to help them in accomplishing their mission.

Holistic learning includes inculcating leadership skills and this is the vision of DSE. As leadership becomes one of the most wanted strategic qualities across professions such as business and industry, technology, politics, medicine, and the arts around the world — the role of parents, teachers and mentors become critical in assisting with the development of leadership attributes, qualities and skills in their children right from an early start.

I congratulate the Editorial Board for coming out with the Third Edition of the Annual School magazine successfully. The theme, 'Awaken the Leader in You' taken for this year has been well portrayed and presented. I wish DeeSians all the very best!!

Four years ago when I stepped into DSE, I felt that I had taken a small baby in my arms. I wished to caress, cuddle and nurture this infant to my heart's content. We started the humble journey of imparting knowledge and honing skills with a tiny group of 200 learners. Meticulous planning, diligent execution smeared with passion instantly struck the chords of both parents and children. In a very short span of time, DSE made an indelible mark on the skies of the twin cities. There has been no looking back since then. Academics and Co scholastic Activities on campus create a lively and energetic environment in school, consequently breeding a clan of happy learners.

Every DeeSian is given the opportunity and guidance to come out of their shells and face the world with grit and determination. In each DeeSian, we see an amazing leader, who believes in transformation and transparency.

Our goal is to ensure that all students become critical thinkers, active problem-solvers, inquisitive readers, diligent researchers and prolific writers. We do all of this to prepare them for the demands of the real-world so that they may become productive citizens, become our future leaders, contribute and give back something positive to the community.

So, together, let's awaken the leader in our children!

Kalyani Chaudhuri
Headmistress

My child has been associated with this school since the inception and I found a lot of progress in him. All the activities conducted in the school enable my child to develop physically and mentally. In this respect I would like to thank all the teachers who had been instrumental in bringing up my child with exceptional skills. I am satisfied and suggest other parents to opt for DSE, which brings in an all-round development of a child.

P/o Taquy Retiwalla, VA

Being the parent of Sreethan, Grade VI and Anvita of Grade IX, I feel proud to be part of this prestigious institution for the past three years. I am extremely happy with the pattern of teaching, the different co-curricular activities being conducted and the mentoring of the teachers in all aspects. Their support and guidance has enabled my child, Sreethan to come out of the shell and become an extrovert. His performance during the academic fair and the development of the outspoken skills has allured me a lot.

P Kavitha P/o P Anvita, IX A & P Sreethan, VIB

It is a nostalgic moment for me to share my views about DSE where my children feel very comfortable and at home. There are incidents when I, as a parent has refrained them from going to school the next day after attending the party but it makes me happy to see the zeal and enthusiasm they display in attending the school and requesting me to send them to school. This is all because of the environment provided at school and the approachable attitude of each and every one present there. The confidence and over all development of my kids is only through the support of the management and the teachers who have put in their utmost efforts in bringing about the change. Compared to the previous school, I feel DSE is homely and approachable always.

Chaitali Solanki P/o Freya Solanki, VII A

It is my pleasure to be associated with the DSE family where my kids have developed their confidence and public speaking skills. The different class activities and assemblies enable them to face a large audience. The approachable attitude of the teachers and their experience has added on to the enhancement of my daughters. The other schools are also following the same curriculum and the co-curricular activities but the balance in DSE is something commendable. The co-curricular activities like Master Chef, Art, Music etc. have also helped my kids in honing their skills. On the whole the support and encouragement extended by the management and the staff is appreciable and makes me suggest others to join the family.

P Srenika P/o P Amulya, VII B & Kavya X

The future of my kids in India was the biggest concern for me after returning from the UK, but Delhi School of Excellence has given me the pleasure and solace by enabling my children to gain overall development. I am extremely happy to see the progress of my kids who have coped well and excelled in all fields. I thank the management and the teachers for the same.

Vallinath Anumula P/o Sharanya Anumula, VII A

We have recently shifted from Dubai and the experience with this school is excellent as every teacher is approachable and friendly. My kids have excelled as well as developed their skills only with the support of teachers and the learning environment provided by the management. At times, I wonder listening to them about new things which I am not aware of. Thank you and keep doing the best.

Nisha Kumar K P/o Khushi Naidu Kilaparti, VIII A

I am extremely happy with the different activities taking place in this school and I would like to express my views that these activities enable children to gain good exposure towards learning. Though my children are new to this institution still they do not feel so and always exhibited zeal and enthusiasm in attending the school. I thank the management for providing such a learning environment to all the students.

Jagmohan Singh P/o Jaskeerath Kaur, VII A

We moved from the UK two years ago and were very apprehensive about the education of my three kids. In this regard we surveyed plenty of schools and analyzed that Delhi School of Excellence is the best. The teachers had a friendly approach not only towards the local students but also the NRI children. My kids took very little time to get adjusted in this school as the support of the teachers helped them to excel both academically as well as physically. I have been referring to other parents also about DSE and I wish the management and the teachers all the best in their future endeavours.

Imagination is more important than knowledge, while knowledge defines all that we currently know and understand, imagination points to all we might yet discover and create.

Albert Einstein

At Delhi School of Excellence, children are informed what to do and you would be surprised to see the children finding their own ingenious methods in accomplishing the tasks. We try to inculcate a learning environment where each child gets complete freedom to hone their potentialities and interests. Here, the teachers are not only the source of knowledge for children but also facilitate them to learn from given situations and experiences and help them to move from KNOWN to UNKNOWN, NEAR to FAR and from LOCAL to GLOBAL. Our motto 'Knowledge is Power' is our guiding force and we remain committed to our endeavours.

Children are that source of light which can brighten up a nation. Let's come together in building a joyous and beautiful childhood for our children. In this pursuit of excellence, I appreciate our parent fraternity and the management for supporting the school in every aspect and bestowing their faith and confidence in us.

*“Leadership is not about titles, positions, or flowcharts.
It is about one life influencing another.”*

John C. Maxwell

Leadership is the ability to influence others towards the achievement of goals that contribute to a worthwhile purpose. So it is about enabling change that helps followers to make a contribution. The students of Grades I & II are moulded to the path of leadership by providing opportunities to grow, to be courageous, passionate and authentic. They whet their actions to inspire other people to be their best, to get more out of life than they ever thought. At this level the students gain hands on experience when the leadership skills are imparted which indirectly enables them to lead themselves and others in this hyper-competitive world.

Ultimately today's students are tomorrow's citizens displaying effective leadership and also the key to large-scale sustainable education reformers. The activities conducted throughout the year and the exposure at this level plays a vital role in moulding them into effective leaders.

School elections provide a unique civic learning experience through practice. It helps the students to have a vision and make a right decision. It encourages electoral participation, engages students as fully as possible in the democratic process and acquaints them with formal voting. The students also learn about their rights, duties, and responsibilities in a democracy and also develop understanding of how they can influence what happens in their school and community.

Prefects are referred to as student government who help the administration maintain a friendly and orderly atmosphere amongst the students. They also help to manage, guide and lead the team for smooth functioning of the school activities.

KNIGHTS

MOTTO: MARCHING FORWARD

"The most powerful leadership tool you have is your own personal example"

John Wooden

ASMA IFFATH
HOUSE MENTOR

Leadership is a journey of discovery. It is the expression of a person at his or her best whose aim is to transform something for the better and to develop this potential in others. It is not a solitary pursuit but one that harnesses the energy of those around you. No two individuals express leadership in the same way. Each one of us can be a unique leader, and that is why trying to put leadership into a box always fails.

Leadership is a process in which leaders and followers engage to achieve mutual goals. We are all leaders and followers at different times. Followership is not a passive role but a dynamic one: Followers ensure that the leader follows the purpose.

I believe that all children are gifted and have that spark which can ignite people of any age. Leaders are not made they are born; it was hence proven by Knights who displayed to their grit and determination by winning the Sports Trophy for the year 2016-17. One needs to work hard to achieve success. Kudos to each and every child for setting such a good example to others as well as proving that a student's life is filled with different colours in all the aspects.

To conclude with, I would like to remind you all that leadership is a journey, not something that can be learnt in a training course. It requires time and reflection. With reference to the same I would like to remind you of Steve Jobs quote:

"Your work is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great work. And the only way to do great work is to love what you do."

Steve Jobs

Remember the difference between a boss and a leader: a boss says 'go' – a leader says "Let's go!" Bearing this in mind I have taken up this leadership and in the due course of time learnt that people will forget what you said, people will forget what you did, but people will never forget how you made them feel.

Hence, I have done my best with the support of my teachers and friends who have been striding along with me towards the path of success and the result has given us utmost pleasure. Being the winners of the Sports Trophy is not a small achievement and I thank each and every one who supported me in this endeavour. Ultimately my message for the future captain is "DO A BIT FOR THE CLAN AND THE CLAN WILL REFLECT TWICE ON YOU".

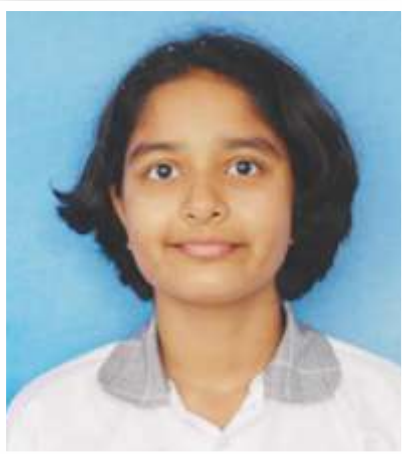

Md. Faraaz Khadeer
House Captain

It was indeed a privilege to become the Vice Captain of Knights. Firstly, I would like to thank the entire teaching faculty for believing in my capabilities and assigning me the responsibility.

It has been a year of ecstasy and contentment as I saw success and joy. Dear friends, a lot awaits to be done. The year ahead brings with it many challenges and stiff competition but as the saying goes, "The man who wins is the man who thinks he can". So be optimistic, work hard to overcome your own weaknesses, and you're a sure shot winner.

Tanisha Agarwal
Vice Captain

It is indeed a great pleasure being the Junior Captain of Knights and I thank all my teachers and friends for giving me this great opportunity. This work was a little hard but with the help of my teachers and friends it has been possible. I am very happy that I could accomplish my task at the given time.

My Captain Md.Faraaz and Vice-Captain Tanisha Agarwal have also helped me in my development. The other captains and myself enjoyed our duties and also fulfilled them. This year has been a great experience for me as I learnt many things like self-discipline, self-management and many more. I have no words to thank everyone for the help rendered. Thank you all for supporting me and wish the same in my future endeavours.

At the outset, I would like to congratulate and thank all the teachers and students who have walked hand in hand along with me in working for the better prospects of the house. It gives me a great pleasure in being the Mentor of Samurai which has taught me many lessons, enabled me to learn new things and move ahead along with making one understand that the ultimate measure of a man is not where he stands in moments of comfort and convenience, but where he stands at times of challenge and controversies.

Keeping this in mind I would like to advice all my students to set your standards high, as you deserve the best. Try for what you want even if you settle for a little less.

I wish you all the best for your future endeavours.

A leader is a trust worthy person who leads others. It's an honour for me to be selected as the Captain of Samurai. Leadership to me means leading others and taking responsibility. I express my gratitude towards all my teachers who thought, 'me' capable of holding this prestigious position. For me the art of leadership is saying neither no, nor yes. We all are leaders of our life and we all have some leadership qualities in us but the need of the hour is to recognize and make the best of it.

Also, our house is known by the discipline and behaviour of the students. So, dear Samurians now it's our time to stretch our hands towards the success of our house. Our hardwork , support and co-operation will certainly keep up the honour of our House. If we practice it then the glory of our house will certainly be at a new horizon.

A duty, a responsibility and an honour that shall be cherished.....
The day of results is still fresh in my memory filling my heart with extreme pride as I was declared the Vice Captain of Samurai House. Here came in the responsibility and the seriousness to do the best and assist my mentor to pave the way for success. The year long journey has enabled me to sharpen and develop the skills of guiding, friendship, being humble and helpful. The cherishing moment is when we won the different competitions and received accolades.

Shubhang Agarwal
Vice Captain

A Samurai is a warrior and sure enough all of our house members are warriors. I am extremely happy to be the Junior Captain of this House as I had the opportunity to learn many things from my seniors as well as the House Mentor. The enthusiastic participation by all the members of my house enabled us to achieve many laurels.

I personally learnt many leadership qualities and I desire to enhance the same in my future endeavours so that I can be the house captain as I grow up. My House is like a never dying flame, that will keep flaming red as I develop myself.

Keep going friends and all the best !!

ASMA ZOHRA MAHMOOD
HOUSE MENTOR

It gave me an immense pleasure to coordinate with the members of my House and be a guiding mentor to mould according to the needs of children and assist in their overall development and personality. In this journey, I have gathered many moments which have filled my heart with ecstasy to pen down the thoughts for a sweet reminiscence.

