FROM THE EDITOR'S DESK

Patience pays off...
Give it time... Dont move in haste or panic...
Stay Open and be willing to work...
Things will come around...
Your outlook attracts certain outcomes...
It's all about how you choose to see things...
Be careful what you speak over yourself...
Your life will go where your words lead it...
-- RobHillSr

Five or Ten years ago we never imagined that a time will come when the world will stand still. In March 2020 we all were forced to be confined to our houses, leaving no hope for survival. But its rightly said where there is a will there is a way. People from many fields sustained and flourished, though facing hard ships of pandemic with a goal of moving ahead. Online classes were the stepping stone in this process for the educational system. It was the need of the hour to bring learning to people instead of people to learning. We had 'Fortitude- courage beyond expectations' and were ready to face obstacles and deal with them for the benefit of our students.

Technology proved a ray of hope for all of us. Online classes commenced from 2020 and were very challenging initially but interesting too. It was a herculean task for all. As we know there is no age for learning –the teachers learnt to use technology and became tech savvy. The motto of the management, teachers and parents was one and only to support students in developing strong attitudes towards learning which could help them to overcome some of the potential challenges posed by online learning such as remaining focused during online classes or maintaining sufficient motivation.

This year magazine – "Fortitude- Footprints of Sustainability" reflects the journey of online classes, proving the point that nothing is impossible to the willing mind. Holistic development is the main mission of DSE which was successfully achieved during online classes. Activity based learning, competitions, celebrations; new initiatives like Confidence Builder Brigade - Micro Teaching, Academo-fest, afternoon clubs, Academo-conclave etc., all were executed smoothly, resulting in refinement of scholastic and co scholastic development of students. Through this magazine, students have expressed their opinions, feelings, thoughts about their experience during online classes in the form of articles, poems, report, comic strip, poster, thank you cards etc. The highlight of the magazine is that the testimonials written for every activity is by parents, exhibiting their feelings about the efforts taken by DSE team.

I thank our Principal, Ms. Veena Murthy and all the dignitaries for sparing their valuable time to send their best wishes in the form of messages. I also take the opportunity to thank the parents and students for their efforts in contributing for the magazine. Lastly, but not the least, I thank my Hod's and team for making this experience memorable.

Rimpa Kriplani

Education World Award

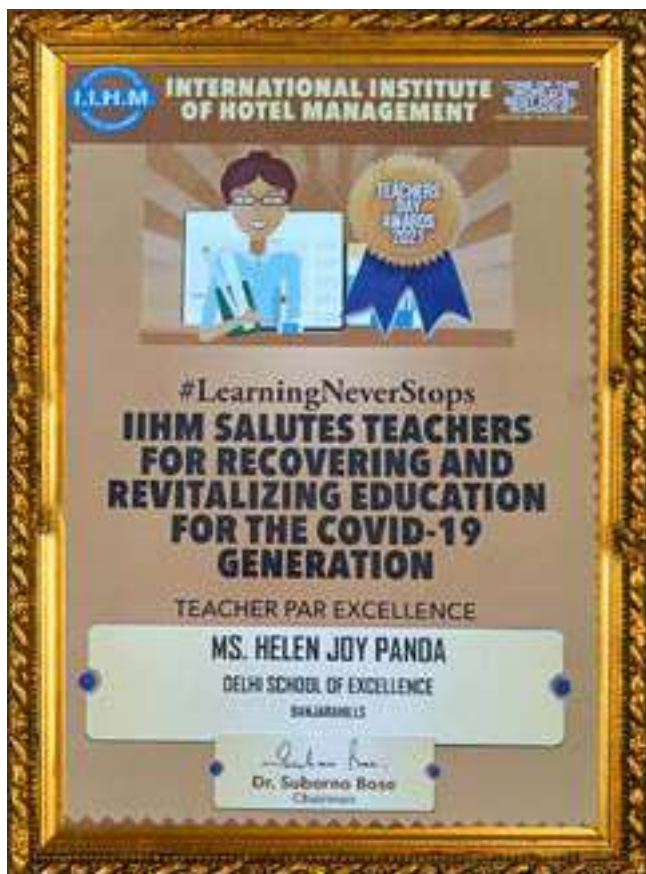

Global Talk Education Foundation Award

Congratulations

DSE ROCKS

We don't grow when things are stress-free, we grow when we face challenges

The past two years have made us stronger to overcome our limitations and face the challenges thrown up due to the unprecedented situation of the pandemic. Life isn't always foreseeable or smooth, as it throws us many curvatures and we need to learn to take these in our stride and remain unperturbed. I am proud of the manner in which the school led by the Principal and her team of teachers have never lost sight of the current need - ensuring that education never ceases and learning never ends.

Our goal is to provide our students with exceptional education, and instilling in young minds a love of learning, the ability to think independently and the confidence to pursue their dreams and goals. We are one of the best schools in the twin cities rooted in Indian 'values' and we aim to provide an education that will help the children grow up into 21st century Global citizens. Each day is a blessing- a new beginning encased with hope and belief. Together, let us grow, progress and evolve. Never quit no matter what challenges come your way.

The efforts put forth by the Editorial team in bringing out the e-magazine 'Fortitude - Footprints of Sustainability as a souvenir in commemoration of the 75th anniversary of India's Independence are laudable. I congratulate all those who were involved in this venture. My heartfelt wishes to all the stakeholders for their never-ending support and encouragement for their renewed commitment for the welfare of the school.

With Best wishes!

P. Madhusudhan Rao
Chairman
DSE Group of Institutions

“*Discipline is the foundation
of a successful and happy
life.*”

It gives me great pleasure to share my thoughts as we leaf through the pages of this year's Annual School e-Magazine 'Fortitude- Footprints of sustainability'. I am delighted that the theme of the magazine reflects the dedication shown by teachers to successfully provide the best to the students through the Online mode.

Rapid changes in technology and globalisation are drastically changing the education scenario during the present turmoil and uncertainty. Indeed, let us take these times as opportunities to do the things that we had always wanted to do.

Through this journal, I would like to stress upon the value 'Discipline,' which is a word we hear in our daily life. It is often quoted that discipline turns ability into achievement. It is also choosing between what you want now and what you want the most. Isn't it relevant in our day-to-day lives and explicitly with students? For students, every hour is crucial to maintain their good grades and balance perfect mental well-being. In such instances, following a routine of discipline can be beneficial for their overall performance - both in academics and extracurricular activities; and also to achieve goals in their lives.

This is as good a time as any, for us as educators and parents to focus our time and commitment to nurture our young minds. Our time and guidance are instrumental in educating the impressionable young minds in order to mould them into disciplined, responsible thinking individuals.

I congratulate the Principal, staff, students and the Editorial Board on yet another great achievement. I look forward to even great things in the years to come.

Good luck!

Shilpa Ravi
Vice Chairperson
DSE Group of Institutions

“

*Open your arms to change but
don't let go of your values.*

- Dalai Lama

Delhi School of Excellence has steadily grown from strength to strength since its inception, and has successfully established three branches across the city. DSE, Banjara Hills had a humble beginning in 2013. Today, it has more than 850 students and around 130 staff members on its roll.

The motive of DSE is to develop a global perspective to cope with a scenario of fast changing technology. In addition to this, values with discipline are the hallmark of our institution, besides ensuring quality education of the students. Here, the emphasis is not only on the academic excellence but the overall personality development of a student, who can function effectively in society with a commitment to excellence and a sense of social and civic responsibility.

We have met many challenges on our way. These are just trying years and therefore, my advice to all the dedicated and hardworking teachers is to continue to stand firm and soar high in all arenas.

I am delighted that Editorial Board has published the e-Magazine 'Fortitude- Footprints of sustainability' in commemoration of the smooth conduction of Online classes and overcoming the challenges with fortitude. My sincere thanks to the Principal and her team for creating a platform to maintain the standard of the school with their overwhelming efforts and overflowing talents.

Wish you all good luck!

K.M. Rama Devi
Secretary
DSE Group of Institutions

“With courage, you will dare to take risks, have the strength to be compassionate, and the wisdom to be humble. Courage is the foundation of integrity.” - Mark Twain

To be reckoned as a topnotch educational institution in the present times, one of the criteria is definitely to have an effective and professional education platform. Effective teaching/learning is all about enabling teachers and students to interact better and engage better.

During the past two challenging and unprecedented times, teachers had to learn many new things and incorporate (both digital technology and socio-emotional learning) into their teaching in order to reach out to students and achieve the learning outcomes. They needed to analyze the learning gaps created, by adapting various learning assessment tools that measure these losses and identify the learners' needs. It was equally challenging for the students also as they missed being on the campus, bonding with teachers and their friends. The coronavirus pandemic has thrown a spanner in the works of education reform, but several silver linings have emerged from this crisis.

Be it any kind of situation we face, we at DSE, follow 21st-century education which focuses on values, skills, and knowledge to help shape a sustainable future for our students. DSE does not believe in imparting 'Knowledge' merely as 'information'. Teachers experiment and innovate new methods of teaching to transform education.

Unitedly, let us continue to work to serve the cause of education for the betterment of the coming generation so that they live in a world where “Knowledge can be acquired free without any fear”.

To express one's thoughts, I feel, this journal is the best platform and this is what our students have expressed in terms of contributions towards the e-magazine Fortitude -Footprints of Sustainability. I congratulate the Editorial Board for unleashing the hidden potential of the students and making this Magazine fetch its place in the annals of DSE.

B. Shashikala
Academic Director
DSE Group of Institutions

“Do what you have to do until you
can do what you want to do.”
-- Oprah Winfrey

DSE envisions moulding students into conscientious global citizens, who are aware of problems the world over and are willing to contribute their might to make the world a better place to live in.

Hate it or like it, but you cannot ignore it! Technology in education is here to stay and the outbreak of the pandemic has only emphasised the importance of technology in academic learning!

In the present scenario, DSE, Banjara Hills has comprehended that the global library is already in the cloud, constantly updated with the latest research and developments and instantly available to the individual, at the click of a button! It is less important to transfer that library to memory than to practice navigating the cloud, finding the right resources and applying knowledge to the problem at hand. The emphasis at DSE is on doing-to-learn rather than learning-to-do.

DSE, Banjara Hills consistently strives to combine technology with traditional learning systems to give full-fledged learning experience to students, making learning sustainable, enriching and thought provoking. The teachers are knowledgeable, well qualified and also have the expertise to teach students how to use the right technical resources that enhance and nurture the subject content and assist students to learn concepts thoroughly.

My heartiest congratulations to the editorial team for compiling the experiences of students and teachers through e-magazine 'Fortitude-Footprints of Sustainability'. The e-magazine has given a platform to share opinions, achievements, challenges and goals.

I wish DSE many more success stories, accolades and accomplishments in its journey to excellence!

Happy Reading and all the very best!

T Veena Murthy
Principal

“*Fortitude is the marshal of thought,
the armour of the will and the fort
of reason.*

- Francis Bacon

Covid has left the world in a tizzy. While all of us are reeling from the after effects of the pandemic, we as academia reflect on the transformational changes it has brought in the educational sphere, how we adapted and the path forward from here.

The pandemic has caused systemic changes in how three key stakeholders who operate in the schooling experience.

Firstly, our leadership has continually kept abreast with the sweeping changes and has been nimble to accommodate not only the safety concerns of the students, but also the quality of education and extracurricular activities. We continue to strive to impart excellence in our holistic approach towards students.

Secondly, with the loss of physical experience for our students, we swiftly pivoted to the online setting using technology as an enabler using Zoom or Google meetings, breakout rooms and fun interactive team events which motivated children to stay connected with their peers and participate well in academics.

Thirdly, our teachers, who have always stepped up to ever-changing scenarios, have adapted to a completely online system of teaching. Teaching through online system is an uphill task and the teachers addressed the key challenging areas, and ensured quality and innovative teaching frameworks to present and evaluate conceptual understanding.

'Be smart, be kind and be safe' said the WHO Director amidst the pandemic. DSE as an institution imbibes this learning as it continues to grow deeper roots in our student-parent-school ecosystem.

Support System

TOUCHED - WORDS OF APPRECIATION

This is my daughter's first year in the school. I am quite happy with her performance in academics as well as extra-curricular activities. She has developed a lot in communication skills. The school has resourcefully used the technology to conduct online classes very efficiently. She participated in the Academia Conclave conducted in the English subject.

Ravi Kant Dangeti P/O D. Laasya

Every word stands small to express our feelings and satisfaction with DSE. With the support of our beloved Principal Ma'am and her team, we were able to enrol our daughter Online. We were filled with challenges, attending the first few months from the US, difference in the time zones, change in the academics and all new concepts and languages. Every teacher with a lot of patience, encouraged our daughter and gave her the freedom to reach out whenever she needed any kind of help.

Ritika Vuppala P/O Mahita

The online academic year was conducted with excellence by the school. The efforts put in by the teachers and coordinators is worth applauding. Special thanks to the teachers for giving an extra hand in helping Hriday grow academically and mentally. I really liked the school in conducting the competitions. Kids feel very refreshed and happy in participating in it and have gained confidence.

Niharika Agarwal P/O Hriday Agarwal

We are very happy and excited to see all the kids singing nicely, enjoying the dance and yoga. We are glad that these kiddos are having a physical and healthy lifestyle in school, during this pandemic times. Students are enjoying Art classes and learning different styles of arts.

Archana P/O Ehaan

Online classes and activities have not only refined critical thinking skills in our children but also demonstrated self-motivation. It also brought a huge revolution in today's pandemic situation which is helping our children to stay safe and learn simultaneously. I would really thank DSE for the wonderful understanding of helping students in learning from home with classroom ambience. It was a well-attributed initiative by DSE. Thank you a lot to making our children learn and achieve their dreams. Kudo way to go!

Jasbeer Kaur P/O Mandeep Kaur

My ward participated in Academia Conclave conducted in the school premises and has put in an outstanding performance in presenting the Science project of the topic 'Chemical Reactions of Metals'. I express my sincere gratitude towards the Principal and the Head Mistress for giving him an opportunity to showcase his skills. Special thanks to the HRT and the subject teachers for encouraging and helping him to give his best for the event.

Mohammed Imran Hasmani P/O Ayan Hasmani

Assembly at DSE is like a platform for learning, understanding one another, exhibiting skills & talents of the Children. It enables the Students to build their confidence and awareness of Togetherness.

Sirish Chander Kasturi P/O Sri Vallabh Kasturi

At the outset, let me congratulate DSE Banjara Team and teachers for the fantastic organizing, conducting and implementing online classroom activities such as physical education, Academo Fest, Academia conclave. As parents, we really appreciate the efforts and involvement of teachers and staff. All the best for all such efforts!

Garima Vijaywargia P/O Poorvi

Festivals and celebrations are a delight for children, especially at school. It's a great effort by the school to inculcate festive values and their importance to the children. The best part is the emphasis made to understand the importance of the day and the reason to celebrate. It's again learning in the best possible way with fun during these difficult times. A lot of effort is made by the teachers in making it a fun and lively event online. Truly appreciate their hard work and dedication.

Farzeena Mateen Jahagirdar P/O Liba Mariam

Hindi is one of the national languages of India and Hindi Diwas is celebrated to give its proper identity. I love the fact the school has taken great steps to celebrate Hindi Diwas and my daughter has learnt a lot about the importance of the language its wide usage. I hope the other days are also celebrated.

Mukesh Vashist P/O Aamya Vashist

My ward Maneet, along with some of his classmates performed in a skit about child labour awareness. Through this he was able to enhance his skills of expressing through acting. These types of activities spread awareness among the students against social evils and how to eliminate such iniquitous situations from society. Through such assembly activities the children can learn about improving children's life skills and ethics. I thank DSE for conducting such activities.

Rani Nagamalla P/O Maneet

Competitions bring out talent skills, creativity and build up confidence. Competitions motivate students and drive them to put forth their best efforts. I am grateful to all the teachers for their rigorous support and encouragement for the participation of each and every child in all competitions.

Amtul Muneem Maliha P/O Abdul Rehman Atif

I believe that Yoga is very good for students during online classes as it helped children to stay fit and healthy. Yoga has a lot of advantages such as making children focus and concentrate on studies throughout the day and score well during exams. My child is active throughout the day. The Yoga teacher is teaching the various Yoga asanas and Yoga positions very well such as Surya Namaskar

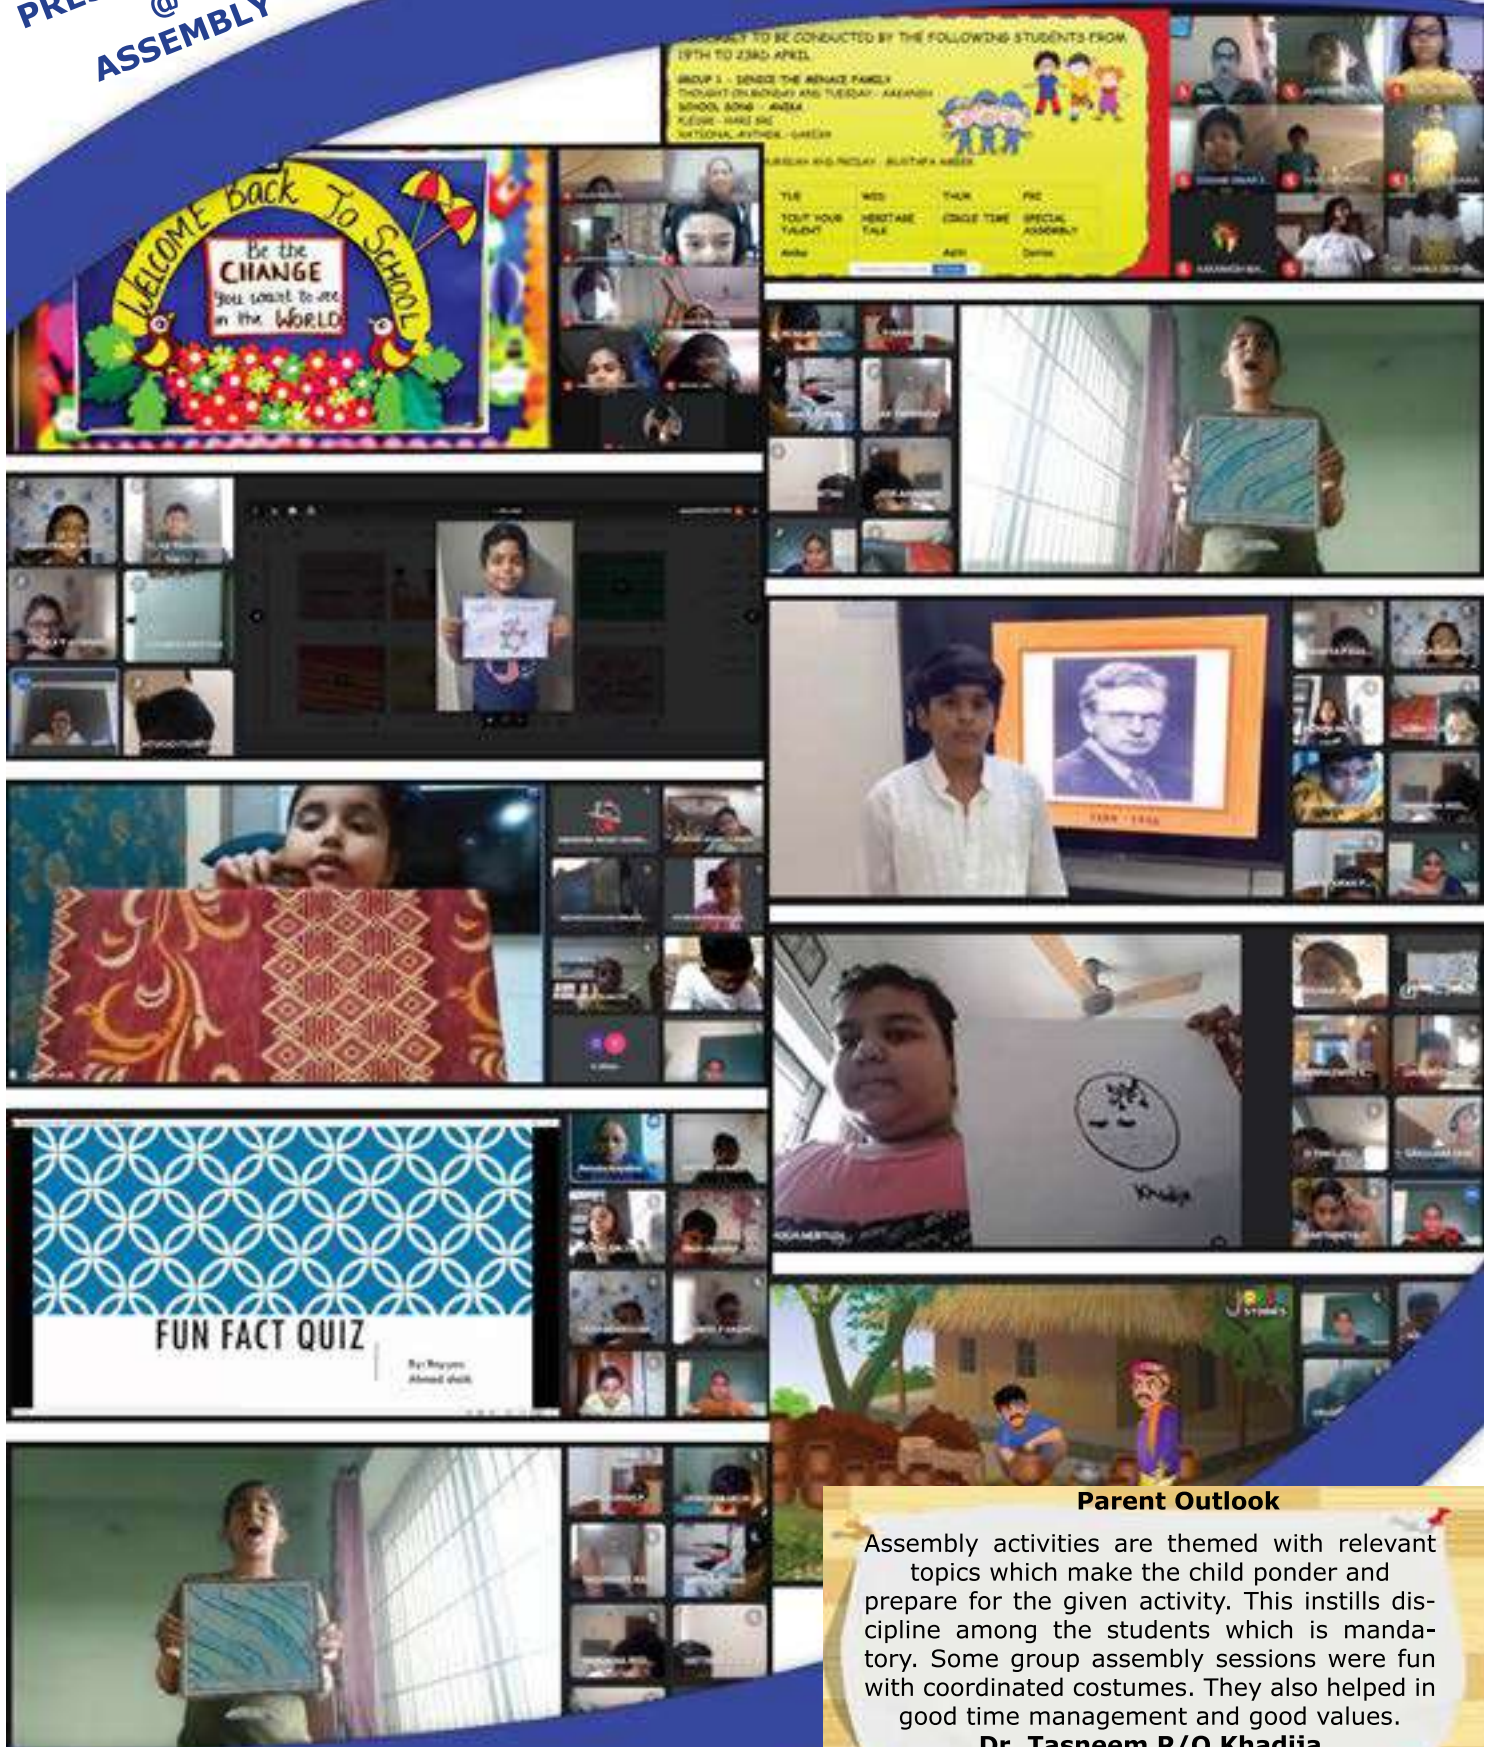

P/O Haripriya

My daughter has been studying in DSE for the last four years and as a parent I have enjoyed seeing my child grow both intellectually and in knowledge. DSE has handled online classes very well. Any school is as good as their teaching staff and it has nurtured their staff well which is reflected in their dedication.

Parent Teacher Meetings have always been opportunities to dissect the observations of the children's performance minutely and how to improve further. I remember an action plan to discuss to ensure my kid does a Math practice of five questions every day.

Shyeda Tasneem Zarin P/O Syeda Sakiza

PRESENTATION @ ASSEMBLY

Parent Outlook

Assembly activities are themed with relevant topics which make the child ponder and prepare for the given activity. This instills discipline among the students which is mandatory. Some group assembly sessions were fun with coordinated costumes. They also helped in good time management and good values.

Dr. Tasneem P/O Khadija

PRESENTATION @ ASSEMBLY

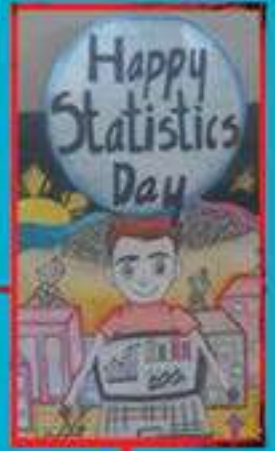

Parent Outlook

A big thanks to the DSE team for coming up with this idea of having children speak about their parents in a colour coordinated dress during special assembly. Children were very excited and well-prepared for the activity.