One of the sweetest reminiscences was following a simple mantra by everyone and that was to **'Work hard in silence and let the success make the noise'**. Of course, success made the noise when our house was awarded with the trophy of overall achievement throughout the academic year. Before each one of us enjoys this success, as a mentor let me take the liberty of reminding you that success is all about nurturing yourself before you become a leader and I wish that each one of you should aim to be a leader and aim at the success that enables others to grow along with you.

The challenge of leadership is to be strong, but not rude, be kind, but not weak, be bold, but not bully, be thoughtful, but not lazy, be humble, but not timid, be proud, but not arrogant, have humour, but without folly. Lastly, bear in mind that as a leader every action of yours has a consequence, make sure it is one you intend.

Wish you all the best in your endeavours.

"The Harder, The Battle, The Sweeter, The Victory"

It was a privilege being in Spartan House for four years. Three years of hard work with zeal and enthusiasm led me to the path of success; in the 4th year by winning the captainship. This is my best achievement I gained before leaving DSE.

We the igniting souls, had gone extra miles to taste the victory and this wouldn't have been achieved without the burning flames of our House Mentor as well as the team that has really worked hard to win accolades. The astonishing performances by our House have left everyone spell bound. But this victory wouldn't have been achieved without the support, dedication and hardwork of our wonderful teachers.

Ultimately the teamwork, hard work, joy and excitement has led to this Grand Slam Triumph.

Daksh Agarwal
House Captain

The election for the Student Council Body was held in the month of April 2016 when I was nominated as one of the candidates for the post of Vice Captain of Spartans I wasn't really excited. At first I thought about the responsibilities and additional effort that I had to put in. The support of my teachers and parents, encouraged me to go ahead and present a speech. After a few days, I got to know that I had been elected.

As predicted, I got additional work and I had to make compromises like; going to school on some of the holidays and giving up on my daily chores. However, over the course of time I started becoming more responsible, a feeling of friendly competition was invoked in me and my confidence level started going up. I slowly got better at working with a team and gained a lot of experience as a leader. In the end, when I heard that my house had won the overall trophy, I couldn't contain my joy, I was overflowing with ecstasy. That day I realized that all the work that we had done was worth it to experience this brief moment of glory.

Ibrahim Yousufuddin
Vice Captain

Being a Junior Captain was not as easy as I had thought. The nominations, the votes and the result made me go crazy. When I got to know the result that I had been elected as one of the student council members, I was very happy.

I had to represent my House. I was excited, eager and very nervous to handle the responsibility. But when I thought about all the things I remembered the quote "While playing football we should run behind the ball but while playing cricket we should face the ball".

Now, when I look back I feel this position has given me a lot of experience, exposure, and self-confidence. I thank my teachers and friends who laid trust in me at every point of time.

MOLLY VARGHESE
HOUSE MENTOR

Nobody is a born leader, it is the hard earned experience that turns the ordinary into the extraordinary. From my experience as the House Mentor of Trojans, I feel there is a leader hidden in each one of us. Like the theme of the magazine says 'Awaken the Leader in You', we just need to awaken it. I feel, we can achieve it by possessing and polishing certain qualities such as:

- Vision- Leadership requires farsightedness. The ability to see ahead and lead the team on the correct path is a skill which comes with experience. The ability to learn from past mistakes and move accordingly, makes a leader successful.
- Confidence- A good leader possesses self-belief and instills confidence by being a strong coach.
- Commitment – A leader leads by example. There is no greater motivation for the team than to see their leader working along, sharing the burden.
- Communication - Good leaders must ask questions and understand the needs of others in order to lead in the right direction.
- Creativity- Leaders have the quality to do simple things in an extraordinary way that sets them apart from others. They need to think out of the box.

Dear students, I feel most of you possess these qualities, if you seriously work on them, you too can be great leaders in any field– Business, Politics, Health and Social Welfare; Science and Technology or Educational Field as well. Hope to see many DeeSian leaders in future. Wishing all of you the very best in life!

DSE has always been a place which has given us ample exposure and opportunities to exhibit our inner strengths. Don't make an impression by just looking at the limited area of its campus. If you take a peek inside, you will find a world of energy, with students always engaged in some kind of research, preparation for speeches, activities and academics.

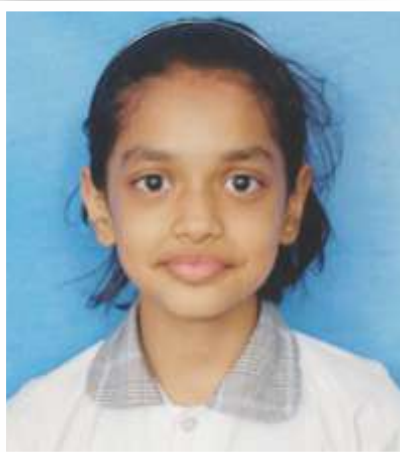

Being elected as the House Captain twice, I have learnt how to be a good leader and gained a lot of confidence. When I could face the challenges which were assigned to me. I led the House in various competitions which helped me to interact with the juniors and motivate them. I would cherish the experiences as the Captain for lifetime.

M Aniketh
House Captain

It has been an extremely enriching experience upholding this privileged position of Deputy Vice Captain. My experience has not only enabled me to teach my peers how to get things done but also there were innumerable values and lessons which I have imbibed. The leadership skills inculcated helped me attain a higher level of boldness and confidence as well as learn new ways. The different dynamic traits instilled, enabled me to reach out to my fellow housemates with a polite nature and made me more sociable.

My role of captaincy has also made me realise and implement this thought that the followers oblige and cooperate with the ideology of a leader who is instrumental in communicating effectively with his audience and whose ideals and aims are very concrete.

Syed Peeran Quadri
Vice Captain

When I joined DSE, I never thought that I would become a Captain. For this I thank my teachers for giving me the exciting opportunity. Being up on the stage, speaking in front of teachers and friends, the reverberating sound of applause was a great feeling.

I felt so overwhelmed on being elected as the Junior Captain. It has indeed been a year of complete learning under the guidance of my House Captain and Vice Captain. It was a pleasure shouldering the responsibilities along with them and also helping them whenever needed. I wish all the best to my team mates.

COMPUTER CLUB

Computer club at DSE is a great way to arm kids with skills that will provide lifelong benefits for higher education and beyond. Not only will kids develop technical skills, they will also gain an understanding of computer science concepts. This knowledge is powerful as it develops soft skills that are key for success in the 21st century. DeeSians enhance their animation and programming skills through this club.

HERITAGE CLUB

Aims at enabling students to be active seekers of knowledge by throwing light on the multiplicity of history and cultural experiences that exist in India. It also attempts to whet a student's appetite for historical enquiry. Discussions, class presentations and project work, are a few activities taken up in the club.

LITERARY AND QUIZ CLUB

The aim of the club is to inculcate among students a fondness for language and enhance their literary skills. Activities like debating, speech, drama and journalism contribute to personal enrichment and a better understanding of the world as well as develop their quest of knowledge for the same.

MATH CLUB

The purpose of this club is to promote interest and excitement about mathematics in a friendly and collaborative environment. The activities taken up in this club enable the students to learn new techniques and solve difficult math problems.

POPULAR SCIENCE CLUB

The aim of this club is to develop the scientific temper among the students as well as the ability to relate theoretical knowledge in science to real life. The activities planned in this club arouse the curiosity and kindle the young minds to think about the natural phenomenon taking place in the surroundings.

HEALTH AND WELLNESS CLUB

The focus here lies on the overall well-being, comprising emotional, social and mental health of the students. The activities taken up enable the children to gain awareness of their health, personal hygiene, surroundings and gain control over the feelings of frustration, anger, confusion, isolation etc., due to certain physical hormonal and mental changes.

DRAWING AND COLORING CLUB

This club provides an opportunity to practice and develop many skills such as concentration, fine motor and coordination for early writing skills and correct finger grip. The activities conducted give the experience of creativity, colour awareness and developing a sense of achievement.

ART & CRAFT CLUB

This club aims to foster the skills of communicating with the world through a visual impact. The activities conducted attempts to whet the student's creativity, analyzing, interpreting, expressing and thinking skills, collaborating with others and build confidence.

A LEADER'S LEADERSHIP

This is the story you ought to read,
Of the leaders who have taken lead,
To assist those in the past,
In people's heart is where they last.

They led the way through dungeons,
Faced challenges which were in abundance,
The holy words flickered in their mind,
'Freedom, rejoicing in every stride'.

They have paved the path for people,
They toiled and became a leader,
They reflected upon every incident,
Courage and strength was what they meant.

They put themselves in other's shoes,
They never regret or weep when they lose.
They do daring things without a doubt
To shoo their enemies away and out.

They break the record in every way,
Garlanded and respected even today.
They have guided more than a thousand,
Their life will never be abandoned.

They survived a tough life,
But their mind was as sharp as a knife,
They fought against discrimination,
Their hearts were filled with their love for their nation.

They supported others in the depths of despair,
And always tried to be fair.
They passed ordeals with a beaming grin,
The power was within her or him.

They kept their spirits up when they met,
A trouble, they rarely would fret,
And here is a personality,
Who has done something great, you see.

While the Britishers ruled the United States,
Many had met their fates,
But with the American Revolution,
In came George Washington.

As the first president of the country,
Many things were done with plea,
He was the general of the continental army,
To lead the country to victory.

He made those things true that were rare,
Like 'Crossing the Delaware'.
The Americans danced with glee,
When the Britishers went back over sea.

Just like leaders of that time,
We too should grow up fine,
To become someone clever and brave,
And become famous worldwide one day.

Sharanya Anumula, VIIA

THE PERFECT LEADER

Problems and questions he bears
Thoughts, feelings and emotions he shares
He stands bold as tough as steel
Works days and nights, a leader with zeal
Leadership like him can he be seen?
In our thoughts, some where in our dreams
Like him, I wish I could stand still,
In difficult situations be calm and still
Oh lead, empower with talent and skill
A leader who takes his followers uphill
He leads his team to success
Giving his opponents a severe stress.

LEADERSHIP

"Leadership is the capacity to translate vision into reality"

Warren Bennis

Leadership is the ability to inspire or influence a group of people, by being a leader means, leading from the front and creating an inspiring vision. In this process, leadership will result in having many followers. Leadership is concerned with people as it involves understanding their strengths and weaknesses and leading them accordingly. A leader is someone who is humble, patient and understanding. It is all about taking criticism in one's stride and learning constantly. There may be occasions wherein a leader has to learn from scratch. It makes someone accountable not only for his/her actions but for his/her followers' actions. It involves setting a right example for which the leader should be ready to take risks.

Leadership is not just about leading others but more about leading oneself and in the process learn and unlearn continuously to make leadership effective and influential.

Manasvi Lingampally, VIIIA

LEADERSHIP IS IMPORTANT

The children of HUDA colony were sitting sadly under a tree. Mr. Mohan, a retired police officer, who also lived in the same colony saw these children. He enquired why the children looked upset and unhappy. The children told him that they had lost the 20th hockey match against K.K colony.

Mr. Mohan offered to train the children for the next match which was after a month. The children were delighted to know that Mr. Mohan had played hockey at the state level. They promised to practice with him every day.

Mr. Mohan realised that their team lacked a strong and capable leader. He also saw that the children often fought among themselves. He selected Raju as the team leader as he was strong and had leadership qualities.

Mr. Mohan explained the children the role of their captain. A leader guides, inspires and brings team spirit in the team. He works as a friend and brings the team together.

The day of the hockey match Mr. Mohan reminded them to play as a team under their leader. It was a thrilling match and for the first time Huda colony won. They were filled with happiness and pride. They realised the importance of a leader, who inspires and motivates a team to succeed.

THE JOURNEY OF A BLACK TO THE WHITEHOUSE

A famous leader always struggles in his past and then becomes a legend. This is the journey of the first African-American president Barack Obama to the White House. Yes, a famous leader Barack Obama struggled as a young adult to reconcile social perceptions of his multiracial heritage. In his early life he has quoted that " My father was as black as pitch dark and my mother was white as milk barely registered into my mind". He was a black and was not treated fairly in his early life. Obama told in August 2007 meeting that, "The blacks are still locked in this notion that if you appeal to white folks there is something wrong." He stood up pointed to all those blacks to get the rights as they deserved to get. He toiled and determined for every black to stand up and tell that they have full right to achieve the law and they have to fight for it. In the year 2009 he received the

Nobel Peace Prize for his extraordinary efforts to strengthen international diplomacy and cooperation between peoples. As a leader of the free world, Obama rallies for the people. He understands that the United States can only work as a unit when everyone has the same opportunities in healthcare, education and employment. For those who desire to be leaders, President Barak Obama is a great example to follow.

Sania Yasmin, VIIA

Nelson Mandela, Chief among African leaders, is one of the few statesmen to have achieved universal respect around the world and across the political spectrum. His role in fighting apartheid, his imprisonment on Robben Island and his ability to steer South Africa through its rebirth earned him the international reputation.

As South Africa's first democratically elected president in 1994, Mandela tackled the challenge of uniting both the country's racial groupings and a fragmented public service. Mandela was one of the few leaders capable of inspiring confidence both inside and outside the country. He followed the footsteps of Mahatma Gandhi and fulfilled the vision foreseen for South Africa.

THE TRUE TORCHBEARER

A true leader is one who never rests,
A true leader is one who is not afraid of test,
A true leader always works hard,
A true leader always asks aloud.

A true leader is one who never hits,
A true leader is always polite,
A true leader is strong but kind,
A true leader volunteers to help.

A true leader never shies away,
A true leader smiles everyday.

The world is happy and nice
When there is a true leader.
Who is gentle and wise
Like B.R Ambedkar.

PASSIONATE ABOUT LIVING

Oh, we bear the pain
The blood flowing away
I am injured to death
But I still want to live
The beauty of the earth
Made my eyes glow
But the tsunami
Made my eyes dreadful
But I will fight against all odds
Because I still want to live
I will conquer my life with will and power
No one can take me to my death
As I am passionate about living.

IS LEARNING LIFE LONG?

Yes, learning is lifelong process. Every person, at every stage of their life, should have lifelong learning opportunities to acquire the knowledge and skills, they need to fulfill their aspirations and contribute to their societies.

Every single day is new. There is a saying 'we learn from our mistakes'. What we learnt yesterday may be filled with mistakes, but today we have the chance to correct them. Similarly, to achieve, what we wanted to, today, and we always have a chance to go ahead with the next day and achieve success as well as glory.

Learning is unavoidable and happens all the time. However, lifelong learning is about creating and maintaining a positive attitude to learning both for personal and professional development. Learning is dynamic, which helps us to understand the world around us, thus providing us with better opportunities to improve the quality of our life.

Finally, we should reflect on our learning. Think about how and why we learned, including how we felt about a particular topic or situation, before and after we developed our knowledge. We should learn every single minute and bear in mind that though it is a mistake or success we should remain positive.

Learning is endless. Learning is forever. Explore New. Live Life with Happiness.

WHAT DO I TAKE FROM SCHOOL AS I PREPARE TO LEAVE IT?

The hardest thing to express is the feeling when you are leaving the school. I've been in this school since its inception, that is 2013. This school has taught and guided me in every footstep. Right from my friends and classmates to my beloved teachers, everyone has supported me. I would want to take many things along with me as I prepare to leave, but there is one main thing I will never forget. 'Failure leads to success'. We have seen many successful billionaires and celebrities bouncing back when defeated. As we know, Bill Gates failed at the university and Micheal Jordan was not a part of the basketball team. I've failed on many occasions and was defeated. I always felt scared and depressed about what my future was going to be whenever I failed and was humiliated. But here, I have learnt that failure indeed leads to success, and we don't know ourselves if we do not fail. I may have failed in a few tests, but this school has taught me that life is beyond academics and that you can always learn from your failures and bounce back. This school also taught and encouraged me to be an all rounder. It has taught me life skills and etiquettes. I have become a more confident and dignified citizen, ready to face any obstacle which comes in my way, and my school has helped me do this.

P. Kavya, XA

I strongly believe that we are all born leaders, but have to be motivated to go the right way. As children, we had been natural leaders, curious, always hungry and thirsty for knowledge, vivid imagination, moreover, we were persistent and determined in getting what we wanted. DSE has given me the motivation, inspiration and has influenced me so strongly in being a leader. As I prepare to leave school, I take with me all that this school has done to awaken the leader inside me.

Leadership starts with humility. My alma mater has taught me to be humble and to be willing to serve others. It has helped me gain access to self knowledge and self honouring. It has helped me identify my strengths and overcome my weaknesses. My school has also taught me to Dream Big. Big and Bold! The bigger the dream, the bigger the motivation to achieve it. Being the Head Girl of Delhi School of Excellence, I have learnt that one always needs a vision to move forward. But most importantly what I take from this school is the desire to achieve excellence. For what is excellence – always wanting to better yourself, always growing. This school has influenced me to prepare myself to be a strong leader by giving me a sense of leadership and a vision, which enabled me see, smell, taste, hear, feel the leadership in my gut. As I leave this school, I cherish the moments of being a successful leader.

Anushka Jain, XA

BIG OR SMALL, WE CAN MAKE A DIFFERENCE

I may be small, that doesn't mean I don't have what it takes to be a leader. I may be small but that doesn't mean I can't make a big difference.

My name is Fleur and I am an influenza virus. I am the youngest virus in my family which also means that I have the least experience in making people sick. My whole family has made people unwell and I want to be like all of them but they always tell me I'm too small and that I will end up being killed or severely harmed if I try to infect anyone. I always thought I was ready but no one listened to me until one day, I proved everyone wrong. Let me tell you what happened.

It all started during the flu season. My family was getting ready to go out to war which meant I had to sit around and do nothing until they came back. I have six elder siblings who go out to war with my parents. They always make me feel like I'm never going to be good at anything. They tell me that I'm too small for anything and that I'm never going to be able to infect anyone. I would just shake it off because I knew that I was going to be famous and that they'd regret making me feel bad. My parents had been talking about one girl who they wanted to infect for years but never managed to because of her healthy habits. It then struck me that if I could possibly infect her, everyone would see me as a hero but I obviously couldn't do it myself, I needed support. Once my siblings came back from the battle they had lost, I called for a meeting. They thought it was going to be some little kid thing but the second I started unwinding my genius plan, they were convinced to a certain level and that was all I required. We planned to do it over night as my parent wouldn't notice our absence.

I led the way as we entered into her body. According to my plan, the girl should've been asleep while we fought our war but she wasn't. We went deeper and deeper into her body until we approached some white blood cells. The war began but we couldn't fight against her body's soldiers. Wounded and sore my siblings backed off and left. They shouted at me and made me feel even more pathetic. I asked them a simple question. I asked them if they gave up like that when they come to fight with our parents, with an embarrassed expression, they shook their heads and desired. I told them that we could fight this battle and that determination and courage was all they needed to become successful. We turned around with our heads held high as I once again led the way and entered into the girl's body. When we approached our enemies, we didn't regret our loss as it had only made us stronger. We charged and fought our long awaited war and emerged victorious.

Although the girl recovered quickly after we invaded her, we still managed to make her unwell under my leadership. When my parents found out what we did, they were angry that we had done it behind their backs but that is the natural reaction of all parents, they were still proud of me taking charge and infecting my first person.

That was a day I'll never forget. It was the day I proved that big or small, we can make a difference.

Challenge

Out in the wilderness
With no animal to ride with a harness
All alone with no companion
That's my opinion

Trying to be on the top of the food chain,
With no comfort, striving to live in pain

Always staying alert and vigilant
Waiting for the danger to come upon
Standing up to the challenge brave and bold
Death the challenger never forgives the new or old.

Soham Chitimali, VIIA

BROKEN

Two broken people fought behind broken doors.

Their broken child sat by the door, peeping through the cracks, anticipating the damage they'd cause this time.

They wouldn't just hurt each other with their jagged ends but would also cut open wounds through which melancholia would flow out and wash over the sand castle of a soul that thrived within their child.

When at first both the broken people fell in love, their brokenness didn't neutralise one another, it proliferated.

The outcome wailed as the first light of this world crept through its cracks in the labour room, the world saw perfect skin, pretty eyes, healthy limbs, a beating heart; what they couldn't see was the soul.

As years passed by, the outcome walked around the place in frilly frocks of summer shades while bits and pieces of her kept falling off.

She was oblivious. When she finally discovered what the matter was, she went out of her way looking for anything she thought might fit into all the empty places that had been left behind.

Now, she's a forest full of mysteries waiting to be explored, an abundance of words turning slowly into poetry, a canvas full of colours; a masterpiece in the making.
A hoarders dream, an endless world of possibilities.

IF I WERE THE CLASS MONITOR

If I were the class monitor, I would take care of the class and ensure no one talks and makes noise. I would help each and everyone who may come across difficulties. I would not allow anybody to litter, fight, use abusive language or beat anyone in the class. I would maintain the class properly and would not allow anyone to scream. I would be very polite with each one of them. I would respect my teachers, friends and my parents and be disciplined.

Amya Vashisht, IIIB

If I were the monitor, I would make sure everybody sat quietly if there were no teachers in the class. I would allow them to whisper but not talk loudly. I would be disciplined and active in the class to keep an eye on everyone. I would not scold my friends who talk, instead I would softly tell them to whisper. I would be polite and caring towards everyone in the class. I have all the qualities of being a leader.

K. Akshara Praditha, IIIB

If I were the class monitor everyone would be sitting quietly. They could do whatever they wanted to do. If they sit quietly, they should be awarded. So, I would be giving them sweets or chocolates. We can also play games, draw, paint, and have fun. Adding to it we can also have a quiz. I would take care of my class properly. I would feel proud to be the monitor and maintain the class.

MY INSPIRATION

I love P.V.Sindhu. She is an excellent badminton player. She has brought laurels to our country by winning the second prize that is a Silver Medal in Rio Olympics. She is from Hyderabad and has made our country proud. Amazingly her parents are also from the sports background which has influenced her a lot. I like the way she plays. At such an age she is a successful woman. I am truly inspired by her and would like to excel in the same field.

A. Trinity, IVA

Virat Kohli is an Indian International cricketer. He was the captain of the champion Indian Team under 19 in the year 2008, held in Malaysia. He was born on 5th November, 1988 in Delhi. He received his initial training from West -Delhi Cricket Academy. He is fascinated about Lawn Tennis and is a huge fan of Leander Peas and Roger Federer. He has won many awards like ICC, ODI Player of the Year, award in 2012. An excellent player who has made India proud. I want to be like him.

N. Harshavardhan, IVA

My favorite singer is Neeti Mohan, who was also a mentor in 'Voice India Kids' and trained kids very well. I have always dreamt of being a singer and because of this I really admire Neeti Mohan. She was one of the winners of the Channel V show 'Popstars' and became a member of the Indian pop group 'Aasma' with the other winners of the show. She was also on the Star Plus show that is 'Music ka Maha Mukabla' where she was part of the winning team Rockstars. As she is excellent in all the arenas I really like her a lot.

My inspiration is the 11th President of India "A.P.J.Abdul Kalam". He held various positions in ISRO, DRDO and then became India's 11th President. As a chairman of Technology Information Forecasting & Assessment Council (TIFAC) he pioneered India's 'Vision 2020' a road map for transforming India into an economically developed nation by 2020 focusing on PURA(Provision of Urban Amenities in Rural Areas). He was fond of the Quran and Bhagawat Geeta as well as showed equal respect to all religions.

I want to be a cricketer like M.S.Dhoni. Mahendra Singh Dhoni was born on 7th July, 1981. He has made India proud. He is a successful cricket player. Under his championship Chennai Super Kings has become the strongest. He got a new Team in IPL 2016, 'Rising Pune Super Giants'. Everyone knows that he finishes a match with a sixer and he has done. He is a tremendous batsman. I am inspired by him and would like to follow him. I want to make my parents proud.

“Without language one cannot talk to people and understand them, one cannot share their hopes and aspirations, grasp their history, appreciate their poetry or savour their songs.”

Nelson Mandela

Welcome to the language of English which has brought the people of the world together through its communicative approach. Today no area of life is untouched by English, be it communication in daily life, ascending the career graph, communicating in mass media, higher education and so on. Here at DSE we ensure that students are exposed to different opportunities through Clubs and Visual & Performing Arts to deal with the competencies in LSRW skills, enhancing the poetic skills or with the competitions in the outer world. In view of the same the students reconnoiter their knowledge by writing for NIE (News Paper in Education) where they answer the questions provided daily. The students take turn and answer these questions and also unveil their innate talents by giving the write ups for the events conducted in the school.

Any language can be embraced with zeal, enthusiasm and creativity. The classroom transactions and the activities conducted by the teachers ensure that the children get ample scope for producing their talents and also develop fondness for language. These few pages of English will surely enable you to fall in love with the language.

ACTION - REACTION @ NIE

Q. Rajya Sabha MP and Dalit ideologue Narendra Jadhav believes dropping surnames would be a potent antidote to ending caste consciousness which lies at the root of discrimination against Dalits. Do you endorse his views?

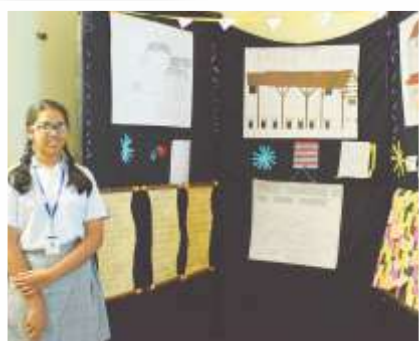

The cast of a person will definitely be known by the people they live around. Dropping it suddenly won't erase everyone's knowledge of it and I hope Dalits are not expected to relocate in order for this to work. The need for social reforms remain persistent and there is no shortcut around it.