Varun Agarwal P/O Saubhagya Agarwal

MODERNISATION OF THOUGHTS - SPECIAL ASSEMBLY

Parent Outlook

When the world came to standstill because of the pandemic, medical professionals were fighting their own battle for the future generations, so were the teachers who brought classrooms to the students. The various activities not only brought discipline but also fun and learning to the students. It is a way to relive our own childhood. So a big shout out to the teachers for their dedication and hard work.

Pinky Makhariya P/O Khush

CELEBRATIONS # HAPPINESS, FUN, MEMORIES

Parent Outlook

Students love participating in the virtual celebration of festivals with great enthusiasm since they can showcase their skills and talent and also enjoy them with their friends during the pandemic time. Competitions inculcate a spirit of healthy competition among students. These activities provide overall development of students.

Sonal Mehta P/O Aarav Mehta

CELEBRATIONS # HAPPINESS, FUN, MEMORIES

*“Strength does not come from
physical capacity, it comes from
indomitable will
-Mahatma Gandhi*

We have seen a different world in the last two years. As the pandemic started and continued, the feelings amongst us ranged from a surprise to a shock, from joy to distress, mental agony to perseverance. But above all, what kept us going as individuals and educators was the strong determination and the will to make things work. Though the time and situations continuously posed challenges, we took it in our stride and went along. The will that we gathered, led to willingness to accept mistakes and rise to the needs of the occasion.

As educators, in spite of all the odds, the reason for happiness was that we could still continue with the teaching-learning process and we are glad that we have given the best from our side. The students have been great teachers to us during this remote learning period. They taught us the skill of adapting to the tech world and taking each day as a fresh beginning. Their innocent smiles and their curiosity strengthened our will to give the best during online classes. They made us look at the world with fresh eyes. The enthusiasm displayed by the parents gave us an opportunity to explore and execute programmes, which otherwise seemed impossible. Yet teaching remotely provided a new opportunity to focus on how to carve out time for activities that catered to the social and emotional needs of the students in the absence of face-to-face connections.

From assemblies to discussions, celebrations to competitions, Parent-Teacher Meetings to Open house, we have done it all. And the time flew by. At this juncture, when we all understood that online teaching can never replace face-to-face classes, we are geared up to start the normal schooling with great hope and renewed zeal.

Kavitha Maripeddi
Coordinator - PP & Grades I-II

WONDERLAND OF MY ONLINE CLASSES

Parent Outlook

I sincerely appreciate the efforts put by the teachers to make online classes interesting. Perfect balance is maintained between academics & activities. Not just in terms of academics but also in curricular activities wonderful opportunities are provided to students to hone their skills from such young age. Grateful to all teachers for their energy, efforts & enthusiasm.

Swati J Naik P/O Ayansh Naik

Parent Outlook

Learning English from a young age has an incredible effect on the child's brain. The English activities done at DSE, Banjara helps strengthen the letter recognition and phonics skills which is the pillar for the development of English language in the child. They also help in enhancing the child's communication skills with various speaking activities in the class.

Atiya Begum P/O Mohd. Saaduddin

Parent Outlook

The subject of EVS and Math has been handled very well by the teacher in the class. A special mention to the team that has carefully worked on the syllabus. The coverage is age appropriate and generates wide curiosity in children. The activities planned to match the themes keeps the kids glued to the concepts. A heartfelt gratitude to the school, management and the teacher for enabling practical learning.

Aparna P/O Sthira Aditya

SOMETIMES ALL YOU NEED IS A LITTLE SPLASH OF COLOR

Purple Day

Orange Day

White Day

Green Day

Blue Day

Parent Outlook

We didn't want a teacher to simply educate a child. We wanted someone who cares and helps kids in all the skills and make them confident, DSE teachers fit well in this regard. They gave the right platform to kids by conducting various activities

Naveshia P/O Shagufta Firdous

CELEBRATIONS # FUN, EXCITEMENT, MEMORIES

Parent Outlook

This pandemic time was both academically and emotionally challenging. Even during these difficult times teachers nurtured kids by providing the guidance they needed. Celebrations of various festivals and days were full of enjoyment and happiness. As parents we too enjoyed it a lot. I am impressed with techniques and methodology used effectively even with Online format.

Archana Jain, P/O Tithi Jain

OPEN HOUSE @ BANJARA HILLS # LEARNING BY DOING

FROM ADORABLE HEARTS

WELCOME TO OUR CLASSROOM WHRRER THE MAGIC NEVER STOPS AND LEARNING NEVER ENDS

Parent Outlook

English is certainly considered as one of the most important subjects that a student can learn from school. Every topic introduced with activities, quizzes & worksheets were engaging and enjoyable for children. They also helped in building confidence and improving communication, writing and reading skills.

Arisha Baig P/O Khudsiya Iftqar

Parent Outlook

In these uncertain times of covid crisis, DSE school and its teachers have gone above and beyond the call of duty to provide an engaging learning experience to our children. Even abstract subjects like mathematics were taught in a practical and efficient way by using everyday objects as teaching aids. This helped children to not only grasp the concepts quickly but also apply them in real-life scenarios.

Ratnavali Burra P/O Agastya

Parent Outlook

"When we see we learn When we do we remember" This quote was very well exhibited during the practical activity sessions. Kids enjoyed and learned more from activities like making landforms, different types of plants, festivals etc. The activities have certainly made the classes more interesting for these little wandering minds.

Hanah Aimen Nizam P/O Dr. Mahnaz Afreen

Parent Outlook

To teach Languages to kids in online classes was the most challenging task. But language teachers made their classes the most interactive and interesting. The activities including pictorial and word flashcards, poems and songs helped students for better understanding. Online picture quizzes were interesting for kids.

Dheeraj Garg P/O Rijul Garg

FROM ENTHUSIASTIC LEARNERS

GRADUATION - THIS IS YOUR DAY! CHERISH IT CONGRATULATIONS

LET'S HEAR FROM...

Challenges are what make life interesting, overcoming them is what make them meaningful.

This year was a challenging year for everyone but I've been over and extremely proud that our teachers made impossible to possible not only in academics but also in other activities. We excelled and were grown due to the great planning execution by DSE management and our teachers. It was very challenging for teachers to conduct online exams but I must appreciate their passion and responsibility towards us, they learnt so many technological ways to guide us.

I would like to conclude my words through this quote of Nelson Mandela- "Courage is not the absence of fear but the triumph over it, the brave man is not he who feels afraid but he who conquers that fear"

Abdul Muqeet Mohammed
Head Boy

Through the eyes of gratitude, everything is a miracle. Being the Head Girl of my beloved school was like a dream come true and I'm sure I've done justice to the role. Every task, Every responsibility, and every minute i spent wearing my badge infused a sense of pride and accomplishment in me. Im glad i had this opportunity to lead and serve my juniors and classmates and support them in their journey as school kept switching between online and offline. Im happy i could do my part to help, my fellow dseians adjust to the 'new normal' and the memories ive made in the process will always stay with me. This was a very challenging phase for our meticulous teachers as well, yet, they were there for us when we needed them. They tried their best to make sure we had a smooth transition back to school. I will forever be grateful to them.
Thank you.

"To be inspired is great, but to be an inspiration is an honour."

INTER HOUSE COMPETITIONS CHAMPIONS ARE MADE BY THEIR PASSION AND PERSISTENCE - AGUNLOYE OYERINDE

Parent Outlook

Parents derive immense pleasure to see their children getting exposed to different ways of learning by participating in Inter-School and Inter-House Competitions. These competitions improve children's confidence and creativity. They give a great opportunity to the children to showcase their talent and learn new things.

Sushma P/O Arnav KR

Parent Outlook

Covid has changed the lives of kids in a very drastic way. But still to keep children engaged, DSE has always tried it with some or other activities. Especially the competitions have always given new ideas and innovations. Sometimes that became a tough job for kids as well as parents to do, but then it was enjoyed.

NEW INITIATIVES - A GOOD PLAN IMPLEMENTED TODAY IS BETTER THAN A PERFECT PLAN IMPLEMENTED TOMORROW

Parent Outlook

Micro-Teaching has enabled students to develop confidence and communication skills in the process of learning the topics while presenting them in the class. Very much satisfied with the concept of Micro-Teaching. It taps the talent among the students.

K Raghavan P/O Arnav

Parent Outlook

DSE provides good co-curricular activities and great opportunities for students to learn many skills. Confidence Builder Brigade- Micro Teaching was a wonderful opportunity given to the students to learn, comprehend and present on their own. Kudos. It is a tremendous effort by DSE to let their students excel in everything.

Bhagwathi Daga P/O Dhruv Daga

ACADEMOFEST

What Is a Metaphor?

A metaphor is a figure of speech that, for rhetorical effect, directly refers to one thing by mentioning another. It may provide clarity or identify hidden similarities between two different ideas.

- Metaphors are commonly used in Poem's, Literature and Quotes.

Today we are going to do a act dedicated to actors

People who are acting and their Roles

Actor - Namah
Director - Shale
Producer - Namah

Parent Outlook

DSE focuses not only on academics but a holistic development of kids with the help of sports, cultural activities, art education and the new innovative club classes. Owing to the pandemic restrictions, kids need more time on activities apart from the academics and exams. By deviating from a fixed routine, the school management has catered to the kids' special interest in activities like Academofest and Academoconclave as they focus on fun with learning.

S. Prashant Reddy P/O Vyom Reddy

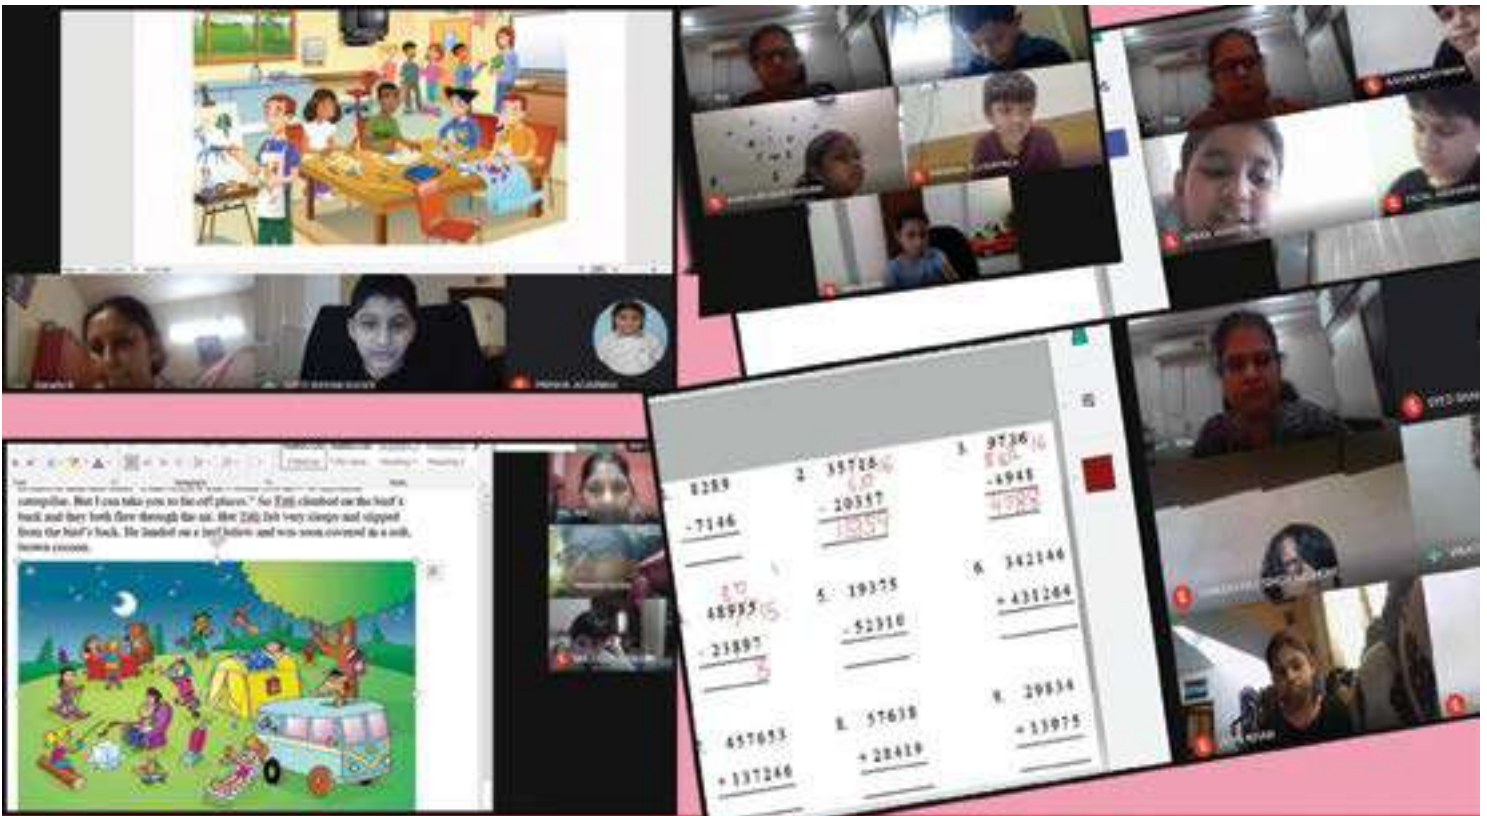

EXAMPLES OF EFFECTIVE SIMILITUDIN

VOLCANIC ERUPTION

EXPLOSION OF CRACKERS

INTERIOR ANGLE IN REAL LIFE EXAMPLE

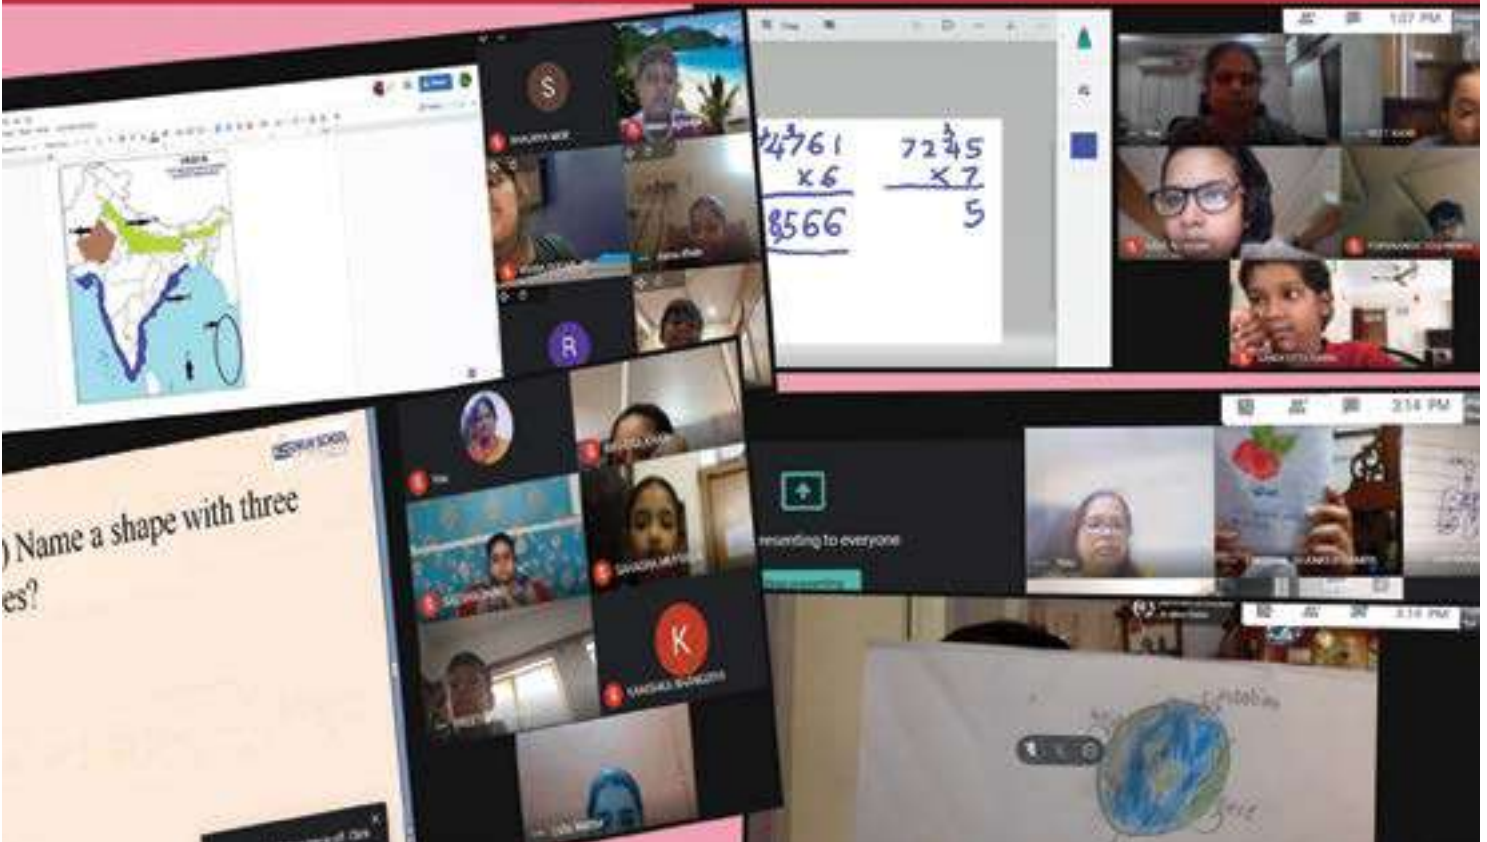

PERFORMANCE ANALYTICAL REPORT (PAR)

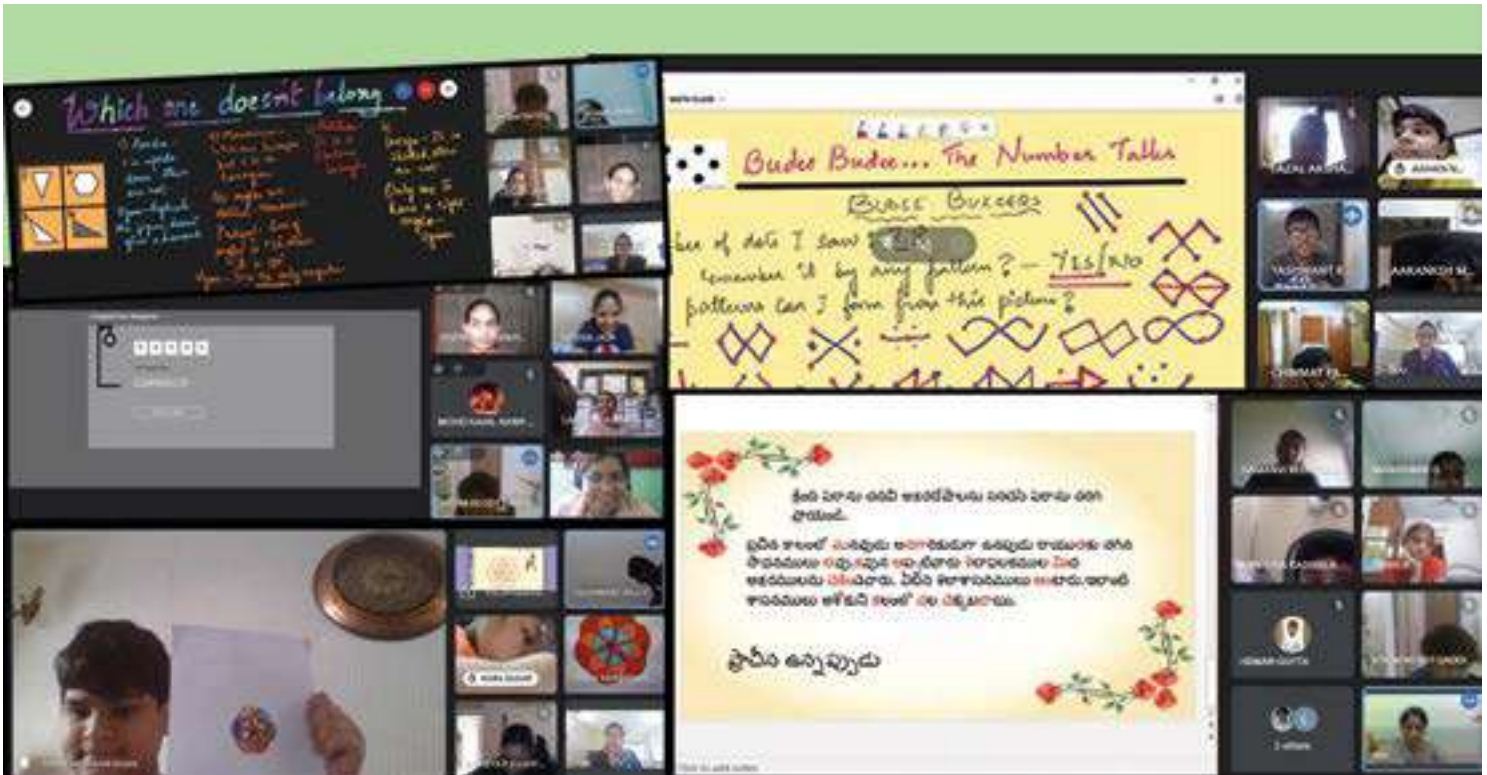

Parent Outlook

PAR sessions have met the objective of gauging the awareness and knowledge of the child. Joshua enthusiastically participated in them. Students thrive in a conducive and non-judgemental environment since the students are encouraged to participate even if they don't answer correctly. The teachers, and especially the HRT, are doing a fabulous job in conducting the virtual classes.

Mrs. Zarina Yohan P/O Joshua Yohan

AFTERNOON CLUBS

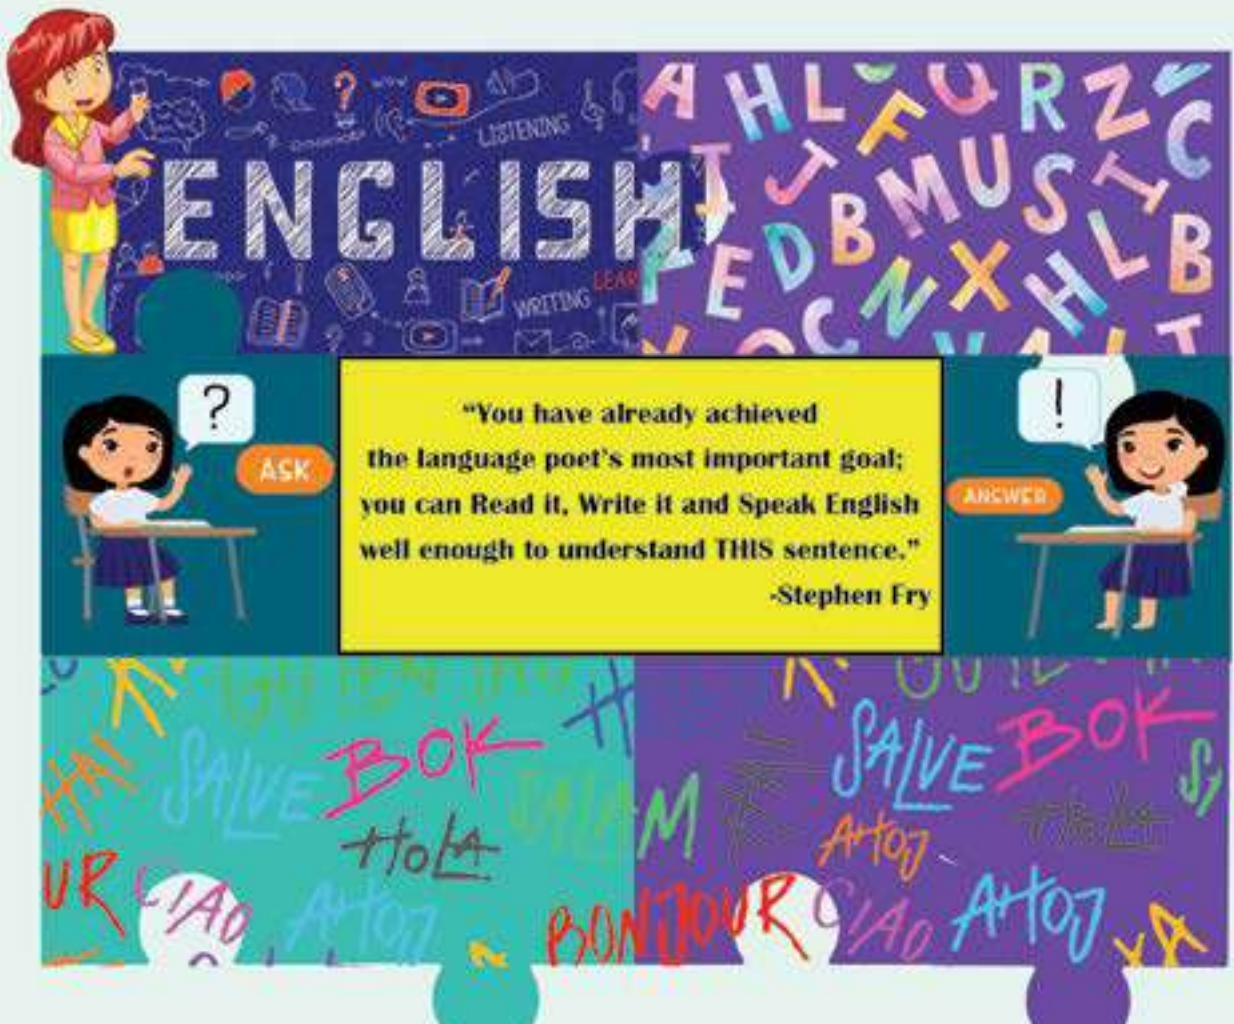

Parent Outlook

Children were quite interested in club classes - games in mathematics and storytelling in English classes.