Mehuli Das

If you think about dropping the idea of writing surnames it may help but then some backward societies in India might not agree with it and may continue the practice. So this move, if implemented, will be seen only in some areas.

English language is essential for expressing ideas, opinions, views and emotions in today's world. Over the recent years, globalization has led to the free exchange of ideas and cultures. This in turn led to an extensive use of English as a lingua franca. In other words, effective communication is required for success in life as learning the same is need of hour in this cut-throat competitive era.

The Literary Club at DSE helps to increase the interest of students in the English language and taps the effective communication talents among the students and they are poised to enable the talents with cutting edge and aims to foster a love for language, enhance literary creativity and provide an avenue for self-expression beyond the school curriculum. The students are assisted to develop confidence in using English and enjoy the learning process as well as to develop and hone the literary skills of the students, to develop a taste for literature and also work towards the direction of educating their spoken and written language. The club has initiated competitions in extempore, essay writing, creative writing, poetry writing, debate, elocution, skit, quiz and reading to enhance the speech and oratorical skills.

TIME MANAGEMENT

“Take care of the minutes and the hours will take care of themselves”

Lord Chesterfield

“The bad news is time flies, the good news is you are the pilot. “ No matter how you slice it there are only 24 hours in a day.

Each one of us are given twenty four hours a day or 86,400 seconds or 1440 minutes from the queen of England to a commoner, but some achieve more in their lives because of the effective management of time. If we plan our time, along with taking control and set our priorities right, with hard work and determination, we can do 25% more than what we are actually doing.

Living a life without a plan is like watching television with someone else holding the remote control. Time management is the key to success.

Famous people like Mary Kom, Saina Nehwal, Abinav Birdra, Serena Williams, Sachin Tendulkar, Kiran Bedi etc, had achieved success because of their effective time management.

We should take inspiration from such people and work hard. Then we will be able to achieve our goals and dreams. Hence, when we effectively use our time, we can have contentment in our personal, spiritual, emotional and social life.

SUCCESS

Everyone in this world wants success. Some people are in need of success and some are in greed of success. For some people success is merely wealth and for some success is good health, satisfaction, peace of mind, happiness and much more.

Success is like a special dish. Unless you have just the right recipe, it is not going to work. The ingredients must be of the finest quality and in the right proportion. Once you have the right recipe, it becomes a lot easier. It is observed that some people connect success with luck and it has been made exclusive for exclusive people. This way of thinking is totally absurd. Success can be achieved by any individual. A few famous quotes like 'without hard work and sweat there is no success', 'no gain without pain' and 'practice makes man perfect', enables one to understand that preparation is the necessary edge to succeed in any field as it leads to confidence.

Success is no mystery but simply the result of consistently applying some basic principles. The three D's play a vital role in life. The three D's are- Discipline, Determination and Dedication. By following these three D's, one finds one's goal easily attainable.

We all may face failure at one or the other stage, but we should not be discouraged. For example, Thomas Edison failed approximately 10,000 times while he was working on the 'light bulb'; finally success was at his feet. Thus one should accept failure as a challenge and treat it as a best teacher to enable us to reach the heights of success.

Successful people don't do great things, they only do small things in a great way. Once Socrates, the Great philosopher and thinker was asked by a young man about the secret of success. Socrates told the young man to meet him near the river next morning. The next morning they met. Socrates asked the young man to walk with him towards the river. When the water got up to the neck, Socrates took the young man by surprise and ducked him into the water. The boy struggled to get out but Socrates was strong and kept him there until the boy started turning blue. Socrates pulled his head out of the water and the first thing the youngman did was to gasp and take a deep breath of air. Socrates asked “What did you want the most when you were there?” The young man replied, “AIR”. Socrates said, “That is the secret to success. When you want success as badly as you wanted air, then you will get it.” There is no other secret. So there should be a burning wish to achieve success as Swami Vivekananda said, “Arise, awake and stop not until the goal is reached!”

COMING OUT: A Story of Rebirth

Mridul never told a lie to anyone. His parents always gave him example of truthfulness and honesty before others but one day it so happened that Mridul got tired of living with this façade around him. The fact that his parents were so proud of his honesty while he was living a lie disgusted him. So when his sixteenth birthday arrived he took it upon himself to fight his inner demons and come out with the truth. Maybe this world that he had built so carefully around himself would shatter, maybe it would hurt his parents somehow, maybe his friends would abandon him and turn out to be pseudo-liberal minded hypocrites, or maybe, just maybe everyone would take their time to come around, understand this and still love him as much as they did.

When the day finally arrived Mridul asked all of them to be seated together. Since this was unlike anything they'd been asked to do at birthday parties, there was confusion in the room. His parents were clueless too. His mother asked, "What is it Mridul?"

Mridul said, "Maa and all of you here know how much you all mean to me. What I'm about to disclose is a burden I've been carrying around for a long time now. The only gift I want today is for all of you to be patient, understanding and as loving to me as you've always been."

Mridul's father said, "You know we always will be, my son. Now what is it?"

Mridul began, "There Dad, that's what it is. I'm not your son. I am your daughter."

The room fell silent. No one uttered a word until Mridul's mother couldn't help but ask, "What do you even mean?"

"Maa, I'm a girl stuck in a boy's body. People like me are called transgender."

Mridul's best friend walked up to him and slapped him fairly hard, nearly knocking the day lights out of him. "What is wrong with you?" she began. "All these years and you couldn't tell me? I am seriously re-evaluating our friendship right now."

Mridul had tears in his eyes, his joy knew no bound. He hugged her tightly and Avni broke into smile. "Feel free to borrow my clothes now" she added giggling.

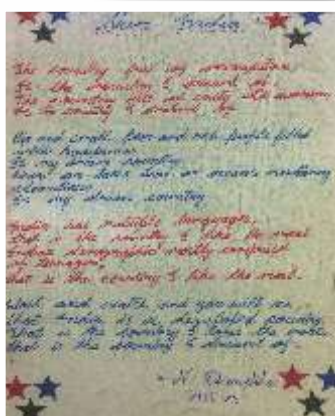

Mridul now looked towards his parents. They surely looked a little shaken.

Mridul's father broke the silence. He looked towards his wife and said, "Rashi, I think I would like to call my daughter Reva. Do you like the name?"

Rashi smiled, "Yes yes. I love the name but we must ask him....sorry. I mean, we must ask her since she's not a baby anymore."

On his sixteenth birthday, Mridul died but a eunuch named Reva was born.

Mathematics may not teach us how to breathe oxygen and how to exhale carbon dioxide, or to love a friend and forgive an enemy. It may not even help us find our way to our one true love, but it gives us every reason to hope that every problem has a solution.

Math has become an inseparable part of our lives and whether we work in an office or spend most of our time at home, each one of us uses math as a part of our everyday life. No matter where we are and whatever we are doing, Math is always there whether you notice it or not.

Mathematics is the cradle of all creations, without which the world cannot move an inch. It is a methodical application of matter because it makes us efficient and our life systematic. Certain qualities that are nurtured by mathematics are power of reasoning, creativity, abstract or spatial thinking, critical thinking, problem-solving ability.

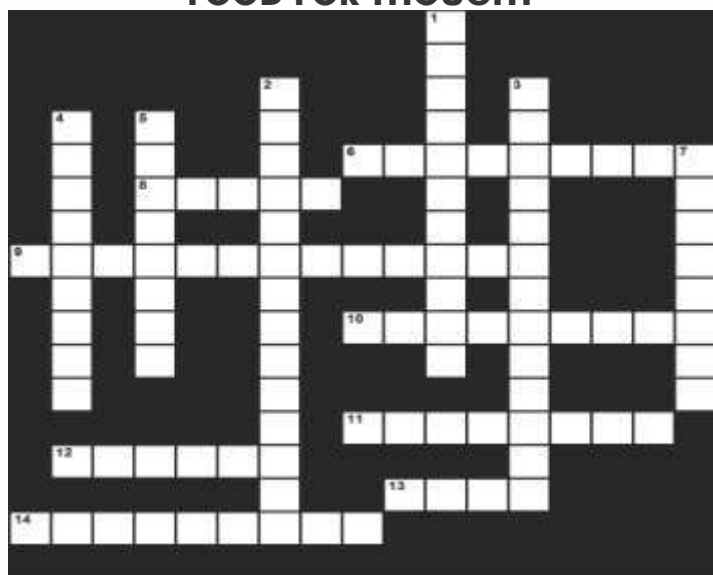

Be it a cook or a farmer, a carpenter or a mechanic, a shopkeeper or a doctor, an engineer or a scientist, a musician or a magician, everyone needs mathematics in their day-to-day life. Even insects use mathematics in their everyday life for existence. Snails make their shells, spiders design their webs, and bees build hexagonal combs. There are countless examples of mathematical patterns in nature's fabric.

At DSE we ensure that learning mathematics is made easier and enjoyable by including activities, games, puzzles, riddles and so on, which attracts an alert and open-minded attitude among students and gives an opportunity to develop a clarity in their thinking. Emphasis is also laid on developing clear concepts in mathematics right from the primary classes.

We live in a fast growing sector of information and without math you won't be able to keep up. Don't lose your momentum, but be the wolf ahead of the pack. Leading them, and not following them. Use your mind and become the trendsetter!!!

 Here I go
 There I go
 Wherever I go
 The fear of math

Try, try & try
 The more I try
 The more I cry
 I want to be away
 But pulled into the way

It's like Chemistry and Physics
 As difficult as writing a thesis,
 Has never been as easy as music
 Indeed, in numbers I'm truly allergic

Numbers, numbers all round
 Everywhere they can be found
 I try to solve them
 I cry when I get struck with the same

I just hope one day
 I will achieve my way
 Emerging from the tricky sums
 And solving life's trickiest ones.

Math Magic Trick

Think of a number
 Multiply it by 3
 Add 6 with the getting result
 Divide it by 3.
 Subtract it from the first number used.

Answer : 2

**Think of a number. Double it. Add six.
 Half it. Take away the number you
 started with. Your answer is three**

Finding Someone's Age - Number Trick

- Ask the person to **multiply** the first number of his/her age **by 5**.
- Tell them to **add 3**.
- Now tell them to **double** this figure.
- Finally, ask the person to **add the second number** of his/her age to the figure and ask them to tell you their answer.
- **Deduct 6** and you will have their age.

*The only way to **LEARN** mathematics is to **DO** mathematics.
 Math may not teach me how to **ADD** love or **SUBTRACT** hate, but it gives me hope that
 every **PROBLEM** has a **SOLUTION**.*

HEY MATH ZONE

For most of the students, Math is like a nightmare. They have a fear in doing the same and this fear of Math was conquered and replaced by the joy of doing Maths, by DeeSians. They experienced this joy of learning Math through different activities at Math club and Math lab. Altogether this helped the students to face the external exams confidently.

Math is an interesting and fun subject for me. At DSE I was able to learn math in an interesting way with the guidance of my teachers. We did interesting activities in the class like, how to represent some important days like birthday, age and year. Also the representation of the same using simple calculations in math. I enjoyed these activities and it has increased by interest towards doing different sums.

Hey! $\lambda\beta\gamma$

As fractions are one of the important and lengthiest concepts in fifth grade we have done so many activities. Among all those I liked the fraction kit activity. In this activity we made our own fractional kit of equivalent fractions. This is very interesting and innovative. We understood the concept so clearly and could apply these concepts where ever required.

Mohika Agarwal, VA

We were introduced with the powers and exponents chapter this year. To understand this concept better we have done a paper folding activity to represent the power of the number 2. I felt this activity was new and interesting and learning math is very easy and thought provoking. It improves the analytical and application skills in us.

I will predict your answers

Step 1. Think of any number

Step 2. Multiply the number you have thought with '3'

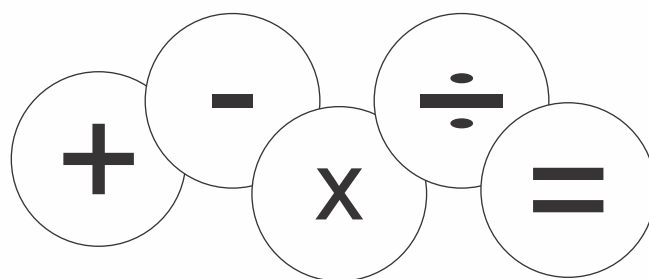

Step 3. Add 45 to the result

Step 4. Double the result

Step 5. Divide the answer by '6'

Step 6. Subtract the number you have thought from the total.