P/O Samridhi Gargi

The Storm Bringers - English Diplomats

A collage of 15 hexagonal photographs of children, likely students, showcasing their costumes and projects. The children are of various ages and are smiling. Some are wearing costumes like a top hat, a witch hat, a cat mask, and a unicorn headband. Others are holding up their projects, which include drawings of emojis, a pizza, a clock, a compass, and a cartoon character. The background of the collage is a dark, textured surface with a large, stylized orange and yellow graphic element on the left side.

Parent Outlook

English classes were excellent. Well conducted. Kids enjoyed Activity based explanations thoroughly. Pronunciation and comprehension skills have improved during the English classes. Thank you to the English teachers for their efforts.

Aaisha Rinaaz, VI B

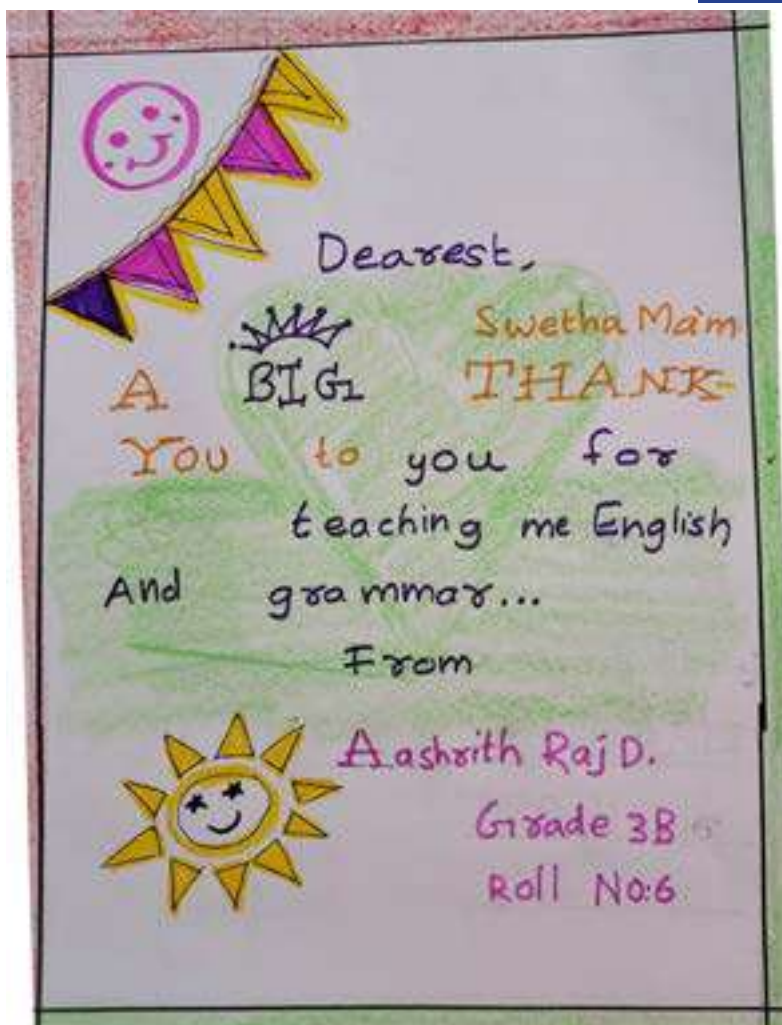

MEDLEY OF SILENCE

In the mellow pitch of dark silence,
Plays a shiny white melody,
Among all the noises, strings along,
Drift the fingers, stew Felony
Saved by the jazzey swings,
Highs and lows in between,
The mystic of the oud can,
Transcend you to Alchemy!
The reminiscent sorrow of the violin,
Certainly shadows the joy,
Remembrance of something,
In this world, Happiness is just a ploy!!
Realization constants in the ear,
In the end it's the mellow pitch
Of dark silence endlessly!!

CHERISH YOUR MEMORY - MY HAPPY VIRTUAL EXPERIENCE

Memories of online classes through short story writing

Though we all are missing the physical class room at school, The Online classes gave us almost the physical class room feeling. The cordial approach of all the Teachers and uninterrupted technological intervention has ensured the sharp focus on studies during the class hour, and also, we all are able to see each other on the screen, we felt that we are in the physical class room only. The regular intervals between the periods helped to spend time with parents at home as well.

Arnav KR, III B

INTER-HOUSE KHO-KHO COMPETITION (GRADES VII AND VIII)

After nearly two years of online classes, grades 7 and 8 had their first offline sports competition today, with the inter-house Kho-Kho competition.

As school hasn't been reopened offline for grade 7, interested students were allowed to come to school to specially attend the game.

The event kicked off with Knights and Spartans playing a practice game to warm up, and then immediately getting into the real thing.

The match promised excitement as some of the best players in the two grades went head-to-head. The first round ended in a nail-biting tie, leading to an equally exciting tie-breaker, which culminated in the victory for Knights, and Spartans, despite their best efforts, were effectively knocked out of the game.

Next followed the second match between Samurais and Trojans. In a coincidence, this match also ended in a tie, thus setting up the second tie-breaker match of the day. Samurais were then unfortunately defeated by Trojans, who would now go on to face Knights in the final match.

The final match built up to a close finish, as friends ruthlessly opposed each other, as each side eyes the top spot.

However, it ended up being an extremely close match with Knights successfully clinching an amazing victory. Alas, Trojans had to satisfy themselves with the runner-up spot as the first place eluded them by two points. The event was a great success and we are certainly looking forward to more such events! After almost two years of reduced physical activity, this event definitely seemed like an uphill battle as everyone seemed to be out of touch, from their own abilities and their teammates'.

However, we were all determined to give our best and did just that to make the best of this opportunity.

Abhinandana Pendyala, VIII C

GOOD SAMARITANS

Jesus Christ often used parables to teach people ethical values. He used the parable of the good Samaritan, to talk about the man who tended to a suffering fellow human being who lay injured by the roadside. No one stopped to look at him or alleviate his pain. This man was from Samaria of biblical times. He took pity on the traveller and treated his wounds. He took the wounded man to an inn to take care of him.

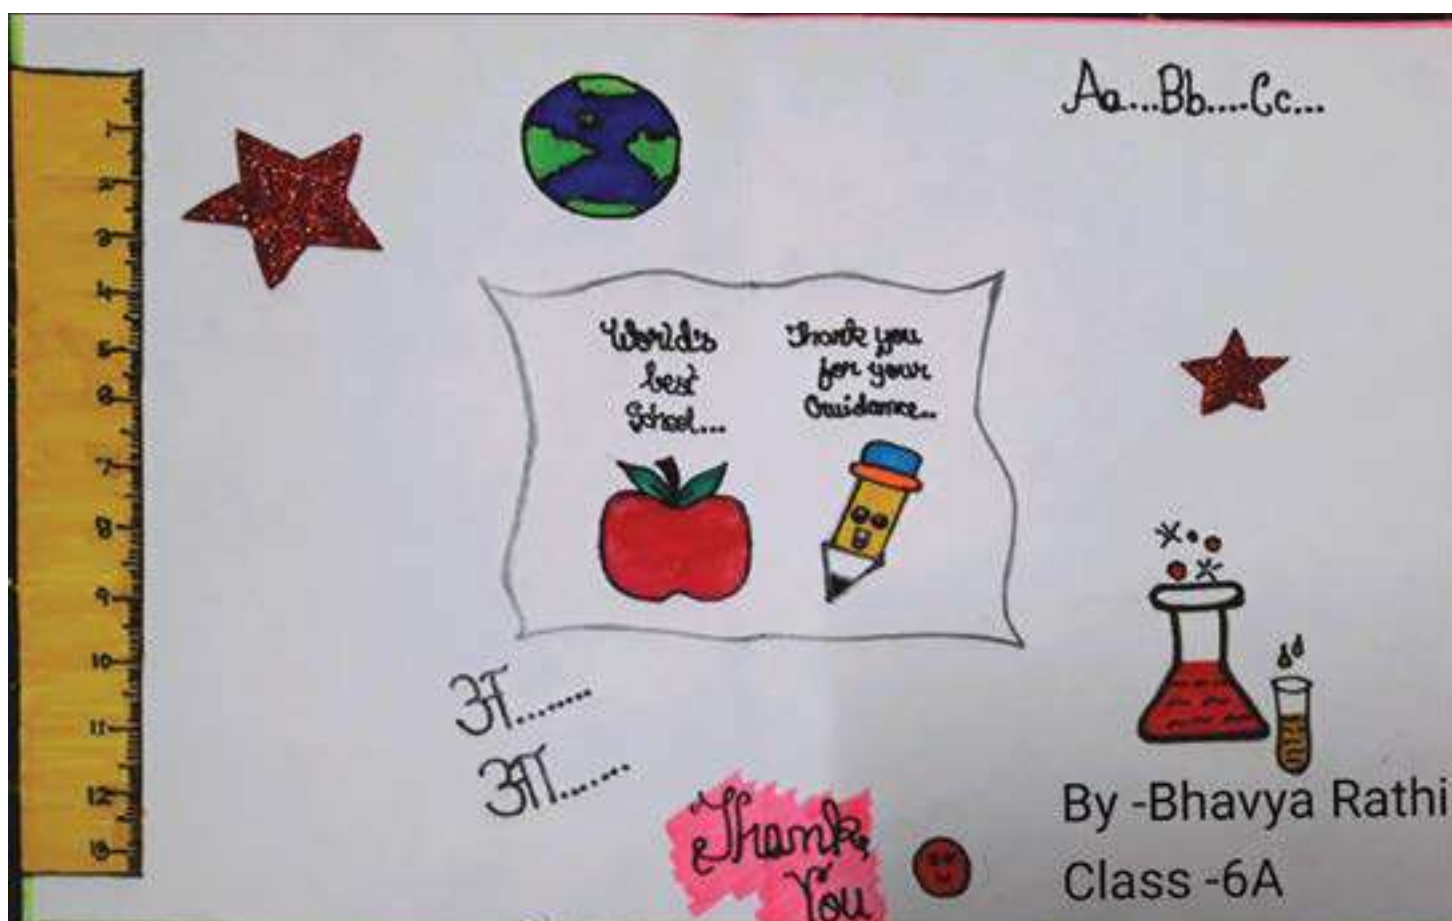

The very idea of helping an injured person on the roadside holds good even today, as it was two thousand years ago. In recent times, the term refers to the students of Delhi School of Excellence, Banjara Hills, who participated in the project **Stop the Bleed**, an Indo-US Collaborative project that seeks to impart new knowledge and insight regarding life-saving emergencies.

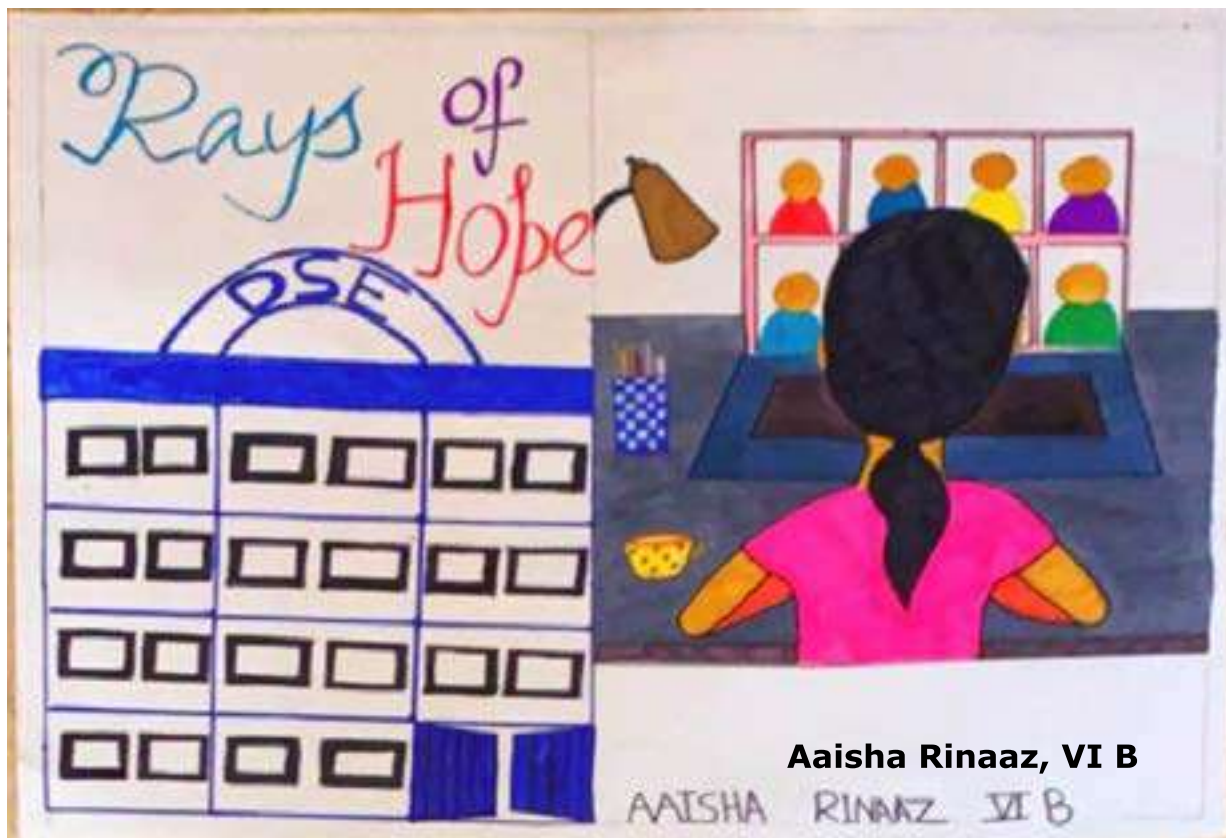

Mostly in road accidents, the injured suffer on account of heavy blood loss. What are the steps to follow in such a situation? The **five** steps to stop bleeding in case of severe injury are: **first**, control the blood flow. **secondly**, lay the victim; **thirdly** secure the dressing; **fourth**, ask for an ambulance and finally monitor the victim.

The sessions at DSE, Banjara Hills were very engrossing with presentations and practical demonstrations.

Students were well-equipped with special ABC kits. The students took training in batches of four and they, in turn, trained four more. It was a very priceless exposure and they received certificates on the successful completion of the project. They were recognised as **ABC GURUS or Good Samaritans**. The programme ended with a vote of thanks proposed by the Principal.

'HARD WORK DURING ONLINE CLASSES' "CHOOSE YOUR WAY"

Hard work was experienced by,
Everyone during online classes.
Let it be an excited student,
Or an excellent teacher.

Making PPT's or explaining,
Is not an easy job.
The students would be behind- lagging,
Even if they took one holiday.

The students preparing for the exam,
Be tensed and worried
The students have to give answers,
Which are always guaranteed.

So, next time you choose your way,
Choose the way harder,
As harder ways always give,
Rewards stunningly excellent!

Hriday Agarwal, VIA

HARD WORK AND HAPPINESS DURING ONLINE CLASSES

The morning got me to hear
Online school will continue this year.
Was I frustrated or was I pleased?

Frustrated, as I knew the workload would increase.
The more there is the need to concentrate
The harder it is getting as all enthusiasm has drained!
But then I have the pleasure of staying at home
Comfortable while connecting with people many more
Learning through exciting videos and presentations
Which are all every day, above my expectations.

I am getting happier as days are passing by
School is conducting exciting events and quality of
classes have gone high

Better discipline

New ways of submitting assignments in a blink!
I know one day this pandemic shall perish
So now let me enjoy this experience to for sure cherish.

Aarya, IXB

PANDEMIC TO ENDEMIC

Oh, the pandemic has brought misery and sorrow
There was no reason to smile.
But then came education through the means of online
The learning didn't stop and went on as an arrow.
It was time to adjust to the new normal
Learning now was more fun than before.
Education continues even through difficult times
This is the new moral of a wonderful story.

Preetham, IX B

STEPS TO SUCCESS

The Ray takes us to the goal.
To fo through our failures

The failure we pass, the more we
succeed,
the more we move forward
Through the ray of hope

It is always the harder way we
choose which leads us to success
Liesha Jain, VII A

RAY OF HOPE

Laasya Dangeti, VI B

LIGHT A FIRE OF HOPE

Morning dews elating,
Gloomy days effacing,
Dynamic views arising,
An alley for hope is paving
Despair brittles you,
Relinquishment shatters you,
Yellow leaves shedding,
Mend a sanguine, Aspiring you
In the bleak frozen world,
Light a fire of hope!
Here radical thoughts are pearled,
Reminiscence that hope forms.

Virat Kakani, X B

ONLINE CLASSES - BOON OR BANE

We hated Online Classes
For it bought us Eye Glasses
Online Classes we despised
For we had Compromised.

We no more had our Favourite Lunch and Games
For we were crushed within Four fall frames
It was not a treat
When many started to Cheat.

When Teachers explained with zeal
Many pupils had their meals
When Teachers would often scream
Many would wander in their dreams.

Yet these classes were a Ray Of Hope
Though they were far away from being dope
It reduced time on commute
Yet some were eternally on mute.

Students could study from anywhere on the globe
With very little to be probed
It made many Tecs Pro's
In an age of digital Bro's.

The king between Online and Offline is quite
debatable
Wherein every opinion is quite relatable
The Online memories made
Would never... ever fade...

K. Sessa Sai, IX A

BLOOPER - GAFFE

Noah: Hey guys, it has been a long time since we have seen each other after Covid has started.

Dhriti: Right, I know and these online classes are killing me, but yesterday's the Social class was hilarious.

Nyra: Dhriti is so right yesterday's classes were the best, Ayaan made us laugh so bad.

Ayaan: Guys, please give me a break! It was quite embarrassing yesterday, do not remind me about that.

Aarav: Can anyone tell me what are you guys talking about?

Noah: What had happened yesterday?

Dhriti: So, here's what happened. Our Ayaan had a catnap during his classes and he left his mic on. Ill-fated Ayaan..... the very moment, Sir asked him a question and his mom was mugging him to get up and answer.

(Everyone bursts into laughter except Ayaan)

Aarav: No way!! God, I wish I was there to see that.

Nyra: This is not the only thing that happened during online classes. After yesterday's class, I also remember what happened to Ayaan during the Investiture Ceremony

Ayaan: Please don't.

Dhriti: Oh, yes, I remember, Can I tell?

Nyra: Dhriti, I got this one. So, During the Investiture Ceremony, Ayaan was part of the compering team. During that time, his parents called him for some work, so he got up thinking his camera was off and he was wearing his school shirt but down he was wearing his shorts, and everyone had a sneak-peek of that.

(Everyone laughs hysterically except Ayaan)

Noah: Ok, so I have missed a lot. Anyways, I must go to pack my bags as from tomorrow my offline classes are starting. Super excited to go back to school.

Everyone: Bye and All the best for another innings of school life.

Aahana, IX A

ONLINE ADVENTURE

Online classes for the last one year

Although made me miss school's games gear

Have been fun interacting with everyone
in their most candid selves, spreading cheer a ton.

Stories transported me in to different worlds
and although interspersed with occasional scolds

I loved the voyages in to science, history and
geography and curiosity in me won the trophy.

The emphasis on art through online classes
sharpened my skills and changed many canvasses
I learnt manners, how to behave and be disciplined
while also being playful, naughty and yet principled.

The exams online were not as difficult as I thought
Did well of course with some help from family sought

Learnt a lot about laptops and new gadgets
Microsoft word, powerpoint, paint and other
widgets.

Switching off camera for eating,
chatting and loo breaks

And don't monotonous high speed classes
need brakes?

Although enjoyed in full the whole year online
Can't wait to feel alive at school,
would be so nice and fine.

Moksha, IV B

ANYWHERE - ANYTIME

During online classes

Most of us have gotten glasses,
All we have to do is click the link
And we are in our classes in blink.

We don't have to wake up in the morning,
And don't have to listen to the cars honking.

The teachers always share their screen,
and show interest to the kids who are keen.

The teachers make us read and write

All through PowerPoint,
We had always kept our camera off
Saying that we have a little cough.

During online classes we don't have to go
through gate,

Thinking we are late,
Now I want to meet my friends
and make friendly amends.

Offline classes have now started.

And we can meet the friends we had parted.
Online classes make up memories.
That will stay with me for centuries.

Aamya Vashist, VIII B

TINTIN

I am Mahita Vuppala from Grade VII B and I have done the Academia Conclave for English. This Academia Conclave has given me a great learning opportunity about many things. All the efforts and hard work put in by my teammates and me has given us a great outcome. I made a slideshow on 'The Adventures of Tintin' which is an adventurous and humorous comic series. It is a great series for people of all ages to read. This series has given me a new perspective on reading and I am sure that it will enhance many more people to read.

Mahita Vuppala, VII B

INVESTITURE CEREMONY - REPORT

On the momentous day of 15th July 2021, DSE Banjara Hills held the Investiture Ceremony with great enthusiasm. The ceremony was conducted at a virtual platform. The event was celebrated to congratulate the newly elected student council members and bestow responsibilities upon them to lead the school. The members who attended the ceremony were the Principal, Head mistress, teachers of DSE and the newly elected council members including the Head Boy, Head Girl, House Captains, House Vice captains and Junior captains. To celebrate the event, the school was embellished with Green, Yellow, Red and Blue house flags and with plant saplings around the dais. The council members were given their respective sash and a house placard. The event was instigated with a march by the elected members. Followed by the school song presented by the school choir. Later, the principal delivered a pertinent speech imposing the responsibilities on the council members. The principal pinned the post badges to the council and the Headmistress handed over the House flags to the young leaders. Then, the principal administered the oath to the elected body. Thereby, appointing the elected students as the Student Council 2021-2022.

Nishta Vemula, IX B

TEACHERS OUR PREACHERS

"Teachers are our preachers, they help us learn, they help us earn.
Writing on the big black board while explaining, this is my favorite subject, Oh so entertaining!
Clearing our dilemmas and teaching us morals, Dear teachers you are an outstanding role model.
Your hard work during Online classes amazes me while your way of explaining embraces me.
Dear teachers you are my second mother, Making me feel arm.
Dear teacher you are my second mother preparing me to be strong.
Dear teacher never leave me alone because you only are my backbone
Oh, dear teacher never leaves me alone because you and only you make me feel at home"

Sarah Shariff, IX A

MEMORIES OF ONLINE CLASSES

Today is Monday and It is my first day of online classes. My mom woke me up and said "Wake up, Reet! Your online classes will start in a while." I replied saying, "5 minutes, more mom!" and I took another nap. Then, I woke up suddenly and said, "I wish normal school opens soon, I miss meeting my friends and teachers." I shower and get dressed in 15 minutes. I get a happy thinking: "Oh! I don't have to wear a school dress. I will have my class here on my bed." I was thinking how will I talk to my teacher; how will she see us and how will ma'am show us what to do? Everything has changed it is so confusing. I opened my laptop and joined the online class link which was something new for me. My first class was Computers. Then ma'am told us that children don't worry you might be confused how to control your system but, in this class, I am going to show you how to do everything. Then she started to explain.

Soon, I could see my friends and teacher. There were different boxes on the screen. My eyes grew bigger, "I can see them all together!" I was excited about the class since the teacher was going to teach us how to use Paint. But to my surprise, the teacher got disconnected. This was new to me. Few seconds later, the teacher joined back and said, "Sorry students! I lost my connection, let's get back to the class." The teacher asked the students "Please mute your mics and turn on your cameras! Today, we will learn how to use Paint." The teacher shared her screen and asked us to follow what she was doing. I opened paint and followed the teacher's instructions. After a while, the teacher said, "Children I hope you all understood how to use paint it is time for the class to end you will get your computers homework in the parent app. Bye everyone! Soon, the class ends, and I was waiting for my next class to start. It was fun, but I missed the physical school and I wished that I could meet my friends.

Now, it is the second year of our online classes. And we are so used to it that we can also make PPTs we attend Inter-School competition, Inter-House competition and many different things. This could be possible only with the help and support of the school-staff, teachers, and parents. In this pandemic we have learnt so many different things and made various and varied memories.

Reet Kaur, IV B

Olivia -Hi Justin, How are you?

Justin -I am good. What about you?

Olivia -and How is the life?

Justin - I am depressed because of these online classes and have nothing to do.

Olivia- I know, i wish physical schools would reopen.

Justin - I'm so sad that we can't meet our friends.

Olivia - That is so true, what is your favourite part?

Justin - The days when we had festivals and all classes would get canceled, and the story game we played.

Olivia - I also miss the games period and the computer lab.

Justin -Ok, Well! I hope everything gets back to normal.

Olivia - Ok then, see you in online class, Bye.

Justin - Ok, bye.

Nandan Narulla, X A

"Children please join the meet"

"Why are all your notes incomplete?"

These are some phrases we can't avoid hearing,
But don't worry! The end of this period is nearing.
We can't talk to our friends or create chaos in class,
When all our education is confined to a box of glass.

Nevertheless we shall sustain,
Although we are very close to going insane.
For we shall keep waiting for the rainbow after the
storm,
Oh! How I wish everything would go back to norm.

Neharika, X A

AT LEAST FOR OUR GRADE TEN!!!

School was running steady,
To learn we were fully ready,
Then it decided to hit,
Taking us out of our wit.
Then started a lockdown,
Though our education wasn't shut down.
Our homes became school,
And classes online became our tool.
From books to presentations,
This way of learning changed our orientation,
This experience was very fun,
But in all reality we wanted it to be done.
We missed all the talks,
And the after school talks.
We wanted offline classes again,
At Least for our grade ten!

Ridhi X A

ONLINE CLASSES

Online classes are like a blessing in this period of time

A wonderful idea to create a joyful and Disciplined routine

I really admire my school's teaching trait

Not telling us we are in dire straits

Virtual interaction with teachers and buddies

I am glad that we are not lagging behind in studies

Making us all as fresh as a daisy

Brushing up on our skills has really become easy

Removing all the depression and the boredom

Because of e learning our studies

Have gained momentum

Amith S, XA

ADJUST - ADAPT AND MOVE ON...

Laptops, mobile, Wi-Fi and internet
Not attending school makes me upset

But I had to adjust

Because of the circumstances,
towards online classes everybody had to rush.

On the bright side

At home we are studying!

Behind the cameras we tried to hide

For 2 years, it's been a great feeling

Our teachers worked hard

Never made us bored,

Systematically online classes were conducted

Whatever the situation was

We adapted and adjusted.

N. Maneet, VIII B

OH! ONLINE CLASS..

Oh! online class, Oh! online class

It's been years since I've seen or touched grass.

Despite all the sadness and pain

In online class, There is something to gain.

We need to no longer stay up all night and cram

For this thing called "exam".

And we pretty much never have to study

Because we can just sit and eat fried chicken from
Kentucky.

Just mute the tab and never pay attention

And hop on Netflix to watch "Inception"

Open another tab and listen to some music

And if a teacher asks, just say you are "too sick"

Oh! online class, Oh! online class.

We have a relationship of love and hate

Because of you, I was easily able to pass

But you also made me gain weight.

Farhan Firdausi, X A

SCRIPT - OH! MY CLASSES

Taqiy: Hello Ma'am, I joined early today and Farhan joined after me.

Rimpa ma'am: That's good Taqiy, I wish everyone was like you.

(After assembly)

Rimpa ma'am: Okay everyone, today we'll be starting Bholi. So, please take out your footprints without book.

Rimpa ma'am: I've noticed many people kept their cameras off except Taqiy. I'll take the screenshot and send it to Veena ma'am.

*(Oops moment- *A student named Shaeza started presenting a bollywood movie in class*)*

Shaeza: Ma'am I'm so Sorry I didn't mean that to happen. It was an accident.

Neharika: Leave that ma'am, let's play story game now.

Samyak: Ma'am can we take break now?

*(Oops moment - *Ma'am left the meet out of annoyance*)*

Anusuya ma'am joined the class

Anusuya Ma'am: Alright everyone turn on your cameras in 5 seconds and let's not take any longer.

Farhan (in chat box): Sorry Ma'am, I can't turn my camera in today because my internet is lagging.

Nandan (in chat box): Ma'am my laptop isn't working and I have no data. So, I can't turn my camera on.

(Oops moment - Social period started after Anusuya ma'am scolded the entire period)

Rama Ma'am: I think this is my class now, Right? Please bear with me because my internet is slow today.

Neharika: Ma'am I wish we had school so that we could hear you and enjoy your period without the need of Wi-Fi.

Rama Ma'am: Don't worry, the schools are going to open very soon and everything will be back to normal soon enough. We teachers want to teach you more than you want to listen to us in real life.

Message - I don't know when things will be normal however, I know that all the teachers who are mentioned above and others also are taking extra efforts for us. We trouble them a lot but still they are patient and humble with us. I am grateful to all my teachers. Thank you. All the teachers are great and lovely.

The limit does not exist - Mathomagic

MATHEMATICS is not about numbers, equations, computations or algorithms: it is about UNDERSTANDING and it is the most BEAUTIFUL and POWERFUL creation of the HUMAN SPIRIT.

Parent Outlook

Teachers teach Math lessons very patiently regardless of the number of times students ask. Children have shown a lot of improvement. Ms Pooja Bhargava is a math teacher. She is extremely patient and uses various activities to make the topics clear. Learning becomes easy due to these activities.

Monica Rathi P/O Rudra Rathi

FROM LOGICAL AND CALCULATIVE BRAINS

MAGIC OF MATHEMATICS

Math an enemy or a friend?
It is a learning journey which never ends!
Math is not only a game of addition and subtraction,
but various things are there on this roller-coaster mission!
Is it just writing and useless hours of studying math?
No, it is a multiplication of happiness, division of boredom and joy is only the aftermath!
Does it give you stress and turn you into a psychopath?
No, it strengthens your brain but sometimes leads you to wrath.
Many think studying Mathematics is a waste of time,
but from my point of view it teaches us how to do work according to our regime.
Math gives you a little tough equation,
but when you make it your friend,
it has the capability to make you a sensation!

Divit Jain, VIII A

MATHS MY FRIEND

I was always scared of mathematics,
The more I tried,
The more I cried.
The formulae looked like robotics.

Nothing seemed to help,
The formulae flew out of my head,
It kept burning like lead.
Supporting me were my cries of yelp.

But then I knew;
I just had to add my happiness,
Subtract my sadness
And my stress flew.

I had to follow my rule too;
Multiply learning;
Divide procrastinating,
And my tough time flew.

Now I love math!
I was a zero,
Now a hero!
No one describes me as a psychopath.

Sameeha Yasmin, IX B

MATHS MY FRIEND

"Numbers here, Numbers there,
Oh maths, you are everywhere. Millions of equations to
solve,
yet my doubts still remain unresolved.
Your numbers gave me stress but here I am still
finding out your 'x'.
Oh maths! You have your own beauty. Your numbers
adding and your formulas combatting.
Learning theorems and fighting boredom,
math you gave me a lot of understanding.
I remember sitting in the class and solving your equa-
tions on the board while my friends were out playing
on the road.
Dear maths, you sure did give me understanding
because without you my mental grasp wouldn't be this
outstanding!

Sarah Shariff, IX A

MATH CONVERSATION

Namish- (Calling Rishita Mobile).

Namish - Hi, Rishita. How was your day?

Rishita - Hi, Namish. Today was a great day! I loved the math period. It was indeed a great fun. How about you?

Namish - Yeah, me too! Today the math period was the best.

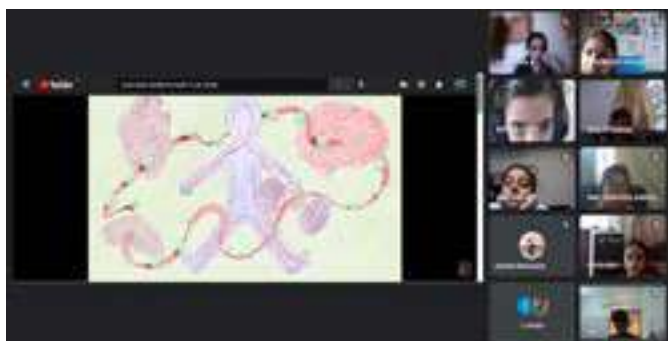

Rishita - Yes! Surprisingly, the classes are getting interesting without actually going to school ...

Namish- Yes, You are right Rishita ... but I have to admit, going to school was much better.

Rishita - Do you like online or offline classes more?

Namish - I prefer offline classes more

Rishita - Do you remember when we were in school we used to have a lot of fun in sports like Kho-Kho and Basketball, we would also sit in groups while we ate lunch?.

MATHEMATICS

A subject, not necessarily
A problem, not correctly
An issue, not probably
A danger, not at all
It's all about allowing your mind
To go beyond the oceans, beyond the world to grasp
the power to calculate.

Try, try and try
The more I try
The more I try
I practice maths with my heart and soul
Yet I am not able to achieve my goal
I really want to improve my maths
Because I love this subject,
And for this I am trying my level best.
I seriously have to improve
Because in our lives maths plays a very significant role.

P. Eshita Vasuki, VIII A

Namish - True, Rishita it used to be very rejoicing, but math class is still fun even online and the activities which we do like Healthy Food Saturdays and the activities like ratio and proportion activity and I forgot, also the videos ma'am showed us.

Rishita- Remember when we had the Healthy Food Saturday!

Namish- We had fun that day.

Rishita - One Saturday we saw the formation of Earth video.

Namish - Hey, wait, do you remember last year we would struggle to attend online classes and before the online classes, I was so excited to start a new year but in school.

Rishita - Yes! But now we are experts in online learning. Right?

Namish -Yeah! true, and I really want to go to school to enjoy more new things.

Rishita - Yes, so do I.

Namish - I need to go. My mom is calling.

Rishita - Ok, Bye them.

Namish - Bye

**Namish Garg, Surya Kiran A, Sreemayee,
Rishita Singam Shetty - VI C**

Math is a wonderful subject,
With new concepts every day to learn.
This subject is a world of numbers,
Towards which you would want to turn.

Math is present in date and time,
In every second you can think of.
It helps the numbers to combine,
And even divide, multiply and subtract.

If you go to a town full of lanes,
You will see that they are Geometrical in shape.
The houses represent points,
Laid on an endless plane.

Learning maths might be difficult,
But you can master it through practice.

Hriday Agarwal, VI A

CALENDAR OF MATHEMATICS

JANUARY 2021

No. of sides of a rectangle	No. of angles in a polygon	12 in groups of 2	Number of continents	legs of an Octopus	3 squared is	Number of digits in Millions
Number of players in a cricket team	1 km = _____ m	13000 m = _____ km	$42 \times 3 =$ _____	Start with 20 and add 5 to half of it	Double of 8 is	Two digit number 1 less than 5 x 5
$(4 \times 4) \div 2$	What is the 3 rd prime number	What is a score?	Points to win a table tennis game	Atomic Number of Titanium	$XXX =$ _____	LCM of 8 and 3 is
Quarter of a century	Number that is 3 times sum of its digits	Arab mathematician who introduced the concept of 0	Time required for Saturn to orbit Sun	Number of teeth cat has	1 billion seconds = _____ years	

FEBRUARY 2021

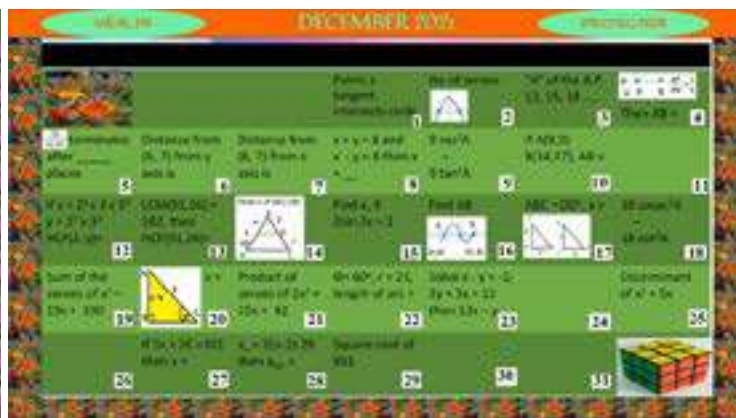

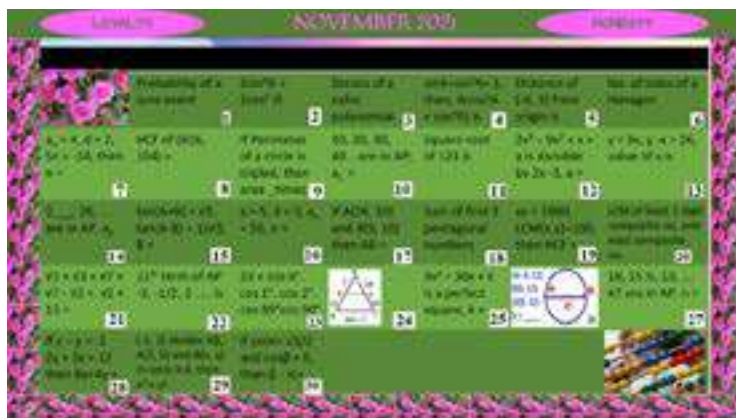

No. of colours in Rainbow	Number that remains same after upside down	Which digit turns smaller if you turn it down	Smallest two digit number	First two digit prime number	No. of legs of a Kangaroo	Length of 1 foot in inches
Number of days in a fortnight	Triangular number with five lines	No. of players each played has in chess	Sum of first four prime numbers	First inverted square prime	Atomic number of potassium	No. of sides in a hexagon
Eighty no. in the Fibonacci sequence	$XXX =$ _____	Smallest odd prime that is not a twin prime	Factorial of 4 is	Smallest square number that is not a square	Number of bones in human foot	Fourth Octagonal number

MARCH 2021

Mean of the data 1, 2, 3, 4, 5, 6, 7, 8, 9, 10	100% of 1 is	Second prime number is	First composite number is	Mean of first two consecutive primes	Product of first two primes is
Number of vertices of a cube are	Smallest single digit number	Sum of two consecutive primes	No. of ABC, L.A. 100, 8 = 99	Mean of 5, 11, 13, 21 is	Square root of 100
Range of the data 2, 4, 6, 8, 10, 12, 14, 16, 18, 20	Quotient of 100 by 10	Mean of the data 34, 35, 36, 37, 38	10% of 100 is	Reciprocal of $1/18$	Number 9 is 10 less than
Area of 11cm where 8 = 7, 11 = 3	Prime no. that occurs after 17	Average of 23 and 25	Area of triangle where 8 = 10, 11 = 5	Number of black cards in a deck are	$(8 \times 3)^2 =$ _____
Perimeter of rhombus of side 7 cm	Days in February or leap year	One third of a right angle is _____ degrees

THE WORLD OF MATHEMATIC

Life is full of Mathematics,
So nothing can be problematic.
Maths is all around us,
In everything what one does.
From the clock we see when we wake up,
To know the distance of the moon, stars and everything up.
Math is in money, math is in art,
From engineering to sports, math is an important part.
The study of shapes, numbers and logic,
The world of math is full of magic.
Addition, subtraction, division and multiplication,
Make our way to the solution.
So let us practice math with our heart and soul,
And one day we shall achieve our goal!

Purvaansh, IV B

NUMBERS, NUMBERS, EVERYWHERE...

Numbers, numbers
they are everywhere.
Numbers, numbers,
from calculations there is no escape!

Left or right,
Math is all round,
Even if it's art or science,
to Mathematics they are bound.

In arts, since ancient times,
Geometry has been used,
Mathematics: the queen of science,
In physics too it is infused.

As Pythagoras once said,
"Pitch is proportional to length of string",
It's now used in various instruments,
To give music a zing.

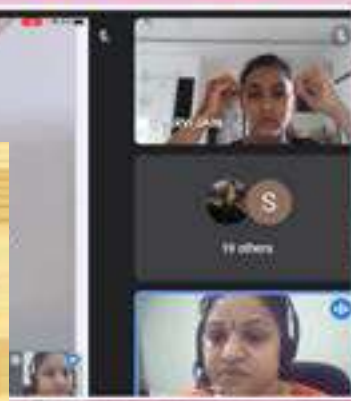

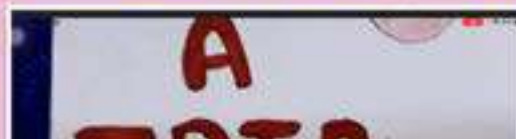

Even during the pandemic,
Lot of help was lent by arithmetic,
As arrangements were made through,
Models, plans and statistics too.

It is indeed rightly said,
There are numbers everywhere.
There is no escape from them,
Without them we go nowhere.

Abhinandana Pendyala, VIII C

INTEGRATED STUDIES ENHANCES MOTIVATION, PROBLEM SOLVING SKILLS AND DEEPER UNDERSTANDING OF CONNECTIONS ACROSS SUBJECTS

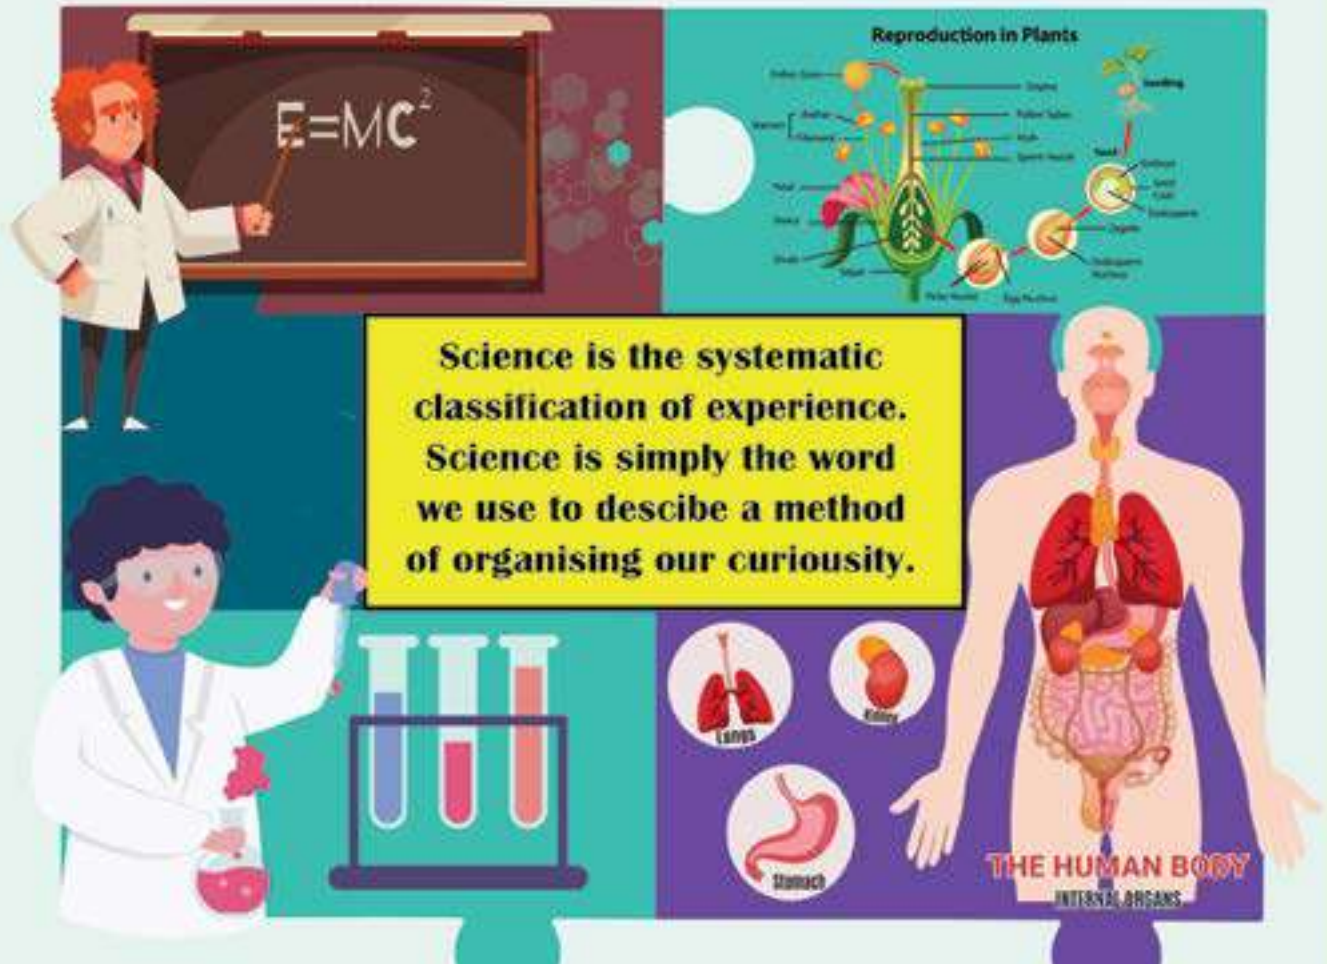

Parent Outlook

I can't find words that will justify my gratitude. Your expertise in such an innovative project idea has pushed thinking and reasoning to another level. With your guidance, children have developed into a confident and capable child.

Ankur Dalmia P/O Dhruvika

The fast and the curious - New Science Age

Parent Outlook

My ward has learnt a lot many things in the science class. Her science teacher Ms. Pranathi gave her level best and made the science class fun and creative. Some of them I can recollect are making a white flower colorful for explaining about a plant, blowing and bursting of balloon for reversible and irreversible changes, testing magnets and observing its properties and explaining about any fibre through props.

Sanjay Kumar Rathi P/O
Bhavya Rathi

FROM BUDDING CURIOUS SCIENTISTS

THE JOY OF TRIAL AND ERROR

The year 2020 was a memorable year indeed with the onset of online classes. Some memories are sweet and some of vinegar aspect; however all those that can be remembered for a lifetime. Personally, I have a mixed bag of emotions for the whole online year. It started off considerably great, ...the euphoria of having to be at home all the time in the comfort of my bed and AC, spending time with family, watching movies in the middle of my classes and snacking on food... But then some of the major excitements of the school were taken away such as the science practical classes. I remember having such a great time in the lab, experimenting and being so excited for the outcome! During the online classes we had no such activity. Our teachers came up with many effective backups like YouTube videos, showing us the experiments through their cameras in their houses and so many more... But clearly it couldn't be compared to the experiments offline... the joy of trial and error... and then the Eureka moment! Diagrams were now being drawn on virtual white boards with great difficulty. It was a tedious task for our teachers to cope with this new normal and adjust to it as early as possible because we were in line waiting to be taught. Even though we faced a lot of difficulties, we didn't give up and kept going. We learned through animations and videos which was a lot of fun too... every coin has two sides. However, I will always be an offline class person because I like to do things instead of just watching. And after all, experiments are something which are so interesting and fun to do !

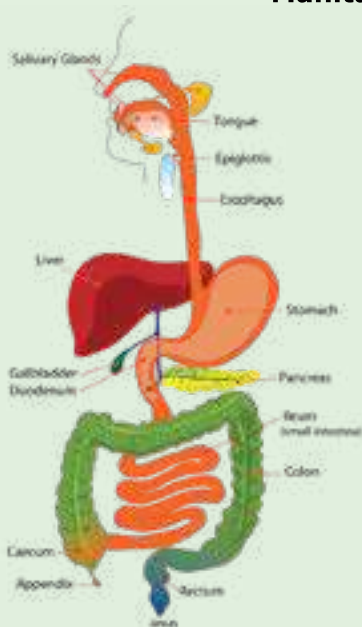

Tiya Bagga, XB

ACADEMO FEST KINDLING CURIOSITY IN STUDENTS

I am Mahita Vuppala of Grade VII B and I have participated in the Science Academo Fest Role Play about the Human Digestive System. This Academo Fest gave me a learning opportunity and helped me learn about the Digestive System better as I could perceive visually how it worked. I am thankful for getting a chance to participate in this activity. It gave me an opportunity to learn and at the same time help my classmates also learn about the topic. I am also thankful to my teachers and teammates who helped me with this Academo Fest.

Mahita Uppala, VIIB

MUTATION - GAIN/PAIN

Viruses dangerously mutate
For havoc they create.
With every new manifestation
They shake the greatest of nations.

The only constant is Change,
Which might seem to be very strange.
Some changes might prove exemplary,
Which can guide people for centuries.

Progress in Health and Education are the
need of the hour,
For then only can India be a Super-power.
When Science and Technology flourish
The Country will be Nourished.

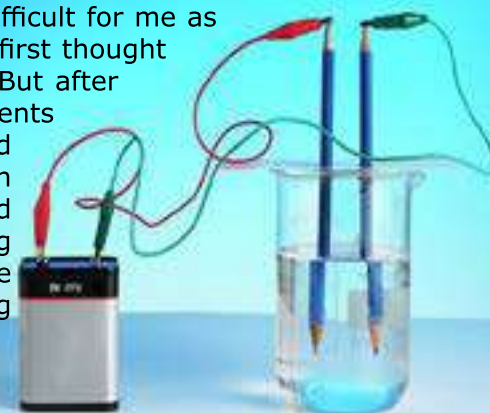

We can learn something from our foe
Which would help us grow.
A Change either for the bad or good
Is for us who should have understood.

K. Sesha Sai, IX A

SCIENCE-O-FEST

I am Preetham of grade 9B. Today I am going to share my experience of turning my home into a science lab to conduct experiments. Last year I participated in a science fair in which I was asked to do the process of electrolysis. First, it felt difficult for me as it was a completely new topic and I didn't have a clue about it. I first thought I would not be able to do the project and was ready to give up. But after thinking and receiving the inspiration from our teachers and parents I was excited to conduct the experiment, learn about it myself and share it with a few more people. We had some discussion sessions in which our HRT Mr. Mohan and the whole science department briefed us about our topic. I started working on my topic through practicing the electrolysis process. Now it was time to turn a part of my home into a science lab. Definitely, there were many failures while doing so. As elders say failure is the first attempt in learning.

I never lost hope. Anions, cations, positive, negative charges, etc, were clearly understood by me. With the materials available at my home, I created a small science lab and performed the experiment in front of a huge audience through means of online communication. I explained the topic by speaking as well as demonstrating. While performing the experiment I felt extremely elated, and enthused with great excitement, I completed the task with flying colours. Bottom line is, you don't need to have large machines to feel like you are in a lab. Just a few materials for the activity which are easily available at home can make a lab which can be called our own lab. Thanks to my parents, friends and teachers who supported me throughout the practice.