Math is a subject with an alluring structure,
The art of understanding everything it enables us to master,
From being taught to be 360 degree flexible with others,
To laws of wisdom, intellect, innovation and creativity math adheres,

To being taught that even miracles have certain probability,

To every operation and number having a unique utility,
function and ability,

Like each and every person having a unique and distinct capability,

To being taught that every problem, circumstance and situation has a definite solution,

To being inculcated in us the invaluable traits of problem solving and intuition,

We are indeed indebted to math and every thriving student today owes it a grateful salutation,

Math has transformed ordinary people into exemplary engineers, chemists, physicists, doctors and many more,

For without math, Einstein, Tesla, Curie, Hawking, Schrödinger, Heisenberg and more,

All would have been nothing but folk, fiction and lore,
Math is a subject for whom respect, gratitude and honour should be an assured entitlement,

As math is the subject which will undeniably lead you down the road of enlightenment.

Math a challenge

Try, try and try,
the more I fry,
the more I cry

I practice math with my heart and soul,
Yet I am not able to achieve my goal.

I never get marks in math,
inspite of my great Endeavour,
Fate is never in my favour.

I really want to improve my math,
Because I love this subject, and
for this I am trying my level best.

I am candid so I confess.

In Mathematics examination

I always create a mess,
All the answers I guess, and

Ultimately the marks I get are quite less.

I believe that if I do ample practice

I'll one day probably achieve my goals,

And seriously have to improve,

Because in our lives MATH plays a very significant role.

Change has been our consistent companion, come what may. They take us out of our cocoon- our comfort zone-left to create another. Yes, that is what is innovation.

Innovation is to create better products, processes or ways of doing things. Throughout the last decade it has been the life line to development of great new products and better standards of living..

From a book to e-book, telephone to mobile phone, small buildings to huge engineering marvels, our life has been propelled forward by the sheer power of innovative minds, skills acquired due to constant brainstorming of ideas and goals that we as humans want for a comfortable life.

We believe in the survival of the fittest, yet what we don't realise is that perseverance is what keeps us in the race. They rightly say that necessity is the mother of invention , and it is imperative that we as responsible citizens look cautiously for that necessity, ponder upon it, conjure up an innovative idea, because my friends, with a creative mind and a determined heart, we can take on this world and set an example for the future. A trigger is all that it takes to transform.....

Awaken the Leader in You

Are some people born as leaders? Or, are they made leaders? According to me, all are born with infinite potential and within every ordinary person, there lies an extraordinary leader. Only people belonging to the top level of management or an organisation need not be leaders. People from all walks of life, be it at professional or personal front, can be leaders.

A father is a leader being the head of the family, mother is a leader taking care of the entire family, children are leaders of their own actions, grandparents are leaders as they can advise the younger generation out of their experience in life. When it comes to a profession, every person becomes a leader within, when he is responsible. Ultimately, I believe, responsibility is the prime quality which can make every person a leader. A good leader is the one who knows the way, goes the way and shows the way.

Self motivation is like 'food' for the leader. Tell yourself everyday that you are a leader and believe it. Learn something new about your work every day and try to refine it and make the results better. Stepping out of your comfort zone and putting that extra bit of hard work makes you a confident leader. Read, collect information and gather resources to keep yourself climbing up the ladder of leadership.

To be a good leader, share the lessons you learnt, your expertise and insights and help others not to commit mistakes that you made. Work with passion and integrity.

Everyone is born as a leader. Your actions, behavior and work expose your leadership qualities and make you a happy person. So walk that extra mile and become a leader of your happiness.

"The goal of education is to help people use their minds better" Howard Gardner. The objective of introducing Popular Science Club for grades VII-VIII is to develop scientific temper among the students. The activities are meticulously planned to arouse curiosity and kindle young minds to think about various natural phenomena taking place in the surroundings. This club aims to enhance the ability to relate theoretical knowledge in science to real life occurrences in their surroundings. As it is said, 'seeing and doing things makes understanding and application easy', the activities of the club stimulate observation skills among students and encourage them to perform simple experiments on their own. Some of the activities conducted in the club are Aero Balance, Young Einsteins, Water from Fog, Galileo's @ Work, The Beautiful Blue, Exuberant Paleontologists at work, Startling Replica Mould, Captivating Collage, Enjoying life the healthy way, Debate on Steroids and Addiction and Black Holes.

My Visit To A Planet

Imagine that this is the year 2025 and that space travel is possible and affordable. So, I decided to visit planet Mars.

I used up all my pocket money and my savings for the trip. I also entered a space-suit and did some research on space travel to prepare for the trip.

The space craft was crazy but comfortable. After the blast of the ride, it was smooth. We were travelling at 50 times the speed of sound. I watched the earth become smaller and smaller.

On the seventh day, we landed on the planet Mars. I stayed in a cosmic hotel. It was a very luxurious hotel. Mars is mostly made up of carbon dioxide. It was very cold and no human could live without a spacesuit.

I had to wear mine all the time. The highlight of my trip was flying a space mobile. Mars was indeed spectacular. Wish we could travel to Mars more frequently, as we travel from one country to another. I wish that my imaginary trip would become a reality for everyone in future.

Importance of Science

Science has brought about a lot of change. From stone age to gadgets, and technology. Man leads a better life than ever before with the effect of inventions of science which can be seen today. Days of tongas & carts has gone.

Travelling has become faster by railways, aeroplanes, etc. Electricity is perhaps the greatest gift of science. With the help of computers & cell phones we can send messages to any part of the world within minutes. All these has brought the world closer.

Science has given the world a new face, which has made our lives more comfortable and luxurious. The discoveries of scientists helped us to shape our views about ourselves and our place in universe i.e. from uncivilized to civilized person.

Today's date is 15th October, 2037. Let me tell you about my summer holidays. It was a sunny summer morning. It was unbearably hot outside measuring about 103°C . I went down to have breakfast, when I saw my mother packing picnic food – gravitational lunch (it keeps our food grounded. As you know space doesn't have gravity). My father was packing his bunch of clothes (including his stinky socks) My mother asked me to pack my stuff and take Abby for a walk. Abby is my robot pet dog. He's adorable. Soon, we were ready to go..... "But where?" I asked my father. To my surprise, he said we were going to Uranus!!! We boarded the space rocket and 3...2...1...and zoom, we were in space! After a few tiring hours in the space rocket, we finally reached Uranus. It was extremely cold there (-103°C) that we were unable to breathe. I was shivering, Brrrr!!!!. As there was no gravity, I was bouncing up and down. Then it was time for lunch. I quickly munched up some space spaghetti and set off to explore the planet along with Abby. Suddenly, I heard a strange voice squeaking from behind. Guess what.... It was an alien! It was adorable. It said, "I'm Bong. I welcome you to Uranus." I was proud to make friends with an alien. Bong taught me some games to play with snow, which I had never played before. Soon it was time to leave, I waved goodbye to Bong. I had so much fun.

After the vacation, when I went to school, I told my friends about my trip. They were amazed and enthralled as I narrated my experience on Uranus.

THE MAN BEHIND DISCOVERIES

A scientist is a person who studies a wide variety of branches of various scientific disciplines like earth science, biology, medicine, etc., scientists follow their own philosophy or methodology, usually referred to as the scientific method. Scientists study a wide variety of subjects. My favourite scientist is Rosalind Franklin. She acquired Ph. D in Physical Chemistry from Cambridge University. She studied Crystallography and X-ray diffraction techniques that she applied to DNA structure. Other scientists used it as an evidence to support their DNA model and took credit for the discovery. Franklin died of ovarian cancer in 1958 at the age of 37. I like Franklin because she was very hard working and strived hard to feed her inner curiosity.

IF I WERE A SCIENTIST

If I were a scientist, my endeavour would be to build something which is not only useful but also helpful to the common people to improve their living standards. I would like to develop a gadget which can become part of our daily lives and change the world we know today. I would like to build an eco-robot which can do various activities like, day to day household work, the office work and so on. The main task of the robot would be to recycle the waste in the world produced by humans when working at home, office, factories etc,. I want to invent this robot as it would not be too expensive and affordable to all. This robot would collect all the pollutants and turn them into fertilizer and manure which can be reused by the farmers. Modern science has taken giant strides and there are many inventions which have benefitted the mankind. I would also like to make a contribution to the world through my invention which would help in making human lives more meaningful and the environment is saved for generations to come.

STORMING SATURN

Hello! My name is Imaira. Do you know I travelled to a different planet? You must be thinking how and which planet did I visit. I flew in a rocket to Saturn. It was an amazing and breath-taking experience. As I was reaching Saturn, I could see its beautiful rings. At first, when I landed there, I felt breathless. Then I realized there was no oxygen. Luckily I had seven big cylinders of oxygen and I survived there for a week. Later, when I started feeling thirsty, I searched for water everywhere, but I couldn't find any. So, I dug the ground and found some water. What a miracle, right! Now I figured out how to get water but what about food? I was really hungry. So I looked for someone to help and I found an alien friend, a real alien. I was shocked beyond belief. It even started communicating in our language. I asked if it had any food to eat. It gave me some saturnic food to eat. After that we played a lot and had a good time. Time flew away fast and I had to leave Saturn. It was really a great experience and I wish I could go back again!!!!

What if tigers become extinct?
What would be our national animal?
What pride would be in our forest?

BEST FRIEND

Our best friend is Tree,
It gives shade for free,
In the shade we can play flutes,
And eat a lot of yummy fruits,
Birds rest on their branches,
And under the shade, the cows,
It gives wood for woodcutter to sell,
And flowers give us a pleasant smell,
But inspite of so many things
given by trees,
We still are cutting the trees,

Social Science is a systematic study of man in relation to his society and acts as a bridge between the past and the present. At DSE we provide functional knowledge of history, geography, economics and civics in an integrated manner and inculcate abilities, skills, attitudes and values that help students to become global citizens.

As part of this process students are exposed to mock parliament, MUN and debating sessions for better learning and understanding of global issues with local perspective. It gives me immense pleasure to share that DeeSians have directed five films for FILIMT and two films have been selected in the category of best script, best direction and best film respectively. Student's participation in special assemblies like Marty's day, Secular Week, Quiz, Tableau etc., has enhanced awareness as well as interest towards the subject. On the whole we aim at holistic learning to bloom into responsible global citizens, which is the vision of the school.

Importance of HIS-STORY

History is an important part of human existence. History is what created us all, it is how we progressed. Just like a photograph which you preserve, maybe of your family, reminds you of the love for each other.

History serves as a laboratory and the past serves as a demarcation to understand the regional laws and social structures. This understanding helps in our progress towards an ideal society.

Learning about various cultures helps us be a good global citizen and improve our critical & analytical thinking. Preservation of cultural heritage helps to shape a person's thinking towards the society which helps us to distinguish between good and bad. It is our social responsibility to conserve the roots of our evolution and pass it on to the future generations for the achievements of man to be better understood.

"We enjoy the best days of our lives because of the past struggles of our ancestors."

“India is, the cradle of the human race, the birthplace of human speech, the mother of history, the grandmother of legend, and the great grandmother of tradition. Our most valuable and most instructive materials in the history of man are treasured up in India.”

Mark Twain

As rightly stated by Mahatma Gandhi that, “The nation’s culture resides in the heart and the soul of its people”, the Social Science department has ensured that this is inculcated by all means in the minds of the DeeSians. In view of the same, the students from grade III to X had fun filled enriching activities throughout the year. Some of the activities of Heritage Club included, presentations, ancient scientific facts, ancient yoga techniques, acquiring knowledge on scientists and mathematicians of India, learning the uses of naturopathy by making of kashaya, knowing about ancient scientific facts, imbibing knowledge about different scientists and their inventions and exploring the Indian Heritage and Literature. Apart from all this they even gained knowledge about different geographical features of India and its benefits with the opportunity given to research and enquire. A few articles of our students have been featured in the heritage journal published by INTACH (Indian National Trust for Art & Cultural Heritage).

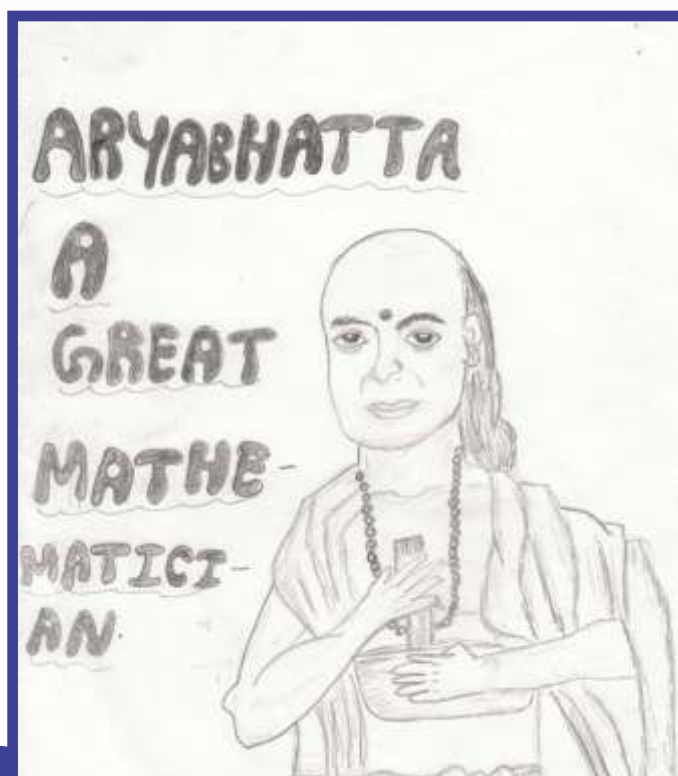

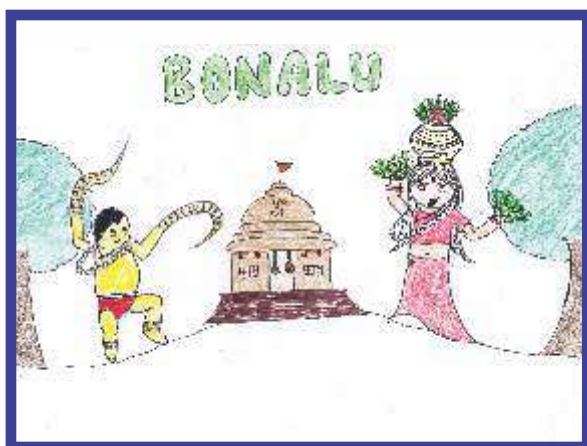

I have enjoyed BONALU all the time. I love the story behind the festival for celebrating it and here it goes...

'Bonam' word is the corruption of the word Bhojanam which means a meal or a feast in Telugu, offered to Mother Goddess. Bonalu involves the worship of Mother Goddess in regional forms like Mysamma, Pochamma, Dokkalamma, Ankamma, Poleramma, Maremma & Nookamma. Women carrying Bonalu are believed to possess the spirit of Mother Goddess and when they go towards the temple, people pour water on their feet to pacify the spirit, who, by nature, is believed to be aggressive. Every group of devotees offer a 'Thottelu' which is a small, colourful structure made out of paper and supported by sticks, as a mark of respect.

Potharaju is the brother of Mother Goddess, represented in the procession by a well-built, bare-bodied man, wearing a small tightly draped red dhoti and bells on his ankles, and anointed with turmeric on his body and vermillion on his forehead. He dances to resounding drums. While on the way to the temple, the Thottela takes the lead and dances along, on the path with the tranced ladies following him. Trumpets and drums give the beats to the dance and add to the festive feel.

EXPLORING SOCIAL SCIENCE THROUGH ACTIVITIES

“उठो, जागो और तब तक नहीं रुको जब तक लक्ष्य ना प्राप्त हो जाए ! ”
- स्वामी विवेकानंद

स्वामी विवेकानंद जी का यह कथन मुझे बचपन से प्रभावित करता रहा है पर बढ़ती आयु और अनुभव के साथ इसकी व्याख्या बदलती रही है। आप जीवन में आयु के किसी भी पड़ाव पर हो यह कथन हमेशा आपको प्रासंगिक लगेगा। विद्यार्थी जीवन से ही हम लक्ष्य बनाते हैं और उन्हें पाने का प्रयास भी करते हैं।

एक महान लक्ष्य तक पहुँचने के लिए नियमित प्रयास करना जरूरी होता है। छोटे-छोटे लक्ष्य बना, उन्हें पूरी निष्ठा और दृढ़ता से पूरा करना पड़ता है और अपना नेता स्वयं बनकर अपना नेतृत्व करना पड़ता है। हम सब में एक नेता छिपा होता है जो नेतृत्व कला से भरपूर होता है, बस हमें उसे जगाने की और उसे अपना नेता बनाने की जरूरत होती है, तो प्रिय विद्यार्थियों!! अपने अंदर के नेता को जगाओ!! अपने दैनिक, साप्ताहिक, मासिक, वार्षिक जीवन लक्ष्य बना उन्हें पाने के लिए अपना नेतृत्व स्वयं करो! और स्वामी विवेकानंद जी के इस कथन “उठो, जागो और तब तक नहीं रुको जब तक लक्ष्य ना प्राप्त हो जाये!” को अपने जीवन का मूल मंत्र बना सफलता की ओर बढ़ो!! हमारी हार्दिक शुभ कामनाएँ हमेशा आपके साथ हैं।

मंज़िले उन्हींदी को मिलती हैं,
जिनके सपनों में जान होती है,
पंखों से कुछ नहीं होता,
हौसलों से उड़ान होती है।

सपना साकार करो

मन में है जो अच्छी सोच
सामने सबके उसे लाओ ।
देकर सबका साथ
विश्वास उनका जीतो।
होगी मुश्किलें जरा
सामना चुनौतियों का करो ।
बने रहो सच्चे
दूर आडम्बर से रहो ।
करो सबका मान , न करो अभिमान
और पाओ सबका सम्मान ।
कुछ जानने को , कुछ सीखने को
रहो निरंतर जिज्ञासु ।
लेकर सबको आगे बढ़ो तुम
सपना अपना साकार करो तुम ।

हमारे नेता जी

नेता बनने से पहले
वोट पाने के बदले
हमारे नेता जी ने
विभिन्न प्रलोभनों से हमें लुभाए
किन्तु कुर्सी मिलने पर
वादे गए भुलाए
लेकिन
जैसे एक सड़ी मछली
पूरे तालाब को गंदा करती है ,
ठीक उसी तरह एक बेईमान नेता
ईमानदार नेताओं के
चरित्र पर ग्रहण लगाता है ।

तो मित्रों सोच- समझ कर
अपना नेता चुनना
लोगों की बात और प्रलोभनों को छोड़
अपने दिल की सुनना
और दिमाग से काम लेना
जब नेता चुनने का अधिकार है
आपके पास,
फिर डरने की है क्या बात ?
तो चलिए ले लें यह प्रण
अपने अधिकारों का प्रयोग भरपूर करेंगे
करोड़ों की आबादी में हम चुनेंगे
हीरे का एक चमकदार कण ।

चुनौतियाँ और कामयाबी

“खुदी को कर बुलंद इतना कि हर तकदीर से पहले खुदा बंदे से खुद पूछे बता तेरी रज़ा क्या है”

-दीनदयाल सुमन

इस विचार को अपने जीवन में अपनाकर मैंने हर मुश्किल का सामना करते हुए हर असफलता को सफलता में बदला। मेरा मानना है कि असफलता न तो डेडएंड है न ही जीवन का अंत , यह तो वह सीढ़ी है जहाँ से मंजिल के रास्ते खुलते हैं। जरूरत है मैदान में पूरे आत्मविश्वास से डटे रहने की।

बच्चों विद्यार्थी जीवन में किसी कार्यक्रम में आने वाली बाधा को रूकावट माना जा सकता है पर इस रूकावट को अपने करियर की समाप्ति मानने की भूल कदापि न करे। इन रुकावटों को एक चुनौती मानकर अपने लक्ष्य को प्राप्त करने के लिए नए सिरे से प्रयास शुरू कीजिए।

अपनी शक्तियों को तोल कर अपने सही क्षेत्र को पहचाने और उस क्षेत्र का नेतृत्व करते हुए किसी भी काम को इस कदर करे कि ठंडी हवाओं का झौंका आपकी मंजिल में ठंडक पैदा करने की बजाय जूनून की तपस को बढ़ाने का काम करता हुआ लगे।

हमेशा याद रखना “कामयाब इन्सान खुश रहे न रहे, खुश रहने वाला इन्सान जरूर कामयाब होता है।”

सैहा राठी

वर्तमान समय में नेता का कर्तव्य

लीडर का काम है कि वे अपने लोगों को जहाँ वे हैं, वहाँ से ऐसी जगह ले जाए जहाँ वे नहीं गए है।

- हेनरी ए किस्सिंगर

आज के युग में नेता सिर्फ अपना फायदा सोचते हैं और अपने स्वार्थों की पूर्ति के लिए दूसरों का प्रयोग करते हैं। इसे रोकने के लिए हमें अच्छे इंसान को नेता बनाना चाहिए। नेता ऐसा होना चाहिए जो सबको एक समान समझे, किसी का फायदा उठाए बिना समाज को, देश को, आगे बढ़ाने का प्रयास करे। एक सच्चा नेता हमेशा अपने कर्तव्यों का पालन करता है और लोगों को निराश नहीं करता। एक सच्चा नेता लोगों के सपनों को हकीकत में बदलता है और लोगों के कष्टों को दूर करता है। महाराणा प्रताप, शिवाजी और महात्मा गांधी की तरह आगे बढ़कर नेतृत्व करता है। अपने अनुयायियों की बात सुनकर उनके विचारों पर गौर करता है और उनके साथ कंधे से कंधा मिलाकर काम करता है। ईमानदारी, निष्ठा, विनम्रता और वफादारी से अपने कर्तव्यों का पालन करता है। अपने संगठन के अन्य नेताओं और कर्मचारियों को प्रोत्साहित करता है।

मैं एक कुशल नेता बनना चाहती हूँ।

एम वमसी कृष्णा, दसवीं

मैं एक नेता बनना चाहती हूँ। मैं देश के लिए लड़ना चाहती हूँ। मेरे साथ एक घटना घटी जिससे यह पता चला कि मेरे अंदर नेता बनने के गुण विराजमान हैं, जिसने मुझे एक कुशल नेता बनने की प्रेरणा दी। हुआ यूँ कि - मैं एक दिन अपने दोस्तों के साथ खेल रही थी, तभी मैंने देखा कि दो छोटे बच्चे आपस में लड़ रहे थे। दोनों को पैर व हाथ में चोट लगी थी। लड़ने का कारण पूछने पर पता लगा कि वे दोनों एक घड़ी के लिए लड़ रहे थे। दोनों उस घड़ी को अपना बता रहे थे। मेरे सारे दोस्तों ने मुझे ही इस समस्या का हल ढूँढ़ने को कहा। मैंने इसका हल इस प्रकार निकाला था - मैंने कहा "मैं इस घड़ी को तोड़ दूँगी"। क्योंकि यह तुम दोनों के लड़ने की वजह है। तब उनमें से एक ने कहा नहीं, सानवी दीदी। तुम ऐसा मत करना। यह घड़ी उसे ही दे दो पर मत तोड़ना"। मुझी खुशी हुई थी कि मैंने उस घड़ी के मालिक को सही तरीके से ढूँढ़ निकाला था। इस घटना से मुझे लगा कि मेरे अंदर भी एक नेता है जिसे मुझे बाहर लाना चाहिए और समाज के कल्याण में योगदान देना चाहिए।

अविस्मरणीय शिक्षण मेला

26 अगस्त 2016 को विद्यालय में तीसरी, चौथी और पाँचवीं कक्षाओं के लिए शिक्षण मेला का आयोजन किया गया। जो 'वर्षा ऋतु' पर आधारित था। जिसमें पाँचवीं कक्षा के छात्र - छात्राओं ने 'वर्षा ऋतु' विषय पर कविता-पाठ किया। हिंदी के साथ-साथ विद्यालय में पढ़ाई जाने वाली अन्य भाषाएँ तेलुगु, उर्दू, एवं फ्रेंच में भी कविता-पाठ किया गया। हम सभी ने बड़े ही उत्साह के साथ इस कार्यक्रम में भाग लिया। मुझे जब बताया गया कि मुझे हिंदी कविता-पाठ के लिए चुना गया है तो मुझे बहुत खुशी हुई और मैं कविता याद करने में जुट गई। पूरी तैयारी के साथ 26 अगस्त 2016 को मैं विद्यालय पहुँची। मेरे सभी मित्र जो मेरे साथ अन्य भाषाओं में कविता-पाठ कर रहे थे पूरी तैयारी के साथ निर्धारित कक्ष में आ चुके थे। हम सबने एक बार मिलकर अभ्यास किया। जब कार्यक्रम शुरू हुआ तो हम सबने उत्साह के साथ कविता-पाठ किया। कार्यक्रम देखने आए अभिभावकों ने जब हमारी प्रशंसा की तो हम सभी को बहुत खुशी हुई। इस दिन को मैं कभी भी नहीं भूलूँगी। यह दिन और कार्यक्रम मेरे लिए अविस्मरणीय रहेगा।

शिक्षण-मेला

११ फरवरी को हुए शिक्षण – मेला में 'स्वामी एंड फ्रेंड्स' कार्यक्रम का आयोजन किया गया। हिंदी विभाग के तरफ से कठपुतली नृत्य को दर्शाया गया, जिसे कक्षा १ व २ के छात्र-छात्राओं ने प्रस्तुत किया। बच्चों ने इस नृत्य-नाटिका में स्वर –व्यंजन का संयोजन तथा हिंदी भाषा में मात्राओं के महत्त्व को बड़े ही अनोखे अंदाज़ में पेश किया।