Preetham, IXB

BEHIND THE SCENES

This Covid-19 pandemic was hard for each one of us especially, the students. Their studies were at a halt and we, the students almost lost hope but then our parents and teachers came as superheroes without wearing capes and taking Covid-19 as a challenge and fought against it in ways which we can't even imagine. Parents played a pivotal role in shaping the character of children as they grow towards adulthood. As a parent and teacher, the COVID-19 period presented the opportunity for parents to be engaged in the lives of their children like never before. With schools closed, parents had to take up the role of being both parent and teacher. At this time, most parents may feel like their space has been raided by their children and we are all trying to figure out how to balance between working from home and ensuring our children stay on track with their learning. We are all adapting to a new routine and as crazy and hectic it may seem, it is important that the children feel supported in their academics as this is also a new adjustment for them. One of the biggest challenges of distance learning during the COVID-19 crisis is to keep learners engaged. The lack of person-to-person contacts, the difficulties of communication on digital devices, and the need to self-organize can become additional challenges for the learners to absorb new information and keep track of the learning process. The teachers' role becomes crucial for making it sure that the learners stay engaged and do not lose their motivation.

Aahana, IX A

MINDING YOUR MIND

"The best and most efficient pharmacy is within your own system." Wealth was everyone's priority before the pandemic had affected the world, but now the pandemic has itself taught us that health is the greatest wealth. Lack of proper sleep, lack of physical and mental fitness, and leading a stressful life, all lead to a weakened immune system and vulnerability to sickness.

As the country battles the Covid-19 pandemic on a war-footing, India's traditional system of yoga has been established as a means to boost immunity, improve overall health and well-being. Pranayam helps to purify the blood because of the increased intake of oxygen, which is very crucial for improving immunity. Mindful meditations can have immense health benefits including improved immune function, reduced blood pressure and enhanced cognitive function. It helps lower stress hormones that compromise on the immune system, while also conditioning the lungs and respiratory tract, stimulating the lymphatic system to oust toxins from the body and bring oxygenated blood to the various organs to ensure their optimal function which helps us to remain healthy and attain inner beauty.

In this fast-moving world where one hardly gets anytime to take care of oneself, here I suggest a couple of food regimen that you can follow to maintain your immunity. Lentils/pulses/millets, which have not been welcomed in everyone's diet is now on the top charts of everyone's diet. The amount of nutrition present in these have increased the value of their presence in the diet of every individual. Not only millets/pulses/lentils, but even spices like cardamom, cinnamon, black pepper, cloves, turmeric, and many others play an important role to build our immune system. The most common and best way to consume them is by preparing 'decoction' or what we say in hindi 'kadha'.

I would like to conclude by saying that always keep health your first priority as good health is not something we can buy. However, it can be an extremely valuable savings account.

Sarah Khan, XB

Harshavardhan, IX A

MUTATION

MUTATION enroute to enhanced Mindsets -
When we were stuck at home,
nothing had really changed.
Everything was the same,
But still felt very estranged.

The science lab was now on our screen,
But was still very productive.
It made us students really keen,
On what was more instructive.

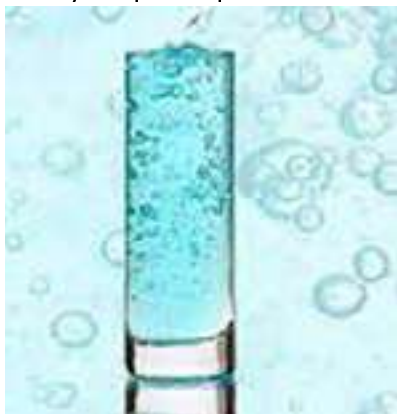

Things are getting back to place,
Online or offline we're ready to face.
Now we're geared up to celebrate science day,
Regardless of which-ever way!

Amal Hussain, IX A

MUTATION ENROUTE TO ENHANCED MINDSETS

"It is not the strongest species who survive, neither the intelligent, but the ones who are most responsive to change." The past 2 years have scrutinised human beings worldwide, but the one thing our species is best in is the ability to adapt, and we proved it through our actions. Within a month, most of the physical activities were shifted to a virtual mode and everything progressed seamlessly. But what seemed seamless actually came with its own set of challenges and struggles. We, the students of DSE Banjara, faced no less of them. Students found it alienating and hard to concentrate on classes without the presence of friends or teachers. But, as I have mentioned before, human beings are great at adapting, especially in times of crisis. We participated in several activities, especially in science where teachers organised virtual labs and hands-on activities, so that the students don't miss out on the fun of the subject. Interactive online classes were held every day, and slowly students started regaining their formal interest in the subject. Our school also gave us the opportunity to participate in the Raman national science awards, where every innovative concept and model was appreciated. This gave students the sort of exposure they needed to appreciate the wonderful sciences.

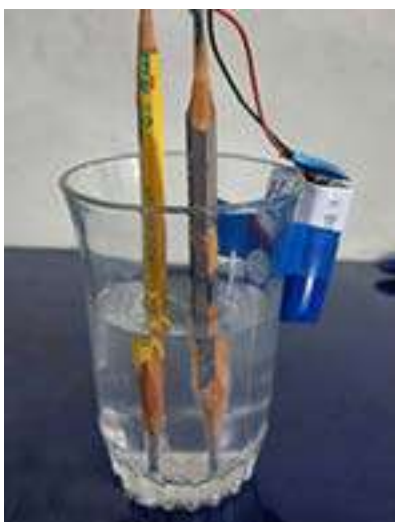

At the end of the academic year 2020-21, DSE Banjara celebrated our annual science fair: "Effervescence." The event was a grand success with students coming up with extremely unique and innovative ideas. I also had the honour of making the science calendar of the year, which summed up all the various scientific experiments that the students participated throughout the year. I am proud to say that Deesians are far from their struggles to adapt to the new normal and have embraced it head on. With the help of our teachers and parents, we have all come a long way in understanding the scientific wonders in the comfort of our homes. And the day we do come back and embrace the physical mode, it will be enhanced mindsets that are eager for knowledge.

Sanvi Jannumahanti IX A

After the pandemic started, my experience of conducting science experiments has changed a lot. Earlier, I used to do all the science experiments in the school laboratory, but now anything and everything is online. In the lab we had all the apparatus and required equipment, unlike at home where we have only basic equipment and few apparatus.

Recently, I had shown the process of electrolysis where 2 pencils, a battery and connecting wires were required. I had to scrape off the wooden layering of the lead in the pencil to make two ends of lead. I then dipped one of the ends of both the pencils and connected the other end to the battery. If I had been in the lab, it would have been as simple as dipping rods of lead into the electrolyte and connecting it to the dc power.

An experiment can be conducted anywhere; be it the lab or at home. We can

procure the related apparatus and the materials in the home as well. The only difference is that materials in home are available to us in a raw form and we have finished materials in the lab. Conducting experiments in the house is much more challenging than doing so in the lab as we would need to compromise on the availability of materials but is more educative as we need to put on the thinking cap. Also, when we do experiments at home, our family members and relatives will also know about the experiments conducted which is an exposure to them.

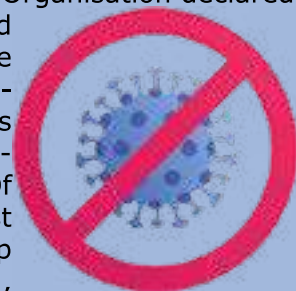

Satya Manideep, VIII A

MUTATION ENROUTE TO ENHANCED MINDSET

INTRODUCTION: 2020 and 2021 were tough years for every one because of the covid-19 outbreak, which started from Wuhan, China in December of 2019. It spread worldwide and started as an ongoing pandemic. Do you remember the mindset of the people and know what was the mindset of the frontline workers? Let's rewind the past years and look at the three waves of covid.

Wave 1 (Mask, Social distancing, Sanitizer): When covid started people's mindset was that it is another respiratory disease like cold or flu. They were right in seeing that it is a respiratory disease but much deadlier than cold or flu because it was as deadly as H1N1, which was also an epidemic and this was one of the reasons why it spread so quickly. When the first wave came and the World Health Organisation declared that covid was a pandemic. People were in shock because the economy collapsed and schools, colleges, offices were closed and the whole world underwent lockdown. The only thing people knew was SMS (social distancing, mask, sanitizer) and going to a doctor if they felt symptoms like cough, headache, fatigue, breathing difficulties, and loss of smell and taste. Symptoms may begin one to fourteen days after exposure to the virus. At least a third of people who are infected do not develop noticeable symptoms. Of those people who develop symptoms noticeable enough to be classed as patients, most (81%) develop mild to moderate symptoms (up to mild pneumonia), while 14% develop severe symptoms (dyspnea, hypoxia, or more than 50% lung involvement on imaging), and 5% suffer critical symptoms (respiratory failure, shock, or multiorgan dysfunction).

Wave 2 (Delta, black fungus, vaccine): When the delta wave started India was already the 3rd country with the greatest number of cases. When the 2nd wave started it was already deadlier than the 1st wave because not only did it have a higher death rate but it also spread faster than in the first wave. The major affected states were Maharashtra, Kerala, Karnataka, Andhra Pradesh, Tamil Nadu, Delhi, Uttar Pradesh, and West Bengal. Delta variant might cause more severe illness than previous variants in unvaccinated people. Black fungus, also known as mucormycosis, is ubiquitous and found in soil and air and even in the nose and mucus of healthy people. With the coming of the 2nd wave people this time did not only have social distancing, mask, sanitizer but also vaccines as their main weapon to fight the covid-19.

Wave 3 (Omicron, booster): On 26 November 2021, WHO designated the variant B.1.1.529 a variant of concern, named Omicron. When the 3rd wave came everyone was ready for the virus this time because unlike the previous waves this time people are not in a shock as they had already faced the virus twice. Though this time people had been vaccinated and couldn't expect the virus, they all were ready to face it as the circumstances previously were also somewhat similar.

Conclusion: What we should learn from the first 2 waves and from the ongoing 3rd wave is that instead of complaining about the pandemic, we should be happy about the precious time we got to spend with our family members. Yes, it is true that we need to stay in our homes because of covid but because of these restrictions covid has put on normal activities, the amount of pollution caused has also decreased by a lot which is not only good for the environment but also for humans as the number of diseases and deaths caused by air pollution have also decreased. Apart from this covid also gives us the life lesson of being ready to face any sudden problems which come in our lives where we don't have to panic but instead think calmly and peacefully, which also applies to the 3rd wave of covid.

Rishi Raj, VIII C

SCHOOL LIFE DURING THE PANDEMIC

Online schooling was certainly a great experience! More like a short escape from reality of which we got to taste, but nothing can beat the presence of students, teachers and laughter in the same atmosphere. Lessons in front of the screen have gotten the students to become lazier and a burden to their mothers; simultaneously, these lessons have also saved time in countless activities.

Making new friends, participating in cultural activities, falling asleep mid-lectures, entertaining the class.. is something I feel every student misses rather than simply logging off the system and playing video games in our comfort zone which certainly is a vibe.

Here at DSE, I got to experience both. It was easy for me to get along with students and they are all very friendly.

The teachers being supportive and making lectures interesting is what hyped me during online classes.

I'd personally encourage physical schooling ignoring the deadly virus, which unfortunately doesn't share the same interest!

Technology once again takes the lead in today's world.

WORK EDUCATION - BEING CREATIVE IS NOT A HOBBY, ITS A WAY OF LIFE

Casavella Abroad - The Language Motherland

Parent Outlook

Concepts taught in the class by showing and doing, especially the latter helped children grasp concepts well. The language classes with integration of the activities such as on "Freedom Fighters" and "Things we get from Trees", traffic signal lights, colours and meanings in Hindi have made them very interesting and educative.

Devaansh Pendyala P/O Sudeepta Nammi

एक नया अनुभव

एक दिन, सब कुछ बंद हो गया;
मॉल, दुकानें और हमारा स्कूल भी।
ऑनलाइन क्लास का अनुभव था नया
और मुश्किल भी।

लेकिन हमने कोशिश की
कि कोई कसर न रह जाए।
प्रतियोगिताएँ, कार्यक्रम और उत्सव भी
सभी आयोजित ऑनलाइन किए गए।

कक्षा में पढ़ने-लिखने की बजाय,
हमने घर बैठे पढ़ा और लिखा।
अध्यापक द्वारा ब्लैकबोर्ड में समझाने की जगह
हमने ऑन स्क्रीन में समझा।

कहते हैं, कोशिश करने वालों की हार नहीं होती,
उसी तरह अध्यापकों की मेहनत,
और हमारी लगन से हमें सफलता प्राप्त हुई।

समीहा यास्मीन, IX B

करोना का दौंव

वाह ! रे करोना क्या दौंव है खेला,
घर को बना डाला है स्कूल का मेला ।

अब मोबाइल में टीचर और पास में मम्मी खड़ी है,
कुछ भी बदमाशी करने पर टीचर की डाँट नहीं,
मम्मी की छड़ी पड़ती है ।

ऑनलाइन की पढ़ाई से मम्मी हुई परेशान,
सुबह-सुबह की असेंबली ने पापा की नींद को किया हैरान ।

ऑनलाइन होने की वजह से, क्लास हुई आधी,
अब हमारे साथ स्कूल का गीत गुनगुनाते हैं, दादा-दादी ।

माना कि टीचर है होशियार, पर हम बच्चे भी चालाक बड़े,
जब समझाती है मैम कुछ तो, कर देते हैं हाथ खड़े।
और जब पूछ लेती हैं मैम, कुछ तो कह देते हैं इंटरनेट इशु हैं बड़ ।
खुश होता है टीचर की प्यार भरी डाँट से क्लास का हर एक बच्चा,
क्योंकि वे टीचर को मानते हैं दुनिया में सबसे अच्छा।

पहले हाथों पर होते थे स्याही के निशान,
अब कानों में है ईयर फोन और आँखों में थकान।
बगल में दोस्त, लंच बॉक्स और प्लेग्राउंड को मिस करते हैं,
जल्द से जल्द स्कूल खुलवा दीजिए.... महोदया जी ...
हाथ जोड़ हम विनती करते हैं।

रुद्र शरण राठी, IV A

शालिन बंसल, VI C

विनती, IV B

अनोखी ख्वाहिशें

अलादीन और जिनी की कहानी तो सबने सुनी है.... अगर मुझे ऐसा कोई जादुई दीपक मिल जाता तो मैं तो खेलने, खाने की चीज जैसे पिज्जा, डोनट्स और चॉकलेट्स नहीं माँगता । वो मेरे मम्मी पापा मुझे कभी न कभी दिला देते हैं इसलिए मैं जिनी से अपनी तीन अनोखी ख्वाहिशें पूरी करने को कहूँगा ।

मेरी पहली इच्छा ब्रह्मांड के सभी ग्रहों की यात्रा करने की होगी। मैं मंगल, शुक्र और बृहस्पति की तस्वीरें खींचूँगा।

मैं देखना चाहता हूँ उन ग्रहों की सतह से पृथ्वी कैसी दिखती है ? मैं यह भी देखना चाहता हूँ कि बृहस्पति की तुलना में प्लूटो कितना छोटा है।

मेरी दूसरी इच्छा उड़ने के लिए महाशक्ति की होगी जिसका उपयोग मैं दो सेकंड में स्कूल जाने के लिए कर सकता हूँ । अगर मैं उड़ सकता तो मैं बादलों तक पहुँच जाता और उनके साथ चलता..... और गाता 'बादल पे पाँव हैं...' '

तीसरी और अंतिम इच्छा यह है कि पृथ्वी पर सभी बच्चे चाहते हैं कि कोविड वायरस का अंत हो और सब सामान्य स्थिति में लौट आए। मैं उत्सुकता से स्कूल वापस जाना चाहता हूँ, अपने मित्रों से मिलना चाहता हूँ, अपने माता-पिता के

साथ छुट्टी पर जाना चाहता हूँ । हम सभी बच्चे इस तरह एक

जादुई दुनिया चाहते हैं। आशा है कि ये सपने सच होंगे लेकिन सुबह आठ बजे अलार्म बजता है और ऑनलाइन कक्षाएँ 8:45 बजे शुरू होती हैं। तो सपने देखते रहो हो सकता है कि एक दिन हमारा यह सपना सच हो जाए।

वेदांग बहुगुण, IV A

ऑनलाइन कक्षा का अनुभव

मैं 'मोहित जैन' कक्षा 4 का छात्र हूँ। कोरोना काल में तालाबंदी के दौरान जो ऑनलाइन कक्षा का अनुभव रहा, उसे मैं कुछ शब्दों में बताना चाहता हूँ। मेरा यह अनुभव बहुत मिलाजुला है - कुछ मीठा और कुछ कड़वा। हमने कई प्रकार के तकनीकी ज्ञान को सीखा । हमसे भी ज्यादा हमारे शिक्षकों ने सीखा। उन्होंने जो कार्य किया है वाकई तारीफ़ के काबिल है । उन्होंने कक्षाओं को रोचक और ज्ञानवर्धक बनाने में कोई कसर नहीं छोड़ी। विभिन्न विषयों की पढ़ाई के साथ - साथ, खेलकूद, संगीत, नृत्य, चित्रकला, कंप्यूटर, प्रतियोगिताएँ, प्रातःकालीन सभाओं द्वारा हमने अपना सर्वांगीण विकास किया । कोरोना काल ने हमें सिखा दिया कि हम घर बैठे - बैठे भी शिक्षा प्राप्त कर सकते हैं । फिर भी मैं अपने दोस्तों, शिक्षकों, स्कूल का मैदान, उन मस्ती भरे पलों की कमी को महसूस कर रहा हूँ। आशा करता हूँ कि आगे आने वाले दिनों में सब कुछ ठीक हो जाए और मैं जल्दी स्कूल जा सकूँ ।

प्रिशा अग्रवाल, V B

मोहित जैन, IV A

ऑनलाइन शिक्षा : एक वरदान

ये जो ऑनलाइन का चलन आया है ,
इसने नया पाठ पढ़ाया है।
इंटरनेट पर ऑनलाइन अध्यापिका ने हमें सिखाई,
घर बैठे - बैठे करें हम खूब पढ़ाई।
नई - नई तकनीकी सीखी ।
कुछ थी मीठी, कुछ थी तीखी।
इस तरह हुआ शिक्षा का प्रसार।
बहुत काम आया हमारे,
नई सदी का यह आविष्कार।
स्कूल बंद होने पर भी ,
रोज़ मिलते हम ऑनलाइन।
शिक्षक हो या दोस्त सबको कहते,
गुडमॉर्निंग और बोलते वी आर फाइन।
कंप्यूटर, लैपटॉप, मोबाइल,
बन गए हैं मित्र हमारे।
ये सब नहीं होते तो हम सब
बैठे रहते यूँ ही बन कर बेचारे।

अभिनंदन पांडेय, V C

लॉकडाउन में पढ़ाई

हालचाल ठीक-ठाक है,
सबकुछ ठीक-ठाक है।
लॉकडाउन होने पर भी,
पढ़ाई भी ठीक-ठाक है।
स्कूल बंद हो गए पढ़ने जाएँ कहाँ,
घर में ही घूमें यहाँ-वहाँ।
पढ़ाई का न हो नुकसान,
इसलिए ऑनलाइन क्लास बन गया अपना जहाँ।
शिक्षा से हुए नहीं हैं हम दूर,
शिक्षकों से मिलती है मदद भरपूर।
कोई भी, कैसे भी सवाल हों हमारे,
हल मिलता हमको है ज़रूर।
अब तो ऑनलाइन क्लास का है ज़माना,
पढ़ाई न हो पाएगी, सोचकर न घबराना।
समय पर मोबाइल- लैपटॉप के आगे बैठ जाना,
नहीं चलेगा अब कोई बहाना।
हालचाल ठीक-ठाक है,
सबकुछ ठीक-ठाक है।
लॉकडाउन होने पर भी,
पढ़ाई भी ठीक-ठाक है।

हर्षित अग्रवाल, X B

ऑनलाइन कक्षा

जब कोरोना ने किया वार,
विद्यालय जाना भी हो गया दुश्वार।
बिन अध्यापक के होती नहीं पढ़ाई,
जितना भी करो ज़ोर।
तकनीकी ने बताया इसका एक तोड़,
ऑनलाइन कक्षा आए हमें बचाने,
इस महामारी के समय पढ़ाई कराने।
साझा किए कई गम, और
साथ मिलकर लगे हैं हम खुशियाँ भी मनाने।
ऑनलाइन कक्षा में किए हमनें कई कारनामों।

निकुंज जयेश, X B

अमान्या रवि, X B

डॉली की इच्छा

एक दिन डॉली खुशी - खुशी स्कूल जाने के लिए तैयारी कर रही थी। वह विद्यालय के बारे में सोचकर खुश और उत्साहित थी और वह जैसे ही स्कूल पहुँची उसे सूचना मिली कि स्कूल बंद है। उस दिन उसका जन्मदिन था। संपूर्ण देश में तालाबंदी लगा दी गई। कई लोगों की नौकरी चली गई। वायरस के कारण कई मौतें हुईं। यह सब देखकर वह बहुत दुखी हो गई और उसकी सारी खुशी छू मंतर हो गई। वह बहुत परेशान थी और वह पाँच से छः महीने तक किसी से ज़्यादा बात नहीं कर पा रही थी। उसके स्कूल ने कुछ दिनों के बाद पढ़ाई की एक नई विधा-ऑनलाइन कक्षाओं की घोषणा की। सब कुछ ऑनलाइन हो गया, सभी घर से काम कर रहे थे। फिर वह खुश हो गई क्योंकि वह अपने दोस्तों से बात कर सकती और घर बैठे उनके साथ पढ़ सकती थी। जब उसने अपने शिक्षक से पूछा कि हम कब से स्कूल आकर पढ़ाई कर सकेंगे, तो उसके शिक्षक ने उसे आश्वासन दिया कि कुछ समय प्रतीक्षा करें। यह वायरस खत्म हो जाएगा, तब फिर से भौतिक रूप से कक्षा की शुरुआत की जाएगी। यह सुनकर उसके मन में एक आशा की किरण जगी। फिर से यह वायरस जल्दी खत्म हो जाएगा, जिन लोगों की नौकरी चली गई उन्हें फिर से नौकरी मिलेगी और सब कुछ ठीक होगा। सब पहले जैसा सामान्य हो जाएगा और फिर एक चमत्कार हुआ। देखते ही देखते सब कुछ सामान्य हो गया।

सीख - कभी भी आशा मत छोड़िए एक दिन आप ज़रूर सफल होंगे। हम आशा और हिम्मत के बल पर जीवन में आने वाली हर विपदा से लड़ सकते हैं। हमें डॉली की तरह आशावादी बनना चाहिए।

रिशिका अग्रवाल, VII A

स्टूडेंट कौंसिल का चुनाव

ऑनलाइन शिक्षा का सबसे यादगार प्रसंग इस वर्ष जुलाई में आयोजित स्टूडेंट कौंसिल का चुनाव रहा है। ऑनलाइन कक्षाओं के होने के बावजूद हमारे विद्यालय ने चुनाव का आयोजन किया। सभी छात्रों में भरपूर उमंग और जोश भरा था जैसा कि ऑफलाइन कक्षाओं के दौरान होता था।

मैंने सांस्कृतिक सचिव पद के लिए चुनाव लड़ा साथ ही मेरे कई मित्रों ने भी इसी पद के लिए आवेदन किया था। सभी प्रत्याशियों ने अपने-अपने चुनाव-चिह्न, भाषण एवं अभियान का आभासी प्रदर्शन किया। सभी कक्षाओं के छात्र-छात्राओं से हमें वोट देने का निवेदन किया। विद्यालय ने मॉक-चुनाव भी करवाया। आखिरकार चुनाव का दिन भी आ ही गया। एक तरफ आशा थी जीतने की, तो दूसरे तरफ भय था कि कहीं हार न जाऊँ। मुझे सभी प्रतिद्वंद्वी जीत के प्रबल दावेदार ही दिख रहे थे पर मैंने मन-ही-मन ठान लिया कि कुछ भी हो- हार या जीत, उसे सहर्ष स्वीकार करूँगी। और जिस दिन चुनाव के परिणाम आए, उस दिन तो मैं खुशी से झूम उठी। अब बारी थी अलंकरण समारोह की। जब मैंने सांस्कृतिक सचिव का झंडा लहराया, उस पल मुझे गर्व और आनंद की अनुभूति हुई।

रिधि, XA

ऑनलाइन कक्षाएँ

किसने सोचा था ऐसे दिन भी आएँगे,
जब हम बिस्तर पर बैठे-बैठे स्कूल का जलवा दिखाएँगे ।
तकनीकी विकास की जय हो
जिसने हमें ऑनलाइन कक्षाओं से मिलवाया ।
जहाँ अपने शिक्षक और सहपाठी भी नज़र आते हैं,
वहीं कार्य न करने पर शिक्षकों की चिर-परिचित डाँट भी हम खाते हैं
कभी तो स्क्रीन शेयरिंग के दौरान बच्चों की कलाकारियाँ नज़र आतीं
तो कभी कुछ बच्चों की पृष्ठभूमि ही बदल जातीं ।
शिक्षक ने इसका उपाय ही ढूँढ डाला,
और एक-एक कर बच्चों को मीटिंग से बाहर निकाला ।
डर के मारे बच्चों की कलाकारियाँ बंद हुई,
और दोनों की सक्रियता से ऑनलाइन कक्षाएँ सफल हुई ।

अमित, XA

देखो-देखो सुबह हो गई,
बिना स्कूल गए करनी है पढ़ाई ।
यह कैसे होगा भाई ?
उसकी भी हमने योजना है बनाई,
घर में ही रहकर हमने कक्षा है सजाई ।
बस एक बटन हमने दबाई ,
करने लगे अध्यापक कक्षा की अगुवाई,
तरह-तरह के चित्र दिखा कर कराई है पढ़ाई ।
वह कैसे भाई ?
कंप्यूटर, लैपटॉप, मोबाइल, इंटरनेट से
यह संभव हो सका मेरे भाई
इसलिए हम सब घर बैठे ही
कर पाए अपनी सारी पढ़ाई ।