हिन्दी वाटिका

हमारे विद्यालय में कक्षा पाँचवी, छठीं और आठवीं के छात्रों द्वारा शिक्षण मेले का आयोजन किया गया। हिंदी विभाग के प्रस्तुतीकरण के लिए दस विद्यार्थियों का चयन किया गया। एक सप्ताह का समय हमें तैयारी हेतु दिया गया। हिंदी वाटिका के चार कोने बनाये गए। खेल-खेल में भाषा सीखें, जिसमें हमने व्याकरण, मुहावरे, सामान्य ज्ञान, साँप - सीढ़ी, शब्द - सीढ़ी जीभ मरोड़ संबंधी खेल रखें। वाटिका में हमने एक व्याकरण-कुंज भी बनाया, जिसमें व्याकरण संबंधी विषयों को फूलों, तितलियों, वृक्षों के माध्यम से प्रदर्शित किया। कमाल की होली नामक एक नाटक प्रस्तुत किया जिसमें हमने होली दहन में दुर्गुणों की आहुति और नेता जी द्वारा झूठे आश्वासनों की आहुति का संदेश दिया। इस नाटक का प्रदर्शन हम सब ने गणतंत्र दिवस समारोह में भी किया। इतवारी लाल द्वारा भाषा संबंधी खेल भी खिलवाए गए। सभी अभिवावकों और विद्यार्थियों ने हिंदी वाटिका और उसके संदेश की प्रशंसा की।

आदि-छठी, अंकिता- सातवीं, मरियम-आठवीं

जल - कल

'जल -कल' नामक एक नुक्कड़ नाटक का प्रदर्शन चौथी कक्षा के छात्र-छात्रों द्वारा किया गया, जिसमें जल से जुड़ी अनेकानेक समस्याएँ एवं उसके बचाव हेतु उपाय आदि बताए गए। चौथी कक्षा के कुछ छात्रों ने बरसात के मौसम में आने वाले 'संक्रामक रोगों' के कारण व उसके बचाव के उपाय चित्रों द्वारा प्रस्तुत किए जो सभी के द्वारा सराहा गया।

నేనే నాయకురాలినైతే

నేను మా కక్షకు నాయకురాలిని ఐతే ఆ బాధ్యతను ఆనందంగా స్వీకరిస్తాను. నాయకత్వం అనేది ఒకరిని చూసి నేర్చుకోనేది కాదు. కాని కొన్ని సమయాలలో అది ఆదర్శంగాను భాసిస్తుంది. అనుసరణీయం కూడా అవుతుంది. అది వ్యక్తి యొక్క ఆకాంక్షల మీద ఆధార పడి ఉంటుంది. అది మన వ్యక్తిత్వంలోనే ప్రతిబింబిస్తుంది.
నేను ఒక నాయకురాలిగా క్రమశిక్షణను పాటిస్తూ మా కక్షలోని విద్యార్థులందరూ క్రమశిక్షణతో ఉండేలా చూస్తాను. మా ఉపాధ్యాయురాలికి చేదోడు వాదోడుగా ఉంటాను. కొత్త విషయాలు నేర్చుకుంటాను. ఒక నాయకురాలిగా మంచి పేరు పొంది మా అమ్మా, నాన్నల గౌరవం మరింత పెంచుతాను అని మాటిస్తున్నాను.

శ్రీమతి వీణ మూర్తి గారితో “ఇష్టా గోష్ఠి”

నమస్కారము. మీరు ఒక పెద్ద విద్యాలయమునకు ప్రధానోపాధ్యాయురాలుగా మీరు విధులను నిర్వహిస్తున్నారు - దీనిని మీరు ఎలా భావిస్తున్నారు ?

వీణా మూర్తిగారు : ఒక పెద్ద విద్యా సంస్థ కు ప్రధానోపాధ్యాయురాలుగా ఉండటము అనేది చాల పెద్ద విషయం కాని ఇది ఒక అవకాశముగా తీసుకోవటమే కాదు. దీన్ని ఒక బాధ్యతగా, సవాలుగా కూడా భావిస్తాను. ఎందుకంటే ఇంత మందితో కలిసి పనిచేయడము అనేది ఒక సవాలు. ఇందాక మీ ప్రశ్నలో ఇంతమంది మీకింద పనిచేస్తున్నారు అని అన్నారు. నేను అలా భావించటమేలేదు. ఇంత మందితో కలిసి నేను పనిచేస్తున్నాను అనేదే నా భావన. ఈ సంస్థ లో మనము అందరమూ భాగస్వాములమే కనుక ఎవరి పని వారు చేస్తూ ఉంటే ఇబ్బంది అనేది ఉండదు అని భావిస్తున్నాను.

ఇషిత, స్నాకృతి : ఇప్పుడు మీరు ఇంతమందిని క్రమ శిక్షణ తో ఉంచుతున్నారు. మీరు చిన్నప్పుడు ఎలా ఉండేవారు ?

వీణా మూర్తిగారు : నేను విద్యార్థి దశలో ఉన్నప్పుడు చాలచాల క్రమశిక్షణతో మెలిగేదాన్ని.

ఇషిత, స్నాకృతి : మీరు చిన్నతనములో ఎంచుకున్న ఆశయాలు ఏమిటి ?

వీణా మూర్తిగారు : చిన్నప్పుడు నాకు రెండు ఆశయాలు ఉండేవి. ఒకటి లాయర్ కావాలని, రెండు టీచర్ కావాలని. మా నాన్నగారు నేను డాక్టర్ కావాలని కోరుకునేవారు. ఐతే నేను గమనించినది ఏమిటంటే, ఎవరైతే వైద్య విద్యను అభ్యసిస్తున్నారో వాళ్ళు ఎప్పుడూ చదువుతూనే ఉంటారు, ఇంక వారికి వేరే పనులు చెయ్యటానికి సమయము ఉండదు. కాబట్టి ఆ వైద్య విద్య అంటే నాకు నచ్చేది కాదు. టీచర్, లాయర్ అంటే నాకు చాల ఇష్టం. ఎందుకంటే అందులో చదివేది ఉంటుంది. పనిచేసేది కూడా ఉంటుంది. అదృష్టవశాత్తు నేను టీచింగ్ బాటలోకే వచ్చాను.

ఇషిత, స్నాకృతి : మీకు స్ఫూర్తి ప్రదాతలు ఎవరు ?

వీణా మూర్తిగారు : సమర్థత ఉన్నవాళ్ళు అందరూ నాకు స్ఫూర్తి ప్రదాతలుగానే నిలిచారు. ఇప్పుడు మనకు అకడమిక్ డైరెక్టర్ గా ఉన్న శ్రీమతి శశికళ గారు, అత్తాపూర్, మణికోండ శాఖలలో ఉన్న ప్రధానోపాధ్యాయులు, సి.బి.ఎస్ సహోదయ క్లస్టర్ లో ఉన్న సీనియర్ ప్రధానోపాధ్యాయులు. వారి వారి ఆధ్వర్యములో ఆ విద్యాలయములు ఎలా నడుస్తున్నాయో అలా ఈ పాఠశాల కూడా నడపాలనేది నా లక్ష్యం.

ఇషిత, స్నాకృతి : మీరు పెద్ద విద్యాలయమునకు ప్రధానోపాధ్యాయురాలుగా విద్యార్థుల్లో నాయకత్వ లక్షణములు పెంపొందించటానికి ఎటువంటి కృషి చేస్తున్నారు?

వీణా మూర్తిగారు : ప్రతి విద్యార్థిలోను ఒక నాయకుడు ఉంటాడు. ప్రతి విద్యార్థి లోని నాయకుడిని వెలికి తీసుకుని రావాలంటే వారిలో దాగి ఉన్న నైపుణ్యాలను వెలికి తీయాలి. అవకాశాలను వారికి ఇచ్చినప్పుడు వారిలో ఉన్న నాయకుడు బయటకు వస్తాడు.

ఇషిత, స్నాకృతి : విద్యార్థులకు స్ఫూర్తిగా ఇంకా ఏమేమి చెయ్యాలనుకుంటున్నారు?

వీణా మూర్తిగారు : విద్యార్థులకు స్ఫూర్తి ఇవ్వాలంటే వాళ్ళకు ఇంకా చాల చెయ్యవచ్చు. తరగతి లో వాళ్ళకి పాఠములు చెప్పటమే కాకుండా వాళ్ళని ఫీల్డ్ ట్రీప్స్ కి తీసుకుని వెళ్ళడము, కార్యశాలలకు (వర్క్ షాప్) తీసుకుని వెళ్ళడము, వారిలో నాయకత్వ లక్షణాలు పెంపొందించటానికి అనువైన నిజ జీవిత సమస్యలను వారి ముందు ఉంచటము, జీవితములో ఎదురయ్యే సవాళ్ళను పరిచయము చెయ్యటము. ఇలాంటి పరిస్థితులు వారికి సృష్టించినప్పుడే సమస్యను ఎలా పరిష్కరించాలో తెలుసుకుంటారు. ఇచ్చిన అవకాశాలను ఎలా సద్వినియోగం చేసుకోవాలో నేర్చుకుంటారు. చక్కటి ఫలితాల కొరకు మరి కొంత సమయము పడుతుంది కానీ మేము తప్పక చేస్తాము.

ఇషిత, స్నాకృతి: ప్రధానోపాధ్యాయురాలుగా మీకు చాలా ఒత్తిడి ఉంటుంది. దీన్ని మీరు ఎలా నియంత్రించ గలుగుతున్నారు ?

వీణా మూర్తిగారు : నాకు ఒత్తిడిగా ఉన్నప్పుడు నేను తరగతులకు వెళ్లి కూర్చుంటాను. పాఠశాలలో నాకు చాలా ఒత్తిడి అనిపించినప్పుడు నేను వెళ్లి ఒక తరగతిలో కూర్చుంటాను. అది నాకు ఒత్తిడి నుంచి ఉపశమనం కలిగిస్తుంది. సంగీతము వినడము మొదలైనవి చేస్తాను. నాకు కొంత వరకు సంగీతములో పరిచయము ఉంది.

ఇషిత, స్నాకృతి: మీతో గడిపిన ఈ సమయములో మేము చాల విషయాలు నేర్చుకున్నాము. కొత్త సంగతులు గ్రహించగలిగాము. మీ విలువైన సమయాన్ని మాకు కేటాయించినందుకు ధన్యవాదాలు.

వీణా మూర్తిగారు : నాకూ సంతోషముగా ఉంది. మీకు కూడా నా దీవెనలు.

Foire académique - Rain - O - Thon

Une foire académique a été présentée par les étudiants des classes 3, 4 et 5, le 26 août 2016. Le thème de la foire était "La pluie". Nous, les élèves de la cinquième classe, avons récité un poème "Clap, Clip, Clap, petite pluie d'avril" qui décrit la beauté de la pluie. Il y avait des récits de poèmes dans d'autres langues comme hindi, telugu et urdu. Nous avons décoré la pièce avec des parapluies colorés. Les mots liés à la pluie dans différentes langues ont été écrits sur des découpes de nuages et de gouttelettes d'eau. Tous les visiteurs ont apprécié nos efforts et nous avons été très heureux par leurs commentaires.

Foire académique - Cerebrate

Notre école a accueilli une foire académique «Cerebrate» présentée par les étudiants des classes 6, 7 et 8. Nous avons commencé les préparations bien à l'avance, car nos parents allaient être invités à la foire et nous voulions offrir une performance impeccable. L'arène française a été appelée «aperçus de la France», où nous avons représenté et parlé des célèbres monuments de la France, de la cuisine française et des festivals de France. Nous avons également parlé de "Tour de France", l'événement cycliste annuel de la France. Un de nos amis a récité un poème sur les parties du corps. La foire académique a reçu de très bons commentaires et appréciations des parents qui ont renforcé notre moral pour se préparer à une meilleure performance l'année prochaine.

Département du français

Le Département du français chez DSE comprend environ 75 étudiants et un professeur de français. Être professeur de français chez DSE m'a donné un immense plaisir. Tout d'abord, j'apprécie les étudiants qui ont profité de cette occasion pour apprendre une langue étrangère.

Apprendre le français est le plaisir d'apprendre un langage magnifique, riche et mélodieux. Le français est souvent considéré comme la langue de la culture. C'est la deuxième langue étrangère la plus connue après l'anglais et la sixième langue la plus parlée au monde.

Apprendre le français offre également l'accès aux œuvres de grands auteurs français tels que Victor Hugo ou Marcel Proust et des poètes célèbres comme Charles Baudelaire ou Jacques Prévert, dans le texte original.

La capacité de parler même un peu de français rend beaucoup plus agréable de visiter Paris et toutes les régions de France. Le français est également pratique lorsque vous voyagez en Afrique, en Suisse, au Canada, à Monaco, aux Seychelles et dans d'autres endroits.