मोहम्मद जसीर एन., XB

मैडम हुई हैरान

है बात कुछ अजीब,
थोड़ी पुरानी पर दिल के है करीब ।
क्या मैं अब बताऊँ तुमको ,
ये ऑनलाइन क्लास का किस्सा हमारा ।
एक दिन की बात है,
था एकदम घना सन्नाटा,
आई मैडम मीटिंग में जब ,
सारे बच्चों के कैमरे थे बंद तब ।
मैडम बोलीं, चलो बच्चों !
करो अपने कैमरे ऑन ।
पर ये बच्चे भी थे बड़े महान ,
वही पुराने उनके बहाने
नेटवर्क चला गया इसलिए
वे भी चले गए, कहीं और मीटिंग जमाने ।
फिर मीटिंग हो गई खाली,
मैडम भी कुछ समझ न पाई,
अरे ! ये हुई क्या यह बात ?
बच्चे आए अचानक मीटिंग में एक साथ,
उनमें से कोई गाए गीत,
कोई करे प्रस्तुत अपनी स्क्रीन ।
देखकर ये सब मैडम हुई हैरान
फिर सब बोले साथ - साथ,
हैप्पी बर्थडे मैडम जी
दी सबने जन्मदिन की हार्दिक शुभकामनाएँ ।

अक्षत जैन, XA

ऑनलाइन प्रतियोगिता का अनुभव

मुझे सितंबर के महीने में एक ऑनलाइन प्रतियोगिता में हिस्सा लेने को कहा गया। मुझे 'गरमागरम खबरें' नामक हास्य प्रतियोगिता में एक न्यूज़ रिपोर्टर की भूमिका निभानी थी। मैं बहुत प्रसन्न मन से प्रतियोगिता की तैयारी करता था। प्रतिदिन ऑनलाइन कक्षाएँ समाप्त होतीं, फिर हिंदी की अध्यापिकाएँ रिहर्सल में मेरी मदद करतीं।

हालांकि मुझे एक हास्य कार्यक्रम करना था, मुझे बिल्कुल हँसना नहीं था, बिल्कुल गंभीर मुद्रा में 'ब्रेकिंग न्यूज़' बोलना था। स्क्रिप्ट इतनी हास्यपूर्ण थी कि हँसे बिना बोल पाना असंभव हो रहा था। अध्यापिकाओं ने सिखाया कि अपने-आपको उसी भूमिका में ढालना है जो हमें निभानी है। प्रतिदिन की तैयारी ने मुझे सिखा दिया, और मैं बहुत अच्छा बोलने लगा। मैं उन दिनों खूब समाचार देखता। मुझे लगता मेरे अंदर एक न्यूज़ रीडर छिपा है जो कि अब बाहर आकर बड़ी उत्साह के साथ बोलने लगा है।

आखिरकार प्रतियोगिता का दिन आ ही गया। बहुत सारे विद्यालय के छात्र-छात्राओं ने इस प्रतियोगिता में हिस्सा लिया। सभी ने बहुत ही बेहतरीन प्रदर्शन किया था। मेरा प्रदर्शन भी अच्छा रहा परंतु मैं जीत न सका। मुझे प्रतियोगिता में हिस्सा लेकर बड़ा मज़ा आया, बहुत सी नई चीज़ें सीखने को मिलीं। यह अनुभव मेरे लिए हमेशा यादगार बनी रहेगी।

अबरार अली मिर्ज़ा, XA

सहृदय धन्यवाद

इस कठिन समय में हमें ज्ञान देने के लिए मैं आप सभी अध्यापकों को दिल से धन्यवाद करना चाहती हूँ। हमारी पढ़ाई का नुकसान न हो इसके लिए आप सब कड़ी मेहनत करते हैं। हम सही तरह से पढ़ें इसके लिए आप हमारे छोटे से प्रयास पर भी हमारी प्रशंसा कर हमारा उत्साह बढ़ाते हैं। और जब हम गलतियाँ करते हैं तो आप उन्हें सुधारने का मौका भी देते हैं। हम सभी वास्तव में ईश्वर के हृदय से आभारी हैं कि उन्होंने हमें आप जैसे शिक्षकों का शिष्य बनाया। उन सभी शिक्षकों को सहृदय धन्यवाद जिन्होंने इस कठिन परिस्थिति में भी ज्ञान की ज्योति को जलाए रखा।

उन्नति मित्तल, XB

सभी अध्यापकों को धन्यवाद

इस कठिन समय में, आपने हमें ज्ञान प्राप्त करने में मदद की है और आपने कोरोना महामारी को एक चुनौती के रूप में लिया और आप रुके नहीं। पढ़ाई के साथ-साथ आपने हमारी भावनात्मक और मानसिक रूप से भी मदद किया है। मैं दिल से आप सब की आभारी हूँ।

आहना मिश्रा, IX A

मैं अपने सभी अध्यापक-अध्यापिकाओं को हृदय से धन्यवाद देना चाहता हूँ, जिन्होंने घोर महामारी के दौरान भी निरंतर पढ़ाना जारी रखा। मैं अपने माता-पिता को भी सहृदय धन्यवाद देना चाहता हूँ क्योंकि इतनी कठिन परिस्थितियों में भी उन्होंने घर पर मेरी ऑनलाइन कक्षाओं के लिए पूरी व्यवस्था की ताकि हमारी पढ़ाई सुचारू रूप से चलती रहे और हम महामारी से भी बचे रहें। ऑनलाइन कक्षाएँ मेरा सुखद अनुभव रही हैं।

వినోదాత్మక విద్య

మా పాఠశాల విద్యార్థులకు ఆన్లైన్ ద్వారా పాఠాలు చాలా
సౌకర్యముగా, పద్ధతిగా నేర్పుతున్నారు. భాష
నేర్చుకునేటప్పుడు దాని వ్యాకరణము నేర్చుకోవటం
ప్రధానం. హెలెన్ మేడం ఇలాంటి క్లిష్టమైన అంశాలు
విద్యార్థులకు అర్థమయ్యే రీతిలో, పాటలతో,
వీడియోలతో చాలా వినోదాత్మకంగా నేర్పుతున్నారు.
విద్యార్థులు పాఠాలు పరోక్షముగా నేర్చుకోటానికి
ఎప్పటికప్పుడు తల్లిదండ్రుల అభిప్రాయము తీసుకొని
అమలపరుస్తున్నారు. ప్రతిఒక్క విద్యార్థి యొక్క స్థాయి బట్టి
వారికి పాఠాలు నేర్పుతున్నారు. ఆన్లైన్లో ఇంత సులువుగా
పాఠాలు కొనసాగించడం వెనుక మా అధ్యాపకుల యొక్క
కృషిని శ్లాఘిస్తూ, మనస్ఫూర్తిగా ధన్యవాదములు
తెలుపుకుంటున్నాము

దూరవిద్య లో సృజనాత్మకత

కరోనా వైరస్ కారణముగా ప్రభుత్వ ఆదేశాల మేరకు
పాఠశాలలు మూతపడ్డాయి. కాబట్టి విద్యావిధానం అంతా
దూర విద్య ద్వారా జరుగుతుంది. ఎప్పటిలాగే ఉదయం
నుండి సాయంత్రం వరకు సమయపాలనతో
నిర్వహిస్తున్నారు. ఆన్లైన్ తరగతుల ద్వారా
ఉపాధ్యాయులు ఎంతో ఓపికతో విద్యను నేర్పిస్తున్నారు.
విద్యతో పాటు అనేక రకాలైన ఇతర నైపుణ్యాలను
అలవరచుకునేటట్లుగా ప్రోత్సహించారు. విద్యార్థులలో
సృజనాత్మకత పెంపొందించుటకు వివిధ రకాల ప్రాజెక్టులను
కేటాయించారు. విద్యార్థుల మధ్య పోటీతత్వం ఉండే విధంగా
అనేక రకాల క్వీజ్ పోటీలను నిర్వహించారు. పరీక్షలను కూడా
ఆయా సమయాలలో సమర్థవంతంగా నిర్వహించి అన్ని
రకాలుగా మమ్మల్ని ముందుకు నడిపించిన మా
ఉపాధ్యాయులందరికీ మా ధన్యవాదాలు తెలియజేస్తున్నాము.

దూరవిద్య - ప్రోత్సాహం

కరోన ఉన్నా, లాక్డౌన్ ఉన్నా ఆటంకం లేకుండా మాకు తెలుగు పాఠాలు ఆన్లైన్ ద్వారా నేర్పించి అన్ని ప్రాజెక్టులలో పాల్గొనేటట్లు ప్రోత్సహించి, తెలుగు వ్రాయడం, మాట్లాడడం చక్కగా నేర్పిస్తూ నిత్యం నన్ను ప్రోత్సహించే మా తెలుగు టీచర్ గారైన దుర్గాభవాని గారికి నా యొక్క గౌరవ ధన్యవాదాలు. మా గురించి ప్రత్యేక శ్రద్ధ తీసుకునే మా గురువులందరికి నా ధన్యవాదములు.

అశ్విత్ రాజ్, 3 వ

అంతర్జాల విద్య - తమాషాలు

హలో అండి నమస్తే. నా పేరు నాగ సాయి శ్రీ. ఆన్లైన్ క్లాసులో శేష సాయిని. ఆన్లైన్ క్లాసులో హాస్యానికి కొదవేమి ఉందండి. పాపం మా టీచర్ పాఠం చెప్పడం మొదలు పెడతారు. ఈ లోగ అనుమానాల రాణి అదే మా జానీకి సందేహాలు బోలెడు. అంబులెన్స్ సైరన్ లాగ 'మేం మేం మేం' అంటూ మొదలు పెడుతుంది. పాపం మేడం, జానీ! 'మ్యూజిక్ యువర్ మైక్ - మ్యూజిక్ యువర్ మైక్' అంటూ చెపుతూ ఉంటారు. ఈ లోగ మా రోడ్డు మీద మోటార్ సైకిల్ మీద వచ్చే అబ్బాయి 'సోఫాలు రిపేర్ చేస్తాం. మీకు నచ్చిన విధంగా ఇంటి వద్దనే రిపేర్ చేసి ఇస్తాం. సోఫాల రిపేర్ చేస్తాం'. అంటూ అతని బిజినెస్ మొదలు. ఇదిలా ఉండగా మా తమ్ముడు క్లాసు కూడా పక్కనే జరుగుతూ ఉంటుంది. చెపితే వినడు అరిస్తే ఏడుస్తాడు. మా తమ్ముడి టీచర్ చక్కగా, గట్టిగా పద్యాలు, పాటలు వినిపించేస్తూ ఉంటారు, ఇక్కడ నాకేమో చెవిలోకి అన్నీ చేరి కలగావులగం. పొరపాటున వాడికి సెలవు ఉండి నాకు క్లాసులు ఉంటే ఇల్లు 'కిష్కింద కాండ' లాగే ఉంటుంది. భూకంపం వచ్చిందేమో అనే అనుమానం కూడా నాకు వస్తూ ఉంటుంది. అప్పుడప్పుడు క్లాసులు ఉన్నప్పుడు బ్లూటూత్ పెట్టుకుని పాఠం వింటూ ఉంటాను. టీచర్ అడిగే దానికి సమాధానాలు చెపుతూ ఉంటాను. ఇంతలో మా అమ్మమ్మ ఎంట్రీ ఇస్తుంది. ఒసేవ్ పిల్లా! మన నాగాకి గాలి ఏవన్నా సోకిందేమో అనే అనుమానంతో భూతవైద్యుడికి కబురు పెట్టేస్తుంది. ఇక ఆవిడికి నచ్చచెప్పే సరికి నిజంగానే పిచ్చి పట్టేస్తుంది. ఇంకో రోజు మా దూరపు చుట్టం వచ్చి 'ఏంటి పిల్లా నీకు సెవుడు ఉందా? అమ్మ ఎప్పుడు చెప్పలేదు. మాకు తెలిసిన డాక్టర్ ఉన్నారు. ఆయన దగ్గరకి వెళ్ళు అంటూ సిఫార్సు మొదలు పెట్టింది. ఆ దెబ్బకి బ్లూటూత్ వాడటం మానేసాను. ఎప్పుడైనా నాకు ఖాళీ దొరికి చక్కగా పకోడీలు తింటూ టివి చూస్తూ అందులో మునిగిపోయి కొట్టరా ఏయ్ ఏయ్ అంటూ ఆనందంతో ఊగిపోతూ ఉంటే మా తాత గారు వచ్చి ఏమిటి ఈ గోల? వాళ్ళు ఎందుకు కొట్టుకుంటున్నారు? అనే ప్రశ్నలు. వాళ్ళు కొట్టుకోవడం కాదు 'అదో ఆట' అని చెప్పితే ఓహో! ఆ ఆట ఆడితే ఎంత డబ్బు ఇస్తారు ఏంటి? అనే ఆర్థిక శాస్త్ర ప్రశ్న. డబ్బులు ఇవ్వరు బెల్ట్ ఇస్తారు అంటే ఫాంట్ లేని వాళ్ళకి బెల్ట్ ఎందుకురా ! అంటూ భూగోళం బద్దలయ్యేలా నవ్వు. దానితో పాటు వడగళ్ళు మీద పడ్డట్టు ఆయన నోటి తుంపరలు నా మీద పడుతూనే ఉంటాయి. వాటితో పాటుగా బోధలు. ఏమన్నా రొడీ అవుదామని అనుకుంటున్నావా! ఆ పైటింగులు గట్టా చూస్తున్నావు అంటూ ఆయన ఫ్లాష్ బ్యాక్ లోకి వెళ్ళిపోతారు. ఓల్డ్ సినిమాల్లో రావుగోపాల్ రావు లాగ మా సిన్నతనంలో ఇలాగ ఉండేవాళ్ళం కాదు. పెద్దోళ్ళు చెప్పినట్టు వింటూ, బుద్ధిగా ఉండేవాళ్ళం - అంటూ ఉంటే నాకు టి టి టి టి టి.. అనే సన్నాయి వినిపిస్తూ ఉంటుంది

నాగ సాయి శ్రీ, VII 'బి'

అంతర్జాల విద్య

మేము ఆన్లైన్ తరగతులను అసహ్యించుకున్నాము. కారణం అదనపు ఆభరణంగా మాకు కంటి అడ్డాలు కొన్నారు. ఆన్లైన్ తరగతులను మేము తృణీకరించాము కానీ మరల మేము రాజీ పడ్డాము. ఎందుకంటే 'అసలు లేదు' అనుకోకుండా 'పిసరైన' దొరుకుతుందని. మాకు ఇష్టమైన సహపంక్తి భోజనం మరియు ఆటలు లేవు. మేము నాలుగు పటాల్లో బందీ చేయబడ్డాము. పక్క పక్కనే ఉన్నా అందనంత దూరముగా అంతర్జాలరూపంలో ఆర్భాటాల నవ్వులతో ఉపాధ్యాయులు ఉత్సాహంతో వివరించినప్పుడు చాలా మంది విద్యార్థులు భోజనం చేశారు. ఉపాధ్యాయులు తరచుగా అరుస్తూ ఉంటారు. చాలా మంది కలలో విహరించేవారు వేరే విండో ద్వారాలు తెరుస్తూ....

ఇంకా ఈ తరగతులను ఒక ఆశాకిరణంగా చెప్పుకోవచ్చు. సహజానికి దూరంగా ఉన్నప్పటికీ.

ఇది ప్రయాణ సమయాన్ని తగ్గించింది. ఆత్మన్యూనతా భావం తగ్గించింది. ఆఖరి బెంచీ మొదటి బెంచీ మధ్య దూరం తగ్గించింది. విద్యార్థులు ప్రపంచంలో ఎక్కడి నుండైనా చదువుకోవచ్చు.

ఇది అనేక - ప్రోగాములను తయారు చేసింది డిజిటల్ యుగంలో ఆన్లైన్ మరియు ఆఫ్లైన్ మధ్య గీత చాలా చర్చనీయాంశమైంది ఇందులో ప్రతి అభిప్రాయం చాలా సాపేక్షంగా ఉంటుంది ఆన్లైన్ జ్ఞాపకాలు సృష్టించబడ్డాయి ఎప్పటికీ... ఎప్పటికీ మనకబారవు.

కొటికలపూడి శేష సాయి, IXA

కిరణాల ఆశ

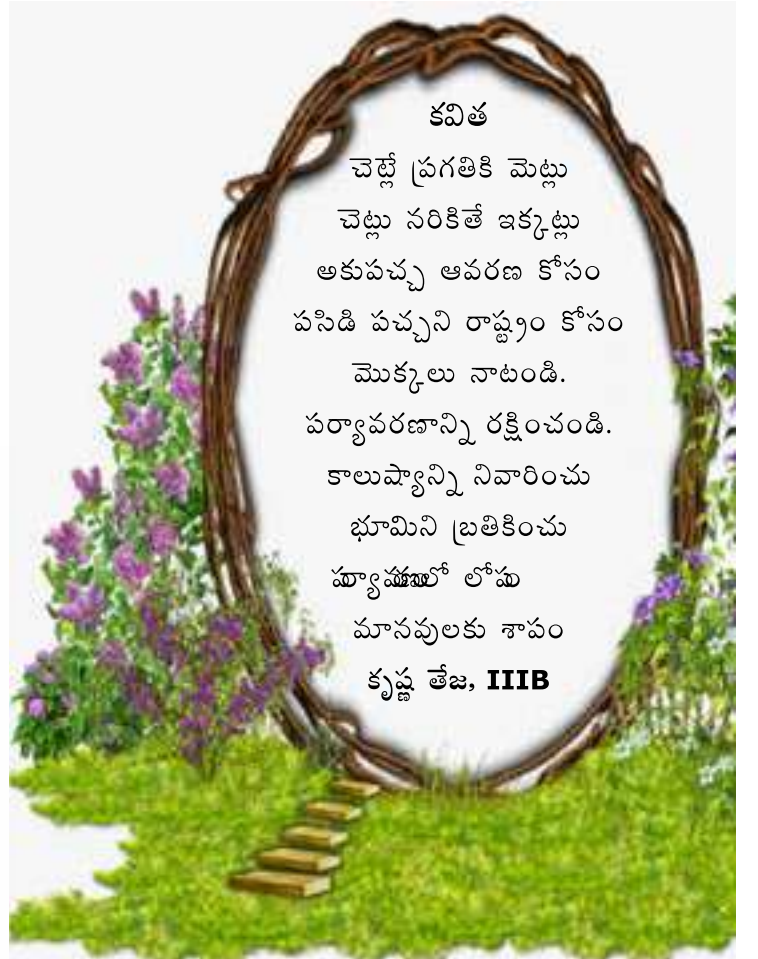

రియాకు చిన్నప్పటి నుంచి చదువు రాదు. కానీ ఆమె ఎప్పుడూ తన వంతు ప్రయత్నం చేసింది. ఆమె ఎప్పుడూ తన మనసులో కథలు తయారుచేసుకుంటుంది కానీ కాగితంపై ఎప్పుడూ రాయలేదు. ఆమె రాతను ప్రజలు ఎగతాళి చేస్తారేమోనని భయపడేది. పెళ్లయ్యాక ఆమె ఇంటి పనులన్నీ చేసేది కానీ దానికి ఎలాంటి ప్రశంసలు రాలేదు.

ఈ విషయాలు ఆమె ఆత్మవిశ్వాసమును చంపేవి. ఒక రోజు ఆమె స్నేహితురాలు ఆమెను కలవడానికి వచ్చింది. రియా చాలా మంచి రచయిత్రి అని ఆమెకు తెలుసు. ఆమె తన కథ రాయమని ప్రోత్సహించింది. రీటా కూడా తన కలల గురించి ఆలోచించింది మరియు మళ్లీ వెనక్కి తిరిగి చూడలేదు

నా ఆన్ లైన్ తరగతుల అనుభవాలు

ఆన్ లైన్ తరగతులంటే విద్యార్థులు ఎవరి ఇంట్లో వాళ్ళు ఉండి కంప్యూటర్ సహాయంతో వినడం, చూడడం. ఈ తరగతుల వల్ల నేను కరోనా నుండి తప్పించుకున్నాను. కానీ నేను స్నేహితులను కలవలేకపోతున్నాను. అది చాలా బాధగా ఉంది. ఎక్కువసేపు కంప్యూటర్ని చూడడం వలన కళ్ళు అలసిపోతున్నాయి. ఒకసారి నేను క్లాసులో ఉన్నప్పుడు మా పనిమనిషి చపాతీపిండి కలపాలా? అని గట్టిగా మా అమ్మను అడిగింది. అప్పుడు అది విని స్నేహితులందరూ నవ్వారు. నేను ఆన్ లైన్ తరగతిలో ఉన్నప్పుడు మా అమ్మమ్మ, తాతయ్య వాళ్ళు వచ్చారు. అప్పుడు నేను వాళ్ళతో గడపలేక, క్లాసు సరిగ్గా వినలేక సతమతమయ్యాను. బడిలో ఉన్నప్పుడు సమయం ప్రకారం అన్నీ జరిగిపోతాయి. బడికి వెళితే ఆ క్రమశిక్షణనే వేరు. బడికి వెళితే ఆటలు, పాటలు, నాట్యం మొదలైన కార్యక్రమాలతో ఎంతో హాయిగా, సరదాగా గడిచిపోతుంది. ఆన్ లైన్ తరగతిలో ఉన్నప్పుడు ఎప్పుడుపడితే అప్పుడు చిరుతిళ్ళు తినాలని అనిపిస్తుంది. కంప్యూటర్ ముందు కూర్చుని ఉండడం వలన ఊబకాయం వస్తుంది. ఇది చాలా అనారోగ్యాలకు దారి తీస్తుంది.

వోమ్ రెడ్డి, VIA

ఆన్ లైన్ తరగతులు: అనుకూల - ప్రతికూల భావనలు

మన దేశంలో ఇప్పటివరకు కళాశాల, విశ్వవిద్యాలయాలకే పరిమితమైనది విద్య. ఆన్ లైన్ తరగతి శిక్షణా వ్యవస్థకు ప్రత్యామ్నాయం కాకపోయినా విశ్వాన్ని వణికిస్తున్న మహమ్మారి కారణంగా ప్రాథమిక స్థాయి నుండే విస్తరించారు.

అనుకూలతలు: సౌకర్యవంతమైన అభ్యాస వాతావరణం, స్వీయ ప్రేరణ, స్వయం నిర్వహణా శక్తి, క్లిష్టమైన సాంకేతిక నైపుణ్యాల అభ్యాసం, పరస్పర చర్చ, ఏకాగ్రతా సామర్థ్యం, ప్రత్యక్ష విక్షణ, మనోనేత్ర చిత్రీకరణ, విజ్ఞాన, వినోద సమయ పాలన, సృజనాత్మకత, ప్రపంచ దృష్టి కోణ విస్తరణ, పరోక్షంగా పర్యావరణ అభివృద్ధికి నాందిగా చెప్పుకోవచ్చు.

ప్రతికూలతలు: ఆర్థిక స్థోమత ఇబ్బందులు, తగు సాంకేతిక పరిజ్ఞాన లోపం, అంతర్జాల సంకేతాల లోపాలు, విద్యుత్తు కోతలు, కరువైన మౌలిక సదుపాయాలూ, ప్రత్యేక పర్యవేక్షణ కొరత, అయోమయ స్థితిలో యువత, వ్యాయామం లేని ఒంటరి తనం, ఒత్తిడిలో కుర్రతనం, సంతోషం పంచుకోలేని మానవ సంబంధాలు, కనుచూపు తరుగుతుందని నయనాల బెదురు, సాంకేతిక దుర్వినియోగం జరిగితే పిల్లల భవిష్యత్తుపై తల్లిదండ్రుల భయం. ఇవన్నీ పరిష్కారం దొరకని సమస్యలుగా మిగిలిపోతున్నాయి. వీటన్నింటి మధ్య కాలంతో పాటు ముందుకు నడవడమే మనముందున్న కర్తవ్యంగా పరిగణించాల్సిన పరిస్థితిలో ఉన్నామని అర్థమవుతోంది.

استاد کا مقام آن لائن کے نام

بیٹھیں تھے کلاس کے انتظار میں کتاب کھول کر
جیسے ہی میسج آئی ڈی پائی جی میل پر
پرانی یادیں تازہ ہو گئی دل کھول کر
اپنے دوستوں کو دیکھ کر کمپیوٹر کے اسکرین پر
یاد آ گئے وہ دن جب جاتے تھے اسکول ، گھر کا دروازہ کھول کر
کیا دن تھے وہ جب استاد کہتی تھی چپ بوجاز بیٹا بول کر
اب ترستے ہمارے کان یہ سننے کے لیے مائیک چھوڑ کر
ہر روز صبح استاد کی نئی کوشش و لگن
رنج و غم میں بھی تھی خوشی و امید کی کرن
استاد خوش کرنے میں ہمیں دن رات لگے رہتے آخر کار
مشکل راستے پر تھامنے ہمارا ہاتھ
دنیا کے تمام استادوں میرا سلام اور نمسکرا

علیٰ فاطمہ جماعت : نیم (اے)

یادگار تدریسی لمحات

وباء نے تمام موجودہ قواعد کو بدل کر رکھ دیا
آف لائن سے اب آن لائن اسکول تبدیل کر دیا
اسکول کا بورڈ نہیں پر کمپیوٹر کا اسکرین
اب گھر پر پڑھائی حاصل ہو رہی ہے بہترین
اسکول کے میدان اور جماعت میں شاگرد نہیں گھومتے
جدید آلات کے ساتھ اب گھر بیٹھے طلبہ بے سیکھتے
ساتھیوں ، دوستوں کے ٹفن اور ان کے ہنسی مذاق کے پل
وہ یادگار لمحے اب اسکرین پر ہی بوجاتے ہیں حل
اسکول کی بس کا وہ خوبصورت سفر یاد آتا ہے مجھے
ہستہ میں رکھی کتابیں اب کمپیوٹر پر سیرکرواتی ہے مجھے
پہلے اسکول میں گھر اور ماں کی تھی یاد سناتی
اب مجھے اسکول اور استاد کی کمی ہے سناتی
اس میں کوئی شک نہیں جدید آن لائن تدریس بے نئی
لیکن روایتی تدریس کی طاقت سے کوئی میل نہیں

منہا فاطمہ جماعت : ہشتم (سی)

یاد گار لمحات

آن لائن تعلیم حاصل کرنے میں محنت و مشقت ، لگن اور حوصلہ افزائی ہے حد ضروری ہے ۔ آج اس زمانے میں آن لائن تعلیم کی اہمیت اور واقفیت بہت ضروری معلوم ہو رہی ہے ۔ آج اس دور میں برادارہ آن لائن تعلیم کے ذریعے سب سے بڑا فائدہ اور مثبت عمل یہ ہے طلبہ کو درس دے رہے ہیں اس میں کہ ہم نہ صرف تعلیم حاصل کرتے ہیں بلکہ دوسرے تجربات سے بھی واقفیت حاصل کر رہے ہیں جو ہمیں ترقی اور کامیابی کی طرف گامزن کرتی ہے اور کم سے کم وقت میں بھی زیادہ سے زیادہ درس سیکھنے کا موقع فراہم کرتی ہیں جسکا ہم سب بھر پور فائدہ اٹھا سکتے ہیں۔ براہی تعلیمی اداروں میں آن لائن تعلیم کو ترجیح دی جا رہی ہے تاکہ طلبہ گھر بیٹھے با آسانی اپنی تعلیم مکمل کرسکے اور سیکھنے کا یہ عمل انٹرنٹ کی بدولت فراہم کیا جا رہا ہے تو ہمارا یہ فرض ہے کہ آگے بڑھے تاکہ ہم اپنی منزل مقصود پر پہنچ سکے ۔

میر محمد اصغر علی جماعت : دسویں (بی)

جب ساری دنیا تھم سی گئی
تب جاگی ایک امید نئی

ملی گھر سے تعلیم حاصل کرنے کی سہولت
صرف اور صرف آن لائن کلاسیں کی بدولت

پھیلانے علم کی روشنی بر گھر پہنچ گئے استاد
جس سے طلبہ روشناس ہوئے بطور سائنس کی ایجاد

ہوتی ہے خوشی دوستوں کو دیکھ کر اسکرین پر
ملنا ملنا گلے لگانا آتا ہے یاد شام و سحر
سویا حسن جماعت : ہیم (اے)

محنت کی عظمت

ہم سب جو آج جدوجہد کریں
کل کے بہتر کل کے لیے
سخت محنت سب کی طرف سے محسوس کریں
ایک سنہرے مستقبل کے لیے
کوئی بات کتنی ہی مشکل کیوں نہ ہوں
ہم اپنی بلندیوں تک پھر بھی پہنچ جائیں
پڑھتے رہو ، بڑھتے رہو ، ایک نئے کل کے لیے
ہر وقت استقامت اور صبر کا مظاہرہ کریں
ہمیں بہت دور جانا ہے ، ایک نئے نور کے لیے
طلوع آفتاب ایک ایسا روشن کریں
طویل ترین راہیں بنائیں گے ، مستقبل روشن کے لیے

محمد عبداللہ قانری جماعت ہیم (ب)

آج ڈی - ایس - ای اسکول کی تاریخ میں اردو اسمبلی کا انعقاد عمل میں آیا جیسا کہ آپ جانتے ہیں 11 نومبر مولانا ابوالکلام آزاد کی پیدائش کے دن ہر سال ہمارے ملک میں " قومی یوم تعلیم " بڑے جوش و خروش سے منایا جاتا ہے اس موضوع کو مدنظر رکھتے ہوئے اسمبلی کا آغاز جماعت ساتویں کے طالب علم عمر محمد نے " قومی یوم تعلیم کی مبارک باد " پیش کرتے ہوئے کی اس کے بعد جماعت دسویں کے طالب علم شاہزہ کوثر نے اپنی خوبصورت آواز میں " غنی گڑھ مسلم یونیورسٹی کا ترانہ " پیش کیا اور جماعت دسویں کے طالب علم عبداللہ قادری نے مولانا ابوالکلام کے چند مشہور اشعار اپنے ہرجوش انداز میں پیش کئے اور آخر اس اسمبلی کا اختتام جماعت چہارم کے ننھے طالب علم نے مولانا ابوالکلام آزاد کی شخصیت کا کردار اپنے اظہار خیال سے کیا - اس طرح ان لائن پی پی ٹی ذریعے انکے حالات زندگی کا جائزہ لیتے ہوئے اردو اسمبلی کا اختتام عمل میں لایا گیا اسکول کے پرنسپل صاحبہ ، صدر مدرس صاحبہ اور تمام اساتذہ نے تہ دل سے مبارک باد پیش کی -

(عمر محمد ندیم جماعت ہفتم ب)

آن لائن کلاسیس سے مراد وہ تعلیم ہے جو ہم انٹرنیٹ کے ذریعے حاصل کرتے ہیں . جب سے آن لائن کلاسیس شروع ہوئی ہیں میں نے ٹائم مینجمنٹ کی مہارتیں سیکھی ہیں اور آن لائن کلاسیس میں مجھے سیکھنے کی رفتار خود ترتیب دینے میں مدد کرتی ہیں . آن لائن کلاسیس نے مجھے مختلف گروپ اور پروجیکٹ کرتے ہوئے ٹیم ورک سکھایا. اس نے مجھے تقریر کرتے ہوئے اعتماد دیا اور میرے ہر قسم کے ڈرو خوف کو کم کیا. میں اپنے اساتذہ اور ہم جماعت کے ساتھ سے بھی لطف اندوز ہوتی ہوں. آن لائن کلاسیس کو اس وبائی مرض کے دوران ایک قابل تعریف اور سیکھنے کے ایک اچھے طریقے کے طور پر دیکھا جانا چاہیے.

Un rapport sur le PTM en ligne à DSE Banjara

Nous, à DSE Banjara, avons eu des PTM dans l'école en ligne aussi souvent que nous en avons dans l'école hors ligne. C'est une bonne idée d'avoir des PTM fréquents, même en mode en ligne. C'est encore plus avantageux en mode en ligne car les parents peuvent facilement assister à chaque fois contrairement à physiquement.

Moi et mes parents assistons principalement aux PTM après les examens, comme le récent après les examens PT3.

Les créneaux horaires de chaque élève pour le PTM sont affichés par la HRT, un jour avant le PTM. Tout le monde rejoint la réunion avec la pièce d'identité qui nous est envoyée tôt le matin. Chaque élève et les parents disposent d'un temps d'environ 10 minutes

Les enseignants affichent les notes de chaque élève. Ils affichent également des informations importantes telles que les événements, les dates importantes, le calendrier des examens, etc. Les parents peuvent effacer toutes leurs préoccupations et les enseignants peuvent afficher clairement le dossier de l'élève sous tous ses aspects. Il y a une communication efficace des deux côtés car les caméras et les microphones sont allumés. Après un long moment, nous partons et les prochains parents et élèves nous rejoignent. Il y a aussi des pauses comme les pauses déjeuner. Ainsi, tout l'événement dure jusqu'à 3 ou 4 heures de l'après-midi.

Ce fut une très bonne journée pour tout le monde.

Aaryaa Shrivastava, IXB

Journée d'animation – Rapport @ DSE Banjara Hills

A l'occasion de la Journée Internationale de l'Animation, célébrée le 28 octobre, nous avons créé des vidéos pour honorer la naissance de l'animation ; c'est ce jour-là, que l'on a reconnu la première représentation publique d'images animées projetées

Ce jour-là, de nombreux groupes d'étudiants se sont réunis pour faire de belles présentations en agissant comme des animateurs célèbres de l'industrie de l'animation, comme Retta Scot, Stan Lee et Dadasaheb Phalke. Ils ont tourné les vidéos, les ont montées et ont contacté les enseignants avec beaucoup d'enthousiasme. Ces vidéos ont été mises en ligne sur les réseaux sociaux, pour faire connaître celles-ci et d'honorer les célèbres animateurs et leurs contributions.

Nous, les étudiants de DSE, avons réalisé des vidéos en interviewant certains des animateurs les plus célèbres. Ils nous ont donné des informations sur l'importance de la journée d'animation, sur la façon dont l'animation est réalisée et même une danse sur le processus d'animation, c'est-à-dire image par image

Harsha Vardhan Nellore, IXA

Une expérience d'apprentissage

L'une de mes journées préférées pendant les cours en ligne était lors du concours de débat inter-écoles. Moi et mon partenaire, sameeha, nous nous sommes préparés vigoureusement pendant 2 jours. Notre sujet était "Les réseaux sociaux sont-ils bons pour les valeurs démocratiques?". Après avoir entendu notre discours pour la première fois, notre professeur nous a dit que même si notre contenu était bon, nous n'avions pas confiance en nous et en la présentation. Le lendemain, nous nous sommes bien préparés et au moment où nous avons répété avec lui, nous nous étions beaucoup améliorés ! nous avons pratiqué et pratiqué et finalement c'était le jour de la compétition. Mais un choc nous attendait dès notre entrée dans la réunion. Nous n'étions censés préparer qu'un discours de 1 minute 30 secondes mais Sameeha et moi en avons préparé un de 3 minutes ! et nous devions y aller en premier. Nous avons immédiatement coupé court à notre discours et parlé d'une manière ou d'une autre, cela a fonctionné. Les juges nous ont également applaudis. Même si nous n'avons pas gagné, ce fut une excellente expérience d'apprentissage car j'ai découvert à quel point j'étais bon en matière de prise de parole en public et où je pouvais m'améliorer. C'était très amusant.

Sanvi J, IXA

Journal chronologique

Jeudi, le 19 Mars, 2020

Aujourd'hui était le premier jour des cours en ligne. Une toute nouvelle expérience. C'était assez différent de nos cours traditionnels, mais cela faisait partie de l'expérience d'apprentissage. Cependant, le sujet de conversation de la ville est le "corona-virus", la pandémie la plus meurtrière qui ait affecté la race humaine. J'espère que nous pourrions traverser cette période

Vendredi, le 3 Juillet, 2020

Le temps passe vite. C'est déjà l'heure de nos examens. Jusqu'à il y a trois mois, nous nous adaptions à la nouvelle normalité et maintenant nos examens commencent. Ce sera notre premier examen en ligne.

Lundi, le 7 décembre, 2020

Aujourd'hui a eu lieu notre premier concours de débats inter-maisons. Nous avons débattu sur le sujet 'si les adolescents devaient avoir leur propre espace privé ou non'. Dans l'ensemble, ce fut une bonne expérience.

Samedi, le 18 Juillet, 2021

C'est l'heure de la cérémonie d'investiture! Aujourd'hui a été une journée mémorable pour tous les membres du conseil étudiant alors que nous avons prêté serment de protéger la dignité et l'intégrité de notre école.

Jeudi, le 12 août, 2021

Aujourd'hui était simplement une journée amusante de cours en ligne. Nous étions tous décontractés et nous en profitons tous.

Shristi Sehgal, XB

Les Cours En Ligne

Les cours en ligne étaient une toute nouvelle expérience pour tout le monde. Nous étions confinés dans une pièce toute la journée à étudier, nous amuser et dormir. Nous n'aurions jamais imaginé être assis dans le confort de nos lits et étudier. Au début, c'était très amusant et ça nous plaisait beaucoup, mais plus tard, l'environnement scolaire, nos amis et les activités parascolaires nous ont manqué. Personnellement, le basket me manquait beaucoup. Être sur le terrain de basket me manquait, je n'avais aucune motivation pour faire de l'exercice seul et je ne faisais pas attention à ma santé physique.

Il y avait à la fois des avantages et des inconvénients aux cours en ligne, c'était amusant de manger pendant les cours et de s'allonger sur le lit, mais c'était aussi solitaire assis seul sans la compagnie de nos amis. C'était très confortable d'étudier dans nos chemises de nuit. Mais maintenant, je suis très heureux d'être de retour à l'école et j'aime tout à ce sujet.

FROM TECHNOIDS

FROM TECHNO WORLD

IT AND ITS IMPACT

Let me take you on an amazing ride,
One you cannot miss,
Something that us dseians call our pride,
The development in IT, that is!

Be it editing a video or submitting an
assignment,
We've been trained to excel every single day.
In our class there is no confinement,
And our teachers are just a call away.

from keeping us connected to our friends,
to staying updated on the latest trends,
the digital world has got us covered from head to
toe,
with this knowledge and huge advantage,
I wonder what the future has yet to show.

The impact of IT on our lives,
Grateful for this we are forever.
The huge amount might just take you by sur-
prise,
And this is something we will regret never!

Amal Hussain, IX A

Why the empowerment of technology through education is the way to go

It's an undeniable fact that technology forms the basic foundation for improvement in our lives. From the advent of mobile networks and computers, one cannot fathom how we would live without these conveniences. It has become an essential part of our lives and it'll only become even more integral in the future. Thus, modern teaching has become inclined to make use of computers and even artificial intelligence to help make students' lives much easier and inspire them to make a change in society through technological advancements.

"Technology gives students keys that opens doors and releases their creativity"

Despite the pandemic, students have been more exposed to the virtual opportunities. Many have developed skill sets required for future job opportunities. Encouragement and guidance from the mentors at school has only boosted their confidence. We have all heard that 'Artificial intelligence is the future' and thus, the swift transition of curriculum in schools has truly benefited the learners, by not only future gateways for better career options, but also allowed them to think more practically and come up with innovative solutions.

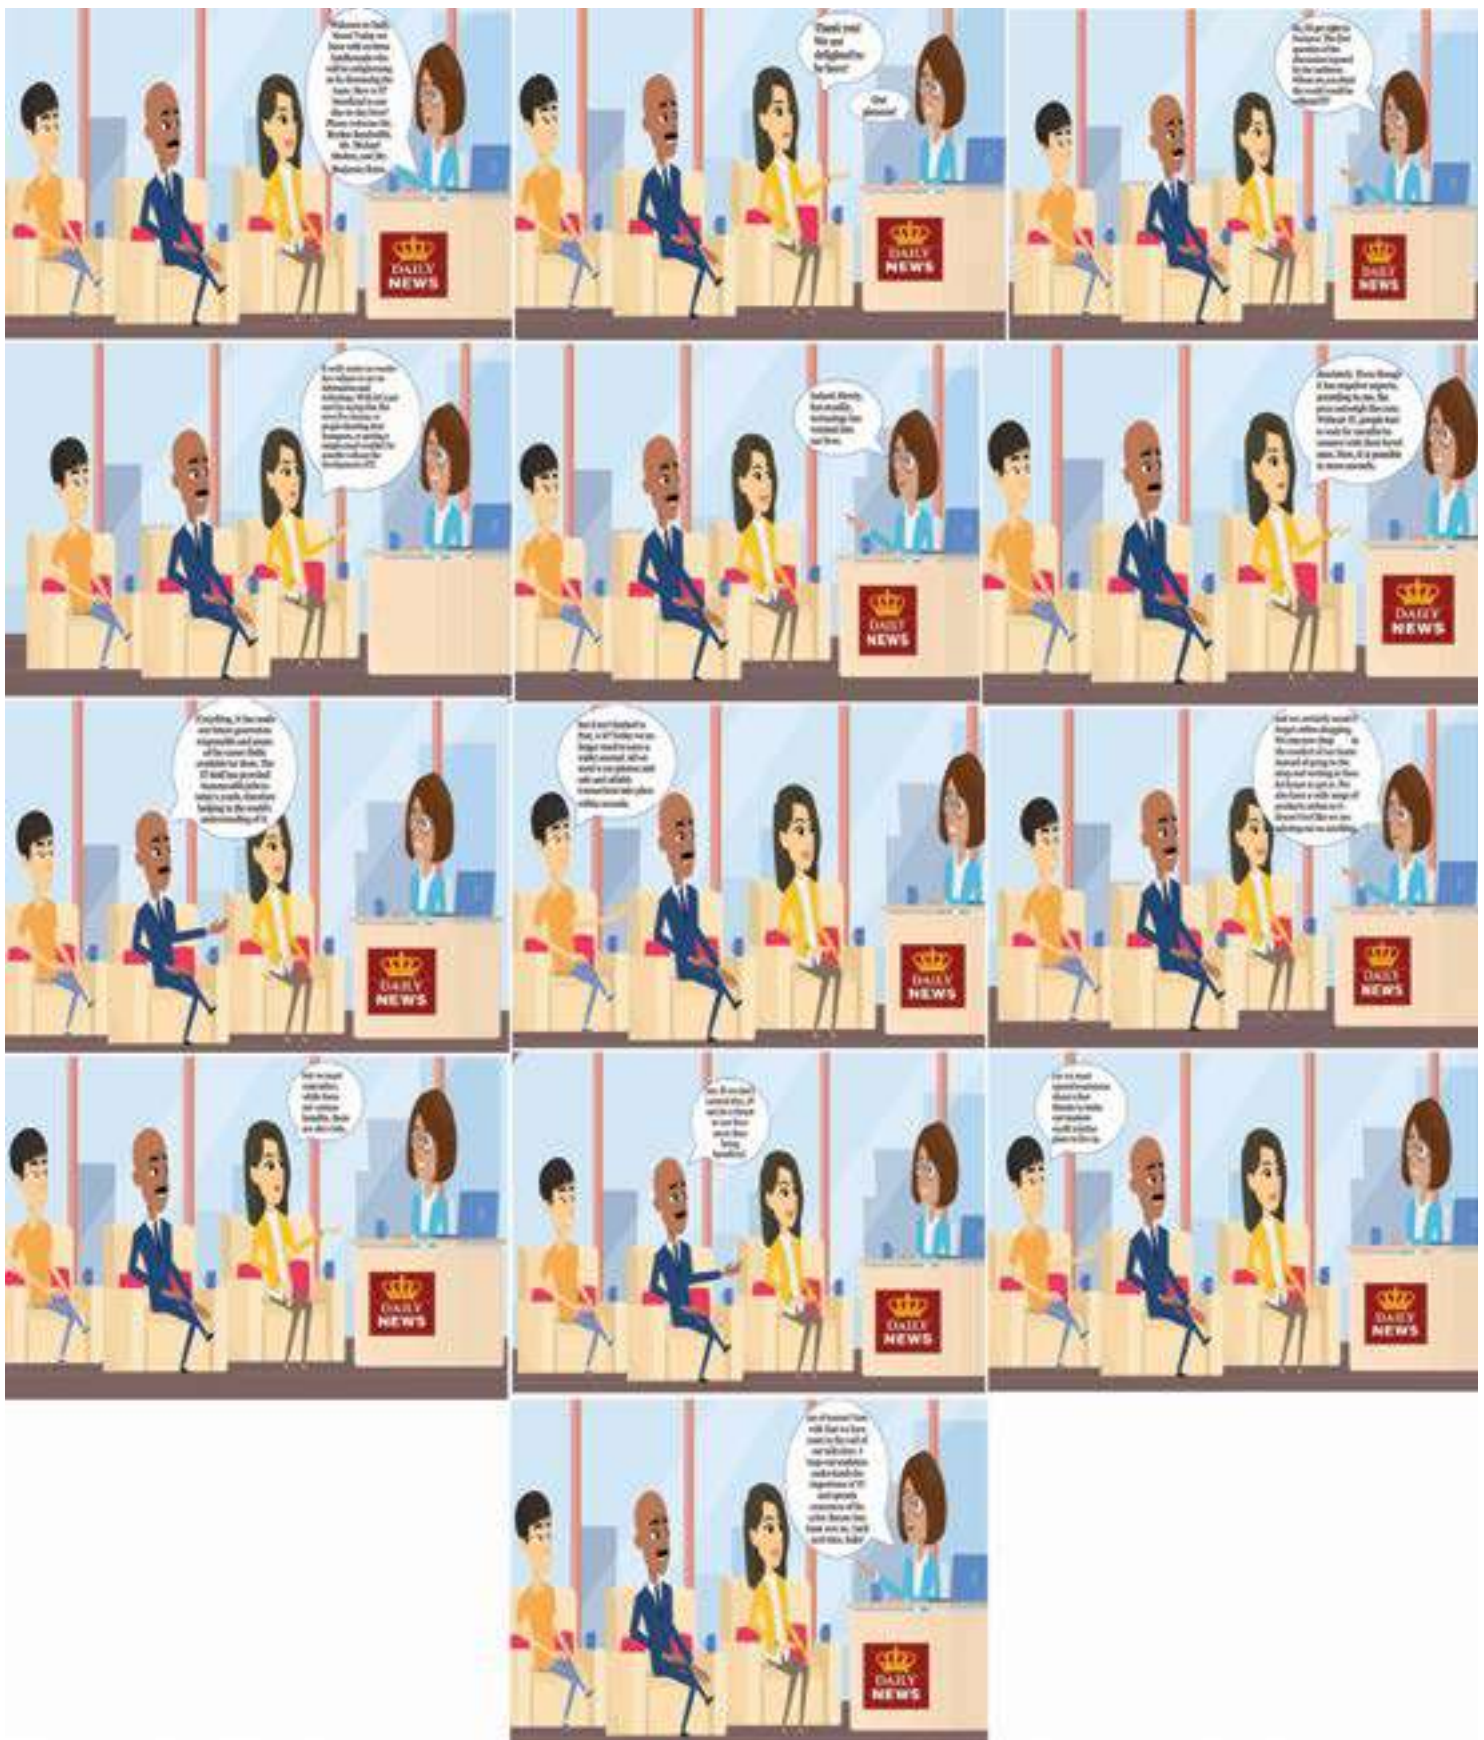

As someone who has always taken keen interest in the field of technology and artificial intelligence, the focus on skill building in the arena of technology has really benefited me. In just a span of a year, I have acquired new skills such as blog writing, coding, game development, movie making, web development and much more. This has sparked an unimaginable interest in me to take this up as a future career option. The competitions and workshops provided on the same has motivated me to develop my potential further.

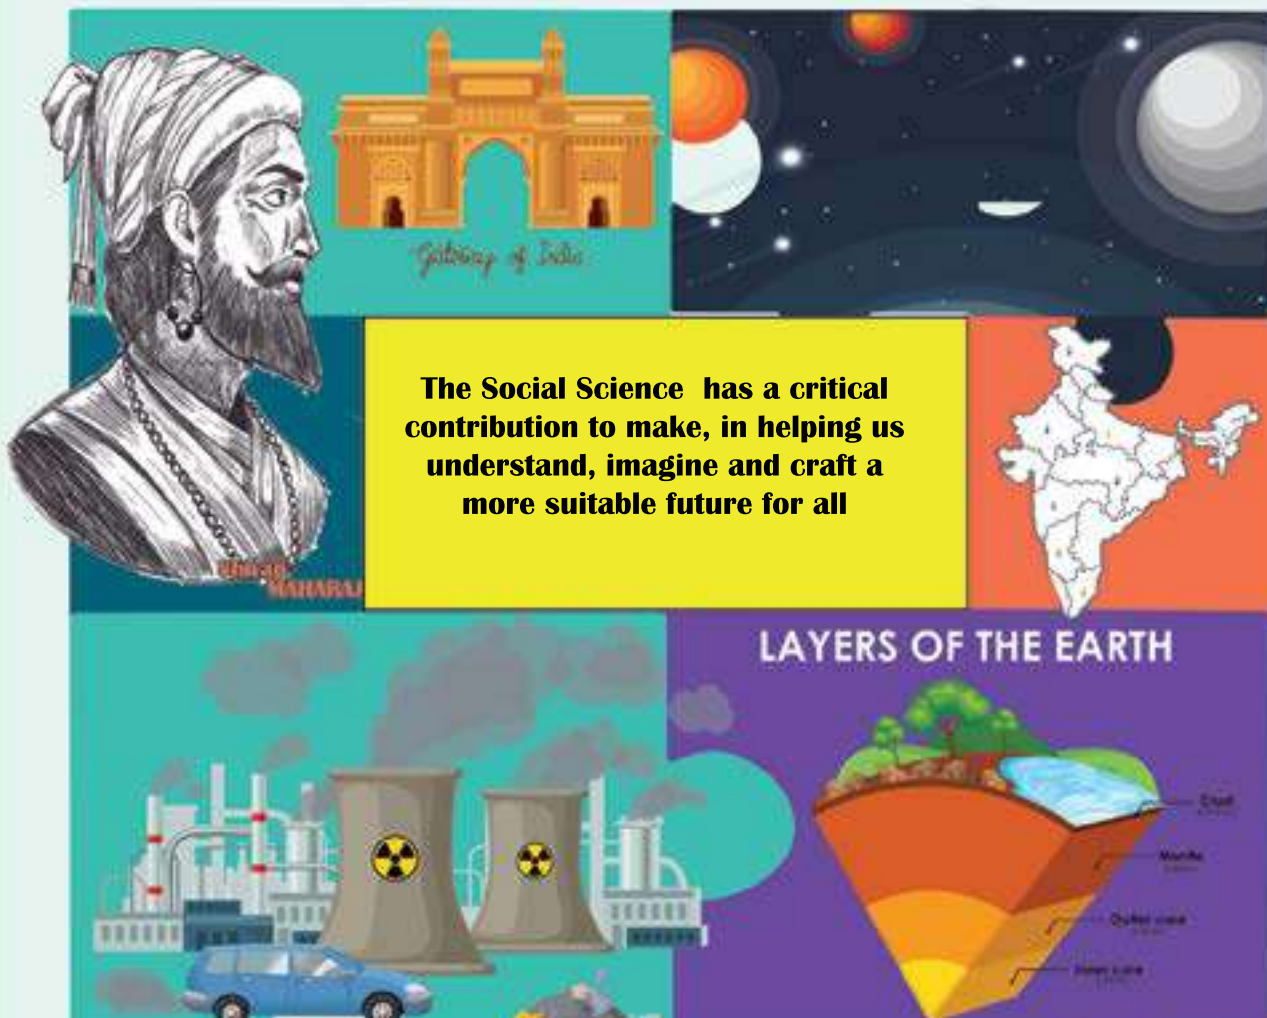

With the current generation, exploring beyond the bounds of technological science with all ethics and limitations in mind, the possibilities are endless and the future holds countless innovations. There will come a time when we shall be surrounded by all sorts of technological comforts, that were once portrayed in movies only, and appreciate the role of education in the field of computers and technology.