Le français parlant ouvre des possibilités d'étude dans des universités et des écoles de commerce françaises de renom, classés parmi les meilleurs établissements d'enseignement supérieur d'Europe et du monde.

Célébrations du jour de la Bastille

Nous Dseeans avons célébré la Fête de la Bastille le 14 Juillet à notre campus de l'école avec beaucoup d'enthousiasme et de ferveur. Le campus de l'école a semblé coloré avec les étudiants et les professeurs habillés dans les couleurs du drapeau français bleu, blanc et rouge. Les élèves de la septième classe ont parlé de l'importance de la fête de la Bastille dans l'histoire de la France. L'assemblée du matin a été présentée par les élèves apprenant le français comme troisième langue. Les élèves de la cinquième classe ont accueilli tous les Dseeans avec une belle chanson "Bonjour, Bonjour, comment ça va". Les élèves de la classe VI ont donné une vue d'une salle de classe française et ont montré comment les parties du corps sont enseignées dans une salle de classe française à travers leur hilarante chanson et expressions «Jean Petit Qui Danse». Les élèves de la 8ème classe ont dansé sur la chanson française "Aux Champs-Élysées". Le programme a pris fin avec notre Directrice, Madame Veena Murthy, qui a informé les étudiants de l'avènement de la démocratie en France et de la manière dont le droit des droits de l'homme a été incorporé par les constitutions d'autres pays.

Le premier chef dans ma vie

Mon père est le premier chef de ma vie. Il est le leader le plus consistant, le plus patient et le plus engagé que je connaisse. Il est là depuis le jour quand je suis né, mais le chef en lui me fait penser à lui quand je grandis un peu plus. Il est le pilier de la force et du soutien pour toute la famille. Ses fortes qualités de chef me inspirent pour devenir un grand leader dans mon avenir.

اوصاف رہنما

ایک رہنما کے اندر کئی طرح کی صلاحیتیں اور قابلیتیں ہونی چاہیے ، جس کے ذریعے وہ کسی ملک ، قوم ، تنظیم یا ادارے کی ذمہ داریاں آسانی سے سنبھال سکتا ہے اور اپنے ساتھ کام کرنے والے کارکنوں اور تنظیم کے درمیان رہنما ایک کڑی کی طرح ہوتا ہے لہذا اس میں ان اوصاف کا ہونا نہایت ضروری ہے۔

مواصلات : رہنما ہونے کی حیثیت سے رہنما میں مواصلات کی اچھی صلاحیت ہو جس کے ذریعے وہ اپنے گروپ کے کارکنوں سے بات کر سکے ، مختصر اور جامع انداز میں اپنی بات کو پیش کر سکے۔

حوصلہ افزائی : رہنما کو چاہیے کہ اپنے گروپ کے کارکنوں کی ہر وقت حوصلہ افزائی کرتا رہے جس سے کارکن خوش ہو اور تنظیم کے لئے زیادہ سے زیادہ کام کریں۔

مثبت رویہ : ایک اچھا رہنما اپنے کارکنوں کے ساتھ مثبت رویے کے ساتھ پیش آتا ہے ، جس کی وجہ سے ایک اچھا ماحول بنائے گا اور سب خوشی خوشی اپنی ذمہ داری کو پورا کرنے کی پوری کوشش کریں گا۔

اعتماد / بھروسہ : رہنما اور اس کے ماننے والوں کے درمیان پر اعتماد اور بھروسہ مند رشتہ قائم ہونا چاہیے جس سے کارکن اپنی بات کا بآسانی اپنے رہنما کے آگے اظہار کر سکے۔ ذمہ داری: رہنما کو اپنے گروپ کی ناکامی اور کامیابی دونوں کی ذمہ داری لینی چاہیے۔ رہنما کو اپنے گروپ کی غلطی اور ناکامی کو قبول کرنا ہوگا اور اس کا کوئی آسان حل نکالنا ہوگا۔

اس کے علاوہ رہنما کو وقت کا پابند ، محنتی ، غیر جانب دار ، دانش مند ، خوش مزاج ، ہمدرد اور اچھے اخلاق والا ہونا چاہیے۔ ایک بہتر رہنما کی وجہ سے ایک ملک ، قوم ، تنظیم یا ادارہ کامیابی کی منزلیں طے کر سکتا ہے۔

کامیاب لیڈر (قائد) کی خصوصیات

ہمارے مشاہدہ میں یہی بات آتی ہے کہ زندگی کے ہر ایک شعبہ کی کامیابی کا درومدار ایک اچھے قائد پر ہوتا ہے جو اپنی قوم کی صلاحیتوں سے واقفیت رکھتے ہوئے ایک صحیح سمت میں اپنی ٹیم کی رہنمائی کرتا ہے ۔ کھیل کود کا میدان ہو یا کوئی کاروباری ادارہ یا پھر کسی ملک یا قوم کی رہنمائی ہو ٹیم کی صلاحیتوں اور ساری ٹیم کے تعاون سے ہی ٹیم کامیابی سے ہمکنار ہوتی ہے۔

آئیے ہم ایک نظر ڈالتے ہیں یہ جاننے کے لئے کہ ایک لیڈر میں کیا کیا صفات ہونی چاہیے

- ۱۔ قدردانی
- ۲۔ اعتماد
- ۳۔ جذبہ
- ۴۔ حوصلہ
- ۵۔ محنتی
- ۶۔ انصاف
- ۷۔ لچکدار
- ۸۔ ایمانداری
- ۹۔ غیر متعصب
- ۱۰۔ جوابدہی

مثالی رہنما

لوگوں یا گروپ کی قیادت کرنے والے کو رہنما کہتے ہیں۔ رہنما گروپ کی طاقت یا ڈھانچے کا مرکز ہوتا ہے ، جو گروپ میں سب سے مل کر رہتا ہے۔ رہنما کو طاقت اس کے گروپ کے اراکین سے ملتی ہے۔ محمد علی جناح نے خوب کہا ہے: ” ہم جتنی زیادہ تکلیفیں برداشت کریں گے اور قربانی دینا سیکھیں گے اتنی زیادہ پاکیزہ ، خالص اور مضبوط قوم کی حیثیت سے ابھریں گے ، جیسے سونا آگ میں تپ کر کندن بن جاتا ہے۔“

دنیا میں بہت سارے رہنما گزرے جنہوں نے لوگوں کی زندگی بدل دی جیسے مہاتما گاندھی ، پنڈت جواہر لال نہرو وغیرہ لیکن میں محمد علی جناح سے بہت متاثر ہوں۔ محمد علی جناح مسلمانوں کی آواز تھے ، انہوں نے مسلمانوں کی حوصلہ افزائی کی ، جس طرح مہاتما گاندھی ہندوستان کے رہنما تھے اسی طرح محمد علی جناح پاکستان کے رہنما تھے۔ انہیں قائد اعظم بھی کہا جاتا ہے۔

مٹی پہ سونے والا رہنما

قیصر روم نے حالات کا جائزہ لینے کے لیے اپنا ایک آدمی مدینہ بھیجا - وہاں پہنچ کر وہ کسی سے پوچھنے لگا - آپ کے شہنشاہ معظم کاحل کہاں ہے ، ہم لوگ "شہنشاہ" "محل" اور "معظم" جیسے لفظ سے بالکل نہ آشنا ہے - آپ یہ بتائیں کہ ملنا کس سے ہے ؟ کہا ، آپ کے بادشاہ سے -

فرمایا : ہمارے ہاں بادشاہ کوئی نہیں بلکہ ایک خادم ہوتا ہے - جو ہمارے معاملات کا انتظام کرتا ہے - اس کا نام عمر (۶۳۳ء) اور وہ محل میں نہیں بلکہ گارے کے ایک جھونپڑے میں رہتا ہے اور اس وقت کہیں مزدوری کر رہا ہوگا -

رومی یہ سن کر بڑا ہی حیران ہوا اور آپ کی تلاش میں چل پڑا ، ذرا آگے جا کر دیکھا کہ عمر سر کے نیچے درہ رکھ کر مٹی پہ سوئے ہوئے ہیں - یہ دیکھ کر کہنے لگا : کیا یہ ہے وہ عمر جس کی ہیبت سے دنیا کے فرماں رواؤں کی نیند اڑ چکی ہے ؟

اے عمر ! تم نے انصاف کیا اور تمہیں گرم ریت پر بھی نیند آگئی -

ہمارے بادشاہ ظالم اور بد دیانت ہیں - اس لیے انہیں سنگین حصاروں میں بھی نیند نہیں آتی -

اے خدا ! بنا دے مجھے رہنما ایسا گاندھی ، لنکن اور منڈیلا جیسا

خواہش ہے میری رہنما بننے کی شان و شوکت اور دنیا حاصل کرنے کی

بننا ہے ہر فرد کو ایک رہنما بہترین لیکن اس کے لیے پہلے بننا ہے اعلیٰ ظرف اور تازہ ترین

ارادوں کو کرنا چاہیے نیک اور پاک رکھو اپنے اندر اتنی نیکی جیسے خطوط رکھنے والا ڈاک

یہ سب کرنا ہوگا اگر بننا چاہتے ہو ایک رہنما جو انسان کے کام آئے گا بنو ویسا رہنما

رہنما کی ذمہ داریاں

رہنما وہ شخص ہوتا ہے جو اپنی ذمہ داری کے ساتھ ساتھ دوسروں کی بھی ذمہ داری لیتا ہے - مہاتما گاندھی ایک بہتر رہنما تھے جن سے میں بہت متاثر ہوں - مہاتما گاندھی نے ہمیں انسا اور ستیہ (سچائی) پر چلنے کی تلقین کی گاندھی جی کی یہ بات مجھے بہت پسند آتی ہے - گاندھی جی کی یہی بات انہیں دوسرے رہنماؤں سے ممتاز بناتی ہے -

Are Digital Schools the next big thing in the future?

With the chants of digitalization intensified more than ever in our country, a solid springboard has been set up in place just waiting to be used to propel its bearer up high. The only problem, as far as can be seen, is locating this springboard. It must be noted that digitalization encompasses various domains, out of which education is a long standing one. It's proximity with technology is considerable,

but its reach is still limited. India, being one of the countries dabbling with pro-technological education, has stepped up the game with the current government's decision to go completely digital. Even though the current focus is more on making a cash-less economy, the education sector can carve out benefits of this scheme and implement innovative solutions to making the classroom more favourable learning environment. A case in point is the North Iredell Middle School, North Carolina, USA; where the student demographic, a mix of middle class rural and urban communities majorly, were given MacBook Airs as part of a \$20 million funding scheme in 2012, and their situation has only improved since then. They have had cases of students owning up to their assignments and homework's, just because of the laptops.

While the question "Are Digital Schools the next big thing in future?" is still thrown around, a kind reminder of an answer would have to be that the envisioned future is nowhere light years away, but rather is concealed deep within the present. The present jump in technological innovations has a large potential to change the education scenario of the country, but lack of a proper structure to implement the scheme on the larger level is what is holding back the aforementioned future. Educomp Tech, one of India's leading digital technological solutions provider boasts of providing to over tens of thousands of schools serving millions of students and is one of the major players in the industry. Looking at such ventures, there is hope that what was once a desert with sparingly scattered plants will turn into a rainforest soon. While there may not be a one to one correspondence between the state of North Carolina and India, scalability issues being a major problem, India could learn from the scheme by allocating more resources to implementing an organized way of spreading the digital light all over the country.

Teaching with technology can deepen student learning by supporting instructional objectives. However, it can be challenging to select the "best" tech tools while not losing sight of the goals for student learning. Once identified, integrating those tools can itself be a challenge albeit an eye-opening experience. Delhi School of Excellence, leaves no stone unturned to find creative and constructive ways to integrate technology into the class.

School counsellors collaborate with educators, parents, and other professionals to create a safe, healthy, and supportive learning environment for all students. Children face unique and diverse challenges, both personally as well as developmentally and the impact is felt on their academic achievements. Counselling empowers individuals and helps them to achieve mental health, wellness, and academic goals. Here comes the role of a school counsellor who plays a vital role in the success of students. It is believed that if help is provided at the right time with appropriate intervention, the individual not only leads a fulfilling life but also gains a stronger understanding of self.

As the in house counsellor of Delhi school of Excellence, my approach towards the students of all ages is on a one-to- one basis, along with performing a range of informal assessments to identify their strengths and to uncover the areas in need of improvement. The children with special needs such as learning difficulties, behavioral issues and ADHD are identified and personal counselling sessions are provided. The orientation programme for the teachers and parents along with the one-to-one interaction enable everyone to understand the importance of a school counsellor. Group sessions in the classes are conducted on a regular basis to motivate the children as well as to keep a tab on their performance.

The awesome journey through these years at Delhi School of Excellence has been a wonderful one.