Parent Outlook

I really appreciate the efforts put by EVS teachers in conducting EVS classes with multiple activities. It's very interactive in which the children were very interested and excited in participating. It's a very good initiative by the teachers and the school management.

Samatha Kumar P/O Ehaan Kumar

Buddhist cave monuments is one of the oldest caves in our country .The temples are hollowed out of granite cliffs on the inner sides .The paintings of Ajanta caves depict colourful Buddhist legends and divinities with an exuberance and it is unsurpassed in Indian art. Ajanta is a clusture of 30 caves of different sizes excavated in a horshoe shaped stretch of rock .It includes masterpiece paintings of Buddhist religious art,with figures of Buddha and depict the stories that tell about the previous dives in Buddha .Today ,the caves at Ajanta remain one of the most visited agricultural site in India. They are a living representation of one of the grandest artistic styles in India.

Shalin Bansal, IV C

Virtual Tour of Karnataka of Hampi

Ruins, temples and most interestingly, also hippy island. There are local boats too. is tungabhadra river, little caves were made naturally by rock formation, also There Badavalinga temple. There is also Hampis biggest monolith Shiv ling made of one stone, and a temple was built during the vijayanagara. Then there is another shiv temple it was made 100 years ago, it was underground and excavated. Next was a place there were many ruins. It was sunset spot on hill called Malavanta hill which is very famous. There is also Vital temple in Hampi. It is an ancient monument that is well known for marvelous architecture. It has stone chariot and musical pillars.It is built in 15th century. The facade of the temple is lined with 40 pillars. Stone chariot is the most impressive creation of Vijaynagar kingdom which we can see in RS 50 note. Stone chariot of temple is a shrine constructed in form of chariot.

Malaika Sunil Khemnani, VI C

The Charminar constructed in 1591, is a monument located in Hyderabad, Telangana, India. It has four pillars. It is situated in east bank of Musi River. Materials used for building it were Granite, Limestone, and Marble. It is famous for its architecture which makes it one the recognized structure of India. It was built as a monument and mosque which became a Global icon for Hyderabad.

FACE-PALM MOMENT DURING ONLINE CLASSES

Haaziq Kazi, IV C

In the month of April, one fine afternoon we were asked to join our subject teachers' meeting, where they would assess how much we had learnt in the online classes of grade two. All the subjects went well for me, except for E.V.S. That was such an embarrassing moment for me.

Asma ma'am, my E.V.S teacher asked me, "Where do you get vegetables from?"

To that I answered, "Fridge."

Asma ma'am then rephrased the questions and asked me again, "Where do you buy vegetables from?"

Then I answered, "More MegaStore."

Asma ma'am laughed and again, rephrased the question for me – "Devaansh, now it's lockdown, all the stores are closed, so where will you buy vegetables?"

I answered, "Watchman uncle will get them for us!"

By this point I was completely shivering. I looked at my mother, expecting some help from her but she was also laughing at my answers. I was feeling so ashamed. Then my teacher said, "It's green-grocer, Devaansh!". I could see that Asma ma'am was struggling to control her laughter at my answers.

It was such an awkward moment for me. My parents still tease me about that day. I felt so bad, but my teacher's words offered me some consolation: "I am happy, Devaansh, that you are answering based on what you have observed instead of just learning by heart from the book." That was highly encouraging for me.

All in all, it was extremely embarrassing for me and I sincerely hope I never get caught in such a situation again.

Devaansh Pendyala, III C

MY EXPERIENCE ON ONLINE CLASSES

It was an exciting and new journey we had in the lockdown. Due to Covid-19 we are not able to go to school but we do had classes online. Online class were very new to us all. Very few people knew how to operate the computer like an expert. So, the first week my mother helped me switch on the classes. Soon as the situation grew worst I had learn how to operate the laptop and tab. It was hard but I had to learn it as we do not know for how many days we had to attend online. Finally I learnt it all. Not only handling a laptop now I know how to run a youtube channel also. Due to lockdown now I have my very own youtube channel and know how to edit. I learnt many knew thing. I know we all had a very hard time at home and outside, as it is for our safety we should follow the rules. We should we gratefull to our parents as even thought we are having a hard time they provide us the things we need.

Harshini, VI C

ART WORK

Creating Birds/Animals by using the different types of leaves

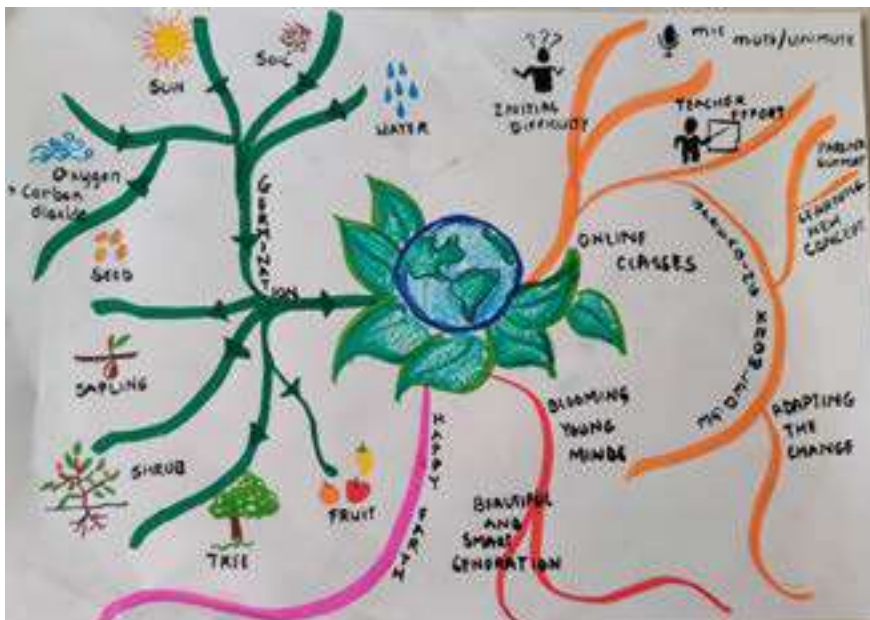

It's a very interesting activity which I have done in EVS. During the course of this art work, we need to have lots of creative thinking and be able to learn new things about different leaves and their sizes. While using the leaves to create another element like birds or animals, we should have an abundance of creative ideas. I enjoyed doing this with my teacher and friends.

Arnav KR, III B

MY MOST FAVOURITE ACTIVITY-EVS

This year I got to do a lot of activities in EVS, like nest making, pulley making, solubility experiment, germination and the like. Out of all of them, I loved the germination activity a lot. Our teacher asked us to put some fenugreek seeds in a cup filled with soil and keep watering it everyday. First 3 days, I couldn't see any seedlings or sprouts. But I kept watering it. On the 4th day, I could see a small seedling peeping out through the soil. I was so excited and finally became happy. I took extra care of them and made sure they got sunlight and water everyday. Now they have grown really tall. I am thankful to my teacher for making us do this activity.

Rashmi Pai, IV C

EVS, EVS what are you?
Hear from teachers, a lot about you.
Elements of life, is that you.
Can you please tell me more about you?

From the window, on the train.
Riding on the hills so so great!
Going to school, across the bridge.
Frolicking with friends on the way.

Busy month, with birds and ducks
Living in their nests so strong,
Sowing seeds is the only way,
To see life coming awake.
After all, changing families
Surely, it is nature's way!

Oh my God, I never knew..
EVS, EVS what are you???

Radhika, IV A

MONUMENTS

Monuments!
How you rise and stand
to imprint your vanity!
monuments!

how you rise and stand
to keep your heads high!
monuments

how you rise and stand
to fail to face the pendulum!
momuments!

how you rise and stand to fall and decay in column

"The beauty of the world lies
in the diversity of its people"

Ahana Sharma, V C

Virtual Tour - Heritage "Our Beautiful India"

India's heritage is vivid and vast. Our history is more complex than that of any other region. Many Emperors have ruled and they have built amazing monuments. Not all credit can go to them as numerous beautiful geological structures are also found in different parts of India. Best of the splendid geological structures that are the pride of our country include Siachen Glacier, Jammu and Kashmir, Pillar Rocks, Kodaikanal, Barren Island, Andamans, Leh, Columnar Basaltic Lava. All these structures are true wonders of nature. It is indeed therefore our duty to be responsible citizens of our country and do our best to preserve these marvelous structures. A lot of tourists every year from around the world especially visit these places just to catch a glimpse of these marvelous creations of God.

Sai Anushka, VII B

The constant recycling of water is called Water Cycle. I like this diagram because this process is so beautiful and it shows how nature works tirelessly. We come to know how the water gets heated and goes up, cools down and again comes down as rain. I learnt new words such as evaporation, condensation and precipitation.

Water cuts through, bypasses or overflows, but it always finds a way. It teaches us to be persistent; strength and growth come only through continuous effort and struggle. Just as nothing stops water in finding its way, likewise, there is no obstacle which we cannot overcome. In the middle of every difficulty, lies the opportunity.

Abhinandan, V C

RELIVING THE PAST (HISTORALIVE @ VIRTUAL CLASSES)

Tell me and I forget, teach me and I remember, involve me and I learn.

Social science classes are always interesting because the methodologies of teaching are special which involve the students, helping them to remember the topic that is taught for a long time. Learning about history in social science classes is like reliving the past.

In virtual classes this became even more easy. Knowing about modern India and its struggle for freedom through videos and web applications made learning way more comfortable and simple. The efforts of the Indians to be free from captivity was shown through various applications on the web in our social science classes .

One of which was google earth to show the place where important events have occurred as a part of the national freedom struggle. The timelines prepared by the teachers helped in understanding the order of the events in an efficient manner. Powerpoint presentations which have visual representations, helped us in remembering the event and the place. Animated videos also were helpful.

Not just history but also civics and geography became easy. The concepts taught were understood and will benefit the students in the future.

The values learnt through the subject will help in bringing about a change against the social evils and applying these ethics in our daily life. However, there was nothing less that we learnt in online classes compared to offline. The virtual social science classes have always been fun as it was mostly exploring and learning... indeed, history came alive !

Anvita Grace Kadapatinti, VIII B

MASALA EGG

My teacher, Sireesha mam was teaching us history and suddenly she remembered the incident about the masala egg. We all were intrigued when she mentioned this. She explained the story to us, as I quote "there was a women who had found a rock and used it to grind her spices for years but after some time when she was 42 she learned it was a egg which was very alike to a Tyrannosaurus rex, A Rajasaurus Narmadensis egg, and when she found that out she was named Dinosaur Princess". then she promised us that she would give us virtuall tour of the dinosaur park in Gujarat. When the day came we were all excited and mam took us on a virtual tour to Dinosaur Fossil Park in Ahmedabad-Gujarat in the class. We saw crazy sites which were dinosaur nesting sites some million years ago. In Fact, we came to know that it was the world's third largest Dinosaur Fossil excavation sites, I never knew that we had such a big site in India. We saw fossilized remains of the dinosaur embedded deeply inside the rocks. Our treasure hunt started, we saw many unforgettable things , but the ones which attracted us the most were extracted fossil dinosaur bones that looked like a roti wrap and the enchanting masala egg which was preserved inside a kind of jewellery box for which we were eagerly waiting to see.

It was so interesting it told us so much about the dinosaurs .

Anaum Fatima, VI B

THE COLORS OF FREEDOM

This was the red letter day when our Constitution set out
New rules of freedom...

It's the Republic day that we all are talking about.
India is now a free kingdom .

We are grateful to our freedom fighters,
To them we owe our living a free life .

Dr. B.R.Ambedkar was the father of the Constitution
The constitution led to a great social evolution ...
There is a proper trial for any law's violation ,
There is proper law-execution .

The Constitution was adopted on the 26th of November, 1949
That came into effect on the 26th of January, 1950.
These rules made India work effectively and helped the nation shine
There are colours of freedom now in every city.

Anvita Grace Kadapatinti, VIII B

Friends for ever - Misbah, Haroon and Varshith. They supported me always and are kind and friendly

My Achievements - I won gold and silver medals in swimming and cricket competitions and many certificates for a lot of events held in my school life. Examples - poem recitation, handwriting and national competitions like isro and acting.

Message for Deesians/ DSE Family - Always enjoy this wonderful school life, study on time, make your parents and your teachers feel proud and respect everybody.

Abrar Ali Mirza

Friends for ever - Aryan, Haroon, Misbah and Varshith as our thought process match

My Achievements - I overcome my stage fear with the help of opportunities given by School.

Message for Deesians/ DSE Family -

My journey in this school taught me a lot. Never feel school life is the worst as every step here, teaches you something about life. The mistakes you do here don't have any major consequences in comparison to the consequence in the life you have after your schooling.

Cherish every moment you have here as you can't have all those moments back...

Amith Santosh

Friends for ever - I have four best friends who I have been with since my first year in DSE. They are Jishnu, Praneel, Siddharth and Ruthwik

My Achievements - I have improved in studies and socialising and learned to become extrovert with the help of my friends.

Message for Deesians/ DSE Family - Never worry about failing or loosing. Always have fun no matter what you do.

Veekshith

Friends for ever - Romir, Roshan, Jawahar, Vansh, Zaki, Jai and many more.

My Achievements - I groomed as a player and won many prizes in throwball and football competitions.

Message for Deesians/ DSE Family

Don't fear, you're halfway done and remember why you are here. Every aspect of your school life, whether it's good or bad, will help you in becoming the best you can possibly be, and that is worth every bit of struggle

Sanjay Krishna

Friends for ever - My best friend is Ridhi who has been there with me through all the ups and downs. And I hope that our bond remains the same forever

My Achievements - I received many awards under the categories- Best handwriting, Avid Reader, Disciplined and All-rounder child.

Message for Deesians/ DSE Family

I find myself very lucky to be a part of this school. I am grateful for all the teachers, classmates and friends and wish that school achieve more success.

Suha Hasan

Friends for ever - Romir, Zaki, Suhair, Sanjay, Nakul and the list is endless.

My Achievements

I overcome my stage fear. Thanks to my teachers.

Message for Deesians/ DSE Family

School life is all about friends and studies So, choose your friends wisely and always stay in good company. Don't make enemies and have a good and healthy relationship with everyone around you and always respect other opinions and thoughts.

Vikram Jai Singh

Friends for ever - "The three musketeers" is name I gave for our friendship. Shristi, who is smart, caring and a drama queen and Sahasra, who is bubbly and absentminded are my BFF.

My Achievements- I have had many achievements here at DSE. I have won a few chess competitions. I had also won writing competitions and art competitions. And as for group competitions, I had won in dance, singing, skits, cooking, basketball, declamation, MUN etc.

Message for Deesians/ DSE Family - A message that I would like give to my juniors, especially the ones moving to 10th grade is that don't get distracted, it can cause you a lot of trouble. Don't get nervous. Start preparing a little early and also take a few breaks. Enjoy the time you have here, as it will be your last year. It's the golden era of your life. Enjoy but don't go overboard with it. Thank you DSE!

Imaira Sameia Ahmed

Friends for ever - Mrunmayee and Mariyam
My Achievements - I always participated in various competitions enthusiastically. I also bagged 1-3 ranks many times for scholastic, co-scholastic and sports competitions. My biggest achievement was to become head girl of my beloved school. Also I was entitled with Best All-rounder student. I've achieved a lot academic wise and other competitions, but I think what's more important is that I've grown so much over the years as a person and I'm leaving this school with bright colors.

Message for Deesians/ DSE Family - Be grateful for what you have right now, live in the moment and stop constantly aspiring to grow older. Your childhood days are never going to come back, so enjoy while you still can.

Neharika

Friends for ever - Farhan, Muzammil, Neharika, Shaeza.

My Achievements - I like sports and also worked hard for the same. I won many prizes in Kho-Kho, leg cricket and basketball. I was also appreciated for my dramatic skills.

Message for Deesians/ DSE Family We always wait for future to come and once it comes, we miss our past. Live the moment. Make lots of memories but also work hard for your goals

Samyak Mehta

Friends for ever - Tanmayee, Tiya, Palak, Aarna are my closest friends with whom I have shared many sweet moments.

My Achievements - I learned how to work in a team I achieved being together, learn, play, share and enjoy in a group.

Message for Deesians/ DSE Family - School days are the best days in our life and the happiest days ever, as School life teaches many values and ethics.

Mohika Goyal

Friends for ever - "A good friend is like a four-leaf clover, hard to find and lucky to have." Tanmayee is one of the most fun-loving people I have ever met in my life.

My Achievements - In class 8th, I won a 2nd prize for essay writing on 'Indira Gandhi' in Urdu.

Message for Deesians/ DSE Family - To my fellow juniors, you're off to great places. Today is your day! Go confidently in the direction of your dreams! Live the life you've imagined.

Sarah Khan

Friends forever - My class and my teachers

My achievements - I participated in MUNS's and was selected as the Deputy Secretary for the school.

Message for Deesians/DSE family - The best thing to do in school is to be your truthful self. Work hard and be happy.

Amaanya Ravi

Friends forever - My class and my teachers
My achievements - I won the trust of my teachers.

Message for Deesians/DSE family would like to advise them not to waste their time with gadgets, be with your friends and spend time with them

Dhruv

Friends for ever - Virat, Zain, Amith, Harsheet, Jasseer because They accepted the way I am and gave their 100% to help me in tough situations. They cracked jokes and helped me recharge my batteries. "Lots of people want to ride with you in the limo, but what you want is someone who will take the bus with you when the limo breaks down."

My Achievements - The biggest achievement for me was becoming the head boy of such a fabulous school. Also I got opportunities to groom myself as a player.

Message for Deesians/ DSE Family - I would advise my juniors to never let go of opportunities and be afraid of taking new chances. Cherish each and every moment of school life. As a student always trust your instincts and back yourself in every situation. Remember that every problem is a challenge to prove yourself and a skill to be developed. Enjoy school life because it is just as a fluke of wind, before it blows and ends, just enjoy it with a happy and bright smile.

Abdul Muqet

Friends for ever - My alter ego Rida is my best buddy because we have so much in common. I'm so thankful to her for making school life even more enjoyable.

My Achievements - More than any of my physical achievements and awards, I want to talk about my mental achievement in which of course DSE has also played a big role. I was surrounded by a wall of fear and was able to break it with the help of motivation and encouragement by teachers.

Message for Deesians/ DSE Family Enjoy their life in school and do their best and to overcome their fears.

Ayesha Ali

Friends forever - Amit and Asghar

My achievements - My achievement this year is that I have earned the respect and trust of my school.

Message for Deesians/DSE family - Don't make promises you can't keep. Know what you can do and what you are. Do what you can and leave the rest. "Be Original"

Ishaan

Friends forever - My class

My achievements - The biggest achievement is I became the captain of my school house.

Message for Deesians/DSE family - Live your life. Enjoy school life.

Harsheet

Friends forever - My Best Friends are Virat, Harsheet, Praneet, Nikunj, Dhruv and Arat because they have always been there for me.

My Achievements - My biggest achievement was that I was appointed as the sports captain

Message for Deesians/DSE family - Work hard, there is no substitute for hard work. Have a positive attitude towards life.

Jaseer

Friends forever - Sahasra and Imaira. Our friendship was as though the universe had meant for it to happen.

My achievements - The memory of me winning the inter-house debate competition still remains. It was one of those moments where the feeling of achievement surged through me

Message for Deesians/DSE family - I would like to thank DSE for making me the confident person that I am today. If I could pass on a message to my juniors, I would advise them to take life in a stride, winning and losing is part of the game, and however it is the effort that you put in that counts.

Shristi

Friends forever - She's the most amiable person I know and she is Tanmayee!

My Achievements - I have achieved many of my milestones in the past few years. But I'd say that basketball has been a major part of all my achievements.

Message for Deesians/DSE family - Don't run and be a part of the herd. Be yourself and don't change yourself. Teachers deserve immense love and respect from us. Enjoy yourself at the same time and know your responsibilities. So, balance is key.

Tiya Bagga

Friends forever - I am fortunate to have a true friend Adeeb. We share our secrets, happiness and even sadness

My achievements - In third standard I was the national topper of the Mathematics Olympiad. In class sixth I won the Presidents Medal for extraordinary contribution to science through my model on plastic reusability.

Message for Deesians/DSE family - Study well, focus on academics and never give up.
Asghar

Friends for ever - Muzammil, Shaeza, Neharika, Samyak

My Achievements - I received 1st and 2nd rank in various competitions.

Message for Deesians/ DSE Family - Try to live life to the fullest because you only get one.
Farhan

Friends forever - My best friend is Veek-shith. We make fun of each other, and also help each other when in need.

My Achievements - My greatest Achievement is I was able to develop communication skills with my teachers and friends.

Message for Deesians/DSE family - School is one of the most important place. Along with academics, take care to be disciplined and give respect to others. Cherish every moment at your school.
Sai Praneel

Friends forever - I feel blessed to have met Rithika, Unnati, Geetika, Sahasra, Shristi, and Imaira

My Achievements - I played the role of Shivagami in the Baahubali skit

Message for Deesians/DSE family - Try to have new experiences. Just remember that, 'When the going gets tough, the tough gets going.'
Ramya

Friends for ever - Neharika, Farhan, Samyak
My Achievements - Student of the month award

Message for Deesians/ DSE Family - I hope you all will enjoy the memories you make with the school further in the future.
Shaeza Kauser

Friends forever - My class

My Achievements - My greatest achievement is simple, it was when I stopped to limit myself and started talking to many more people in my class and participating in class

Message for Deesians/DSE family - I love this school and the teachers are all approachable and are willing to help you out any time. My request for my juniors is to make your school time memorable.
Rithika

Friends for ever - Daniyaal, Farhan, Samyak, Nandan, Shaeza, Yashica, Neharika

My Achievements - I bagged 2nd and 1st place in group dance, salad decoration and Kho- Kho Competition

Message for Deesians/ DSE Family - Make as many memories as you can. Hangout with your friends, focus on your studies Memories are the only thing which will be left with you after stepping out of this school.
Muzammil Abdul Hai

Friends forever - Vansh as he is funny, kind and can be relied upon during difficult situation.

My Achievements - I have learnt to communicate.

Message for Deesians/DSE family - their best at everything they do. - To give
Zaki

Friends for ever - Varshit, Misbah, Amith, Aryan, Abrar

My Achievements - I've become a lot more confident in myself and more comfortable with talking to people.

Message for Deesians/ DSE Family - I like this school a lot. I hope it grows every day.
Haroon Mohammed Shaikh

Friends forever - Kashish-with her I shared our 11years of bond, goofiness and laughter.

My achievements - A few medals in athletics like long jump, relays and 100 meter race and bagged the third place in a cultural art competition

Message for Deesians/DSE family -
Enjoy your life

Yashica

Friends forever - My best friend in school is Harsheet. We are not just friends but brothers.

My achievements - I participated in many competitions and won, above all winning the hearts of all.

Message for Deesians/DSE family -
Start chasing your goal! Work hard! Focus on academics as well on extra-curricular activities

Gourav

Friends forever - My best friend is Ayesha

My achievements - The greatest achievement that I got was in ninth grade when I became the Vice-Captain of my house.

Message for Deesians/DSE family -
Be confident and follow your own path and follow your dreams. Live the way that you always wanted to live.

Rida

Friends forever - Tiya Bagga is my best friend.

My achievements - I may have not achieved many things, but the ones I have till date are valuable. Life is just not about achieving things, rather to learn some.

Message for Deesians/DSE family - "DO what is right, not what is easy". I would give an advice to them. "Each day begins with a new life and ends with a new lesson"

Tanmayee

Friends forever - My best friend is Zaki. He has been an amazing friend. We have had our ups and downs but no matter what he remained there and made my journey in this school exiting and joyful.

My achievements - I am a team player

Message for Deesians/DSE family -

Give your 100% on everything you do" because the time we have in our school time is the best time of our life

Vansh

Friends forever - Syed is my best friend.

My Achievements - I participated in all games

Message for Deesians/DSE family -
Make memories, make friends, play and study.

Amaan

Friends forever - My class and my teachers

My achievements - I participated in basket ball, alongside with other sports as well.

Message for Deesians/DSE family -

School is not just a place where you'll learn answers to a lot of life's questions, but also a phase which will make you question a lot of life's answers. GOOD LUCK!!!

Romir

Friends forever - Every person who makes me feel special, joyous and full of life would be tagged as a friend.

My Achievements - My life changing achievements are Improvement in social skills, Education, Confidence

Message for Deesians/DSE family - Don't give up and don't do anything to regret later
